Stilled Tongues From Soapbox To Soundbite:

Stilled Tongues Stephen Coleman, 1997 Oratory in Action Michael Edwards, Christopher Reid, 2004-07-23 This book examines the power and possibilities of public speaking ranging from the oratory of the Athenian law courts to the political oratory of New Labour A distinctive feature of the book is its conception of the orator as a performer and practitioner and of oratory itself as a form of action Historically the power of eloquence to rouse and influence an audience made the orator a controversial figure whose rhetorical skills provoked suspicion and awe in almost equal measure These essays show how orators exploit those skills in their attempts to shape the external world of opinion and fact They also show how the speech itself may be considered as a linguistic event or way of happening which seeks to bind the orator and the audience in prized moments of connection **Cutting Across Media** Kembrew McLeod, Rudolf Kuenzli, 2011-08-05 Collection of essays by academics and artists that considers the possibilities of appropriation art the legal ramifications of such practices and the intersection of popular culture and the avant garde Digital Storytelling, Mediatized Stories Knut Lundby, 2008 Recent years have seen amateur personal stories focusing on me flourish on social networking sites and in digital storytelling workshops The resulting digital stories could be called mediatized stories This book deals with these self representational stories aiming to understand the transformations in the age old practice of storytelling that have become possible with the new digital media Its approach is interdisciplinary exploring how the mediation or mediatization processes of digital storytelling can be grasped and offering a sociological perspective of media studies and a socio cultural take of the educational sciences Aesthetic and literary perspectives on narration as well as questioning from an informatics perspective are also included The free speech wars Charlotte Lydia Riley, 2020-11-20 Who gets to exercise free speech and what happens when powerful voices think they have been silenced Assembling a diverse group of commentators activists and academics this book explores the contemporary free speech wars to try to understand how this issue has become increasingly charged It asks how the spaces and structures of speech mass media the lecture theatre the public event the political rally and the internet shape this debate The contributors examine how acts such as censorship boycotts and protests around free speech developed historically and how these histories inform the present The book explores the opposing sides in this debate beginning with a defence of speech freedoms and examining how speech has been curbed and controlled before countering this with an exploration of the way that free speech has been weaponised and deployed as a bad faith argument by people wishing to commit harm Considering two key battlefields in the free speech wars the university campus and the internet this book encourages the reader to be suspicious of the way that this topic is framed in the media today The free speech wars offers context provocation stimulation and hopefully a route through this conflict **Why We Don't Talk To Each Other Anymore** John Locke, 1999-08-31 The cyber age is robbing people of the most important aspect of communication face to face encounters and heart to heart conversations Now a professor of human communication sciences shows where

community has disappeared to and why it matters The Aesthetics of Free Speech J. Roberts, 2003-12-09 The Aesthetics of Free Speech Rethinking the Public Sphere is one of the first books to theoretically explore the relationship between free speech and the public sphere By drawing upon Marxist theory the author John Michael Roberts demonstrates how liberal theorists frequently construct an abstract aesthetic of rational cultivated and competent discussion which then serves as a norm through which certain utterances can be humiliated and excluded from participating fully within the public sphere However the author also shows how excluded utterances develop their own aesthetic of free speech and how this aesthetic then comes back to haunt the bourgeois public sphere The Ethical Journalist Tony Harcup, 2007 As one of the main scriptwriters of the two internal BBC training sessions which were produced following the Hutton inquiry I can heartily recommend this book Peter Stewart BBC Training Department Packed with illustrations of journalistic heroism and skulduggery This is an engaging and useful reference book and should become essential reading for serious students of journalism and for those who practise it Times Higher Education Supplement A must read for all journalists be they reporters editors or bloggers It is both a straightforward explanation of ethical dilemmas using real life examples and a subtle commentary on the state of British journalism British Journalism Review This engaging and accessible book cannot fail to inspire those who want to be good journalists in every sense of the word Journalism Practice Everything that journalists do has ethical implications and in this book Tony Harcup explores the range of issues likely to confront those studying journalism or training to become journalists The starting point for this engaging and innovative book is that ethical journalism is good journalism Building on the reflective and questioning approach of the author's acclaimed Journalism Principles and Practice this book discusses journalists' personal anecdotes alongside relevant critical studies by academics Original interviews include Andrew Gilligan on his meeting with weapons expert Dr David Kelly and Ryan Parry on being an undercover reporter in Buckingham Palace Informed by new research and the author's own experience within mainstream and alternative journalism The Ethical Journalist addresses topics such as trust the public interest deception news values source relationships crime reporting regulation and the Hutton inquiry This exciting new title discusses ethics as fundamental rather than as a set of problems or an added extra and it should become essential reading for everyone interested in journalism Self-Representation and Digital Culture N. Thumim, 2012-07-17 Taking a close look at ordinary people telling their own story Nancy Thumim explores self-representations in contemporary digital culture in settings as diverse as reality TV online storytelling and oral histories displayed in museums From Public Service Broadcasting to Public Service Communications Damian Tambini, Jamie Cowling, 2004
