Telling Narratives Leslie W. Lewis, 2024-03-18 *Telling Narratives* analyzes key texts from nineteenth and early twentieth century African American literature to demonstrate how secrets and their many tellings have become slavery's legacy By focusing on the ways secrets are told in texts by Jessie Fauset Charles W Chesnutt Pauline Hopkins Frederick Douglass and others Leslie W Lewis suggests an alternative model to the feminist dichotomy of breaking silence in response to sexual violence This fascinating study also suggests that masculine bias problematically ignores female experience in order to equate slavery with social death In calling attention to the sexual behavior of slave masters in African American literature Lewis highlights its importance to slavery's legacy and offers a new understanding of the origins of self consciousness within African American experience

Therapy is particularly useful to therapists working in a family context with child or adolescent referred problems and for students and clinicians treating the problems they see every day in their community. The book builds on the strengths of the first edition incorporating ideas and articles that have become worthy of investigating since 1990 into the original text. This new edition also introduces five new chapters on resiliency and poverty, adoption, chronic illness, spirituality and religion, and parenting strategies. The new chapters make the book far more relevant for students and clinicians trying to use family theory and technique in response to the problems they see in their communities. Basic Concepts in Family Therapy will assist you in offering clients better services by providing a deeper understanding of the contemporary family in its various forms, the psychological bonds that shape all families, and the developmental stages of the family life cycle. This exploration of how family demography, stages, and life cycles affect family functions is a solid foundation from which all of the therapeutic concepts in this book can be explored. Some of the facets of family therapy you will explore in Basic Concepts in Family Therapy are the importance of spirituality and religion in family therapy, generational boundaries, closeness, and role behaviors, managing a family's emotions, defining problems and generating and evaluating possible solutions, teaching children specific attitudes, values, social skills, and norms, transracial adoptions and normative processes, and developmental issues of adoptive parents, strategies for reducing conflict, and much more. Basic Concepts in Family Therapy will help to broaden your understanding of the ways families function in general. You can use the effective concepts explored in this text to make a thorough assessment of the impact of a disorder on a child and on the rest of his or her family, as well as how family dynamics might have shaped or exacerbated the problems. The concepts described in this text can be customized to clients' cultural values to avoid unnecessary resistance. As a new therapist, you will gain confidence in your assessments, and if you are already a seasoned professional, you will gain creativity in your interventions.

The Empathic God Frank Woggon, 2024-05-07. What if Jesus did not come to die for our sins? What if instead, Jesus's life and death were intended to provide a way out of our shame? While traditional Christian teachings about the atonement emphasize sin as guilt and transgression against God's will and commandments, Frank Woggon points out that clinical spiritual care reveals that the human condition is predominantly marked by shame rather than guilt. In *The Empathic God*, Woggon examines myopic readings of the Jesus event that in turn have embedded distortions into traditional paradigms of the atonement. In contrast, Woggon mines narratives of the human condition to engage in a critical examination of the Jesus story. As a clinician and ordained Baptist minister, Woggon presents the Jesus event as God's empathic initiative toward humanity and convincingly argues that salvation comes through empathy rather than forgiveness. Woggon's work constructs a clinical theology of atonement from the perspective of clinical spiritual care. *The Empathic God* calls for a practical response of caring participation in God's ongoing work of salvation through an empathic praxis of spiritual care. Most importantly, *The Empathic God* takes seriously that lived human experience is the starting point for theological exploration rather than doctrine. This book will help

practitioners and students of spiritual care in the Christian tradition to reflect more critically on the intersection of spiritual care practice and theology The book also will challenge pastors ministers of pastoral care chaplains pastoral counselors spiritually oriented therapists to interrogate and re interpret traumatic shame filled Christian teachings about the atonement so that they too can join in God s ongoing and liberating work of salvation

The Secret History of Domesticity Michael McKeon,2006-12-06 Taking English culture as its representative sample The Secret History of Domesticity asks how the modern notion of the public private relation emerged in the seventeenth and eighteenth centuries Treating that relation as a crucial instance of the modern division of knowledge Michael McKeon narrates its pre history along with that of its essential component domesticity This narrative draws upon the entire spectrum of English people s experience At the most public extreme are political developments like the formation of civil society over against the state the rise of contractual thinking and the devolution of absolutism from monarch to individual Subject The middle range of experience takes in the influence of Protestant and scientific thought the printed publication of the private the conceptualization of virtual publics society public opinion the market and the capitalization of production the decline of the domestic economy and the increase in the sexual division of labor The most private pole of experience involves the privatization of marriage the family and the household and the complex entanglement of femininity interiority Subjectivity and sexuality McKeon accounts for how the relationship between public and private experience first became intelligible as a variable interaction of distinct modes of being not a static dichotomy but a tool to think with Richly illustrated with nearly 100 images including paintings engravings woodcuts and a representative selection of architectural floor plans for domestic interiors this volume reads graphic forms to emphasize how susceptible the public private relation was to concrete and spatial representation McKeon is similarly attentive to how literary forms evoked a tangible sense of public private relations among them figurative imagery allegorical narration parody the author character reader dialectic aesthetic distance and free indirect discourse He also finds a structural analogue for the emergence of the modern public private relation in the conjunction of what contemporaries called the secret history and the domestic novel A capacious and synthetic historical investigation The Secret History of Domesticity exemplifies how the methods of literary interpretation and historical analysis can inform and enrich one another
