Temas Criminológicos:

Criminología, victimología y cárceles Antonio Beristáin, 1996 *Estudios de criminología III* Raquel Bartolomé Gutiérrez, 2008-10-31 Estudios de Criminología III continúa la línea iniciada hace quince años por el Centro de Investigación en Criminología de la Universidad de Castilla-La Mancha de divulgar trabajos criminológicos sobre temas relevantes y actuales que preocupan tanto a los expertos como al conjunto de la sociedad. Este volumen recoge análisis teóricos y empíricos sobre cuestiones emergentes muy presentes en el debate político criminal: nuevas formas de justicia, Justicia Terapéutica, nuevos grupos sociales como menores inmigrantes. Pero también se abordan cuestiones quizá menos novedosas pero igualmente interesantes de gran calado social y político sobre las que es necesario seguir trabajando con rigor como la percepción social de la inseguridad ciudadana, la victimización en los jóvenes o las respuestas educativas en el sistema de justicia juvenil. En conjunto, esta obra ofrece materiales de gran interés para el análisis y reflexión sobre la compleja realidad criminológica y social en que vivimos.

América Latina y su criminología Rosa del Olmo, 1981 Tratar de establecer cómo surgió y se desarrolló la criminología en América Latina es el objetivo principal de este libro. En las diferentes historias del pensamiento criminológico escritas por especialistas de los países desarrollados no figura la latinoamericana. La autora analiza detalladamente las sucesivas escuelas y la forma como se van expresando y difundiendo. Subyace en toda la exposición la tesis de que el delito es un fenómeno social y que su estudio debe hacerse como parte del análisis de las estructuras sociales.

The Routledge Handbook on Global Community Corrections Ioan Durnescu, James M. Byrne, Benjamin J. Mackey, Faye S. Taxman, 2024-06-25 The Routledge Handbook on Global Community Corrections assesses and analyzes the status of community corrections systems around the world highlighting inter-regional and intra-regional variations in their design, implementation and impact on policy and practice. Covering both probation and parole, this handbook brings together leading international experts to examine the myriad of systems developed under the broad heading of community corrections to manage community corrections populations at the pre-adjudication, adjudication and post-release stages. Chapters are designed to consider the following questions: How many offenders are placed in community corrections systems around the globe? What are the key design features of these community corrections systems? What do we know about the effectiveness of community corrections within and across global regions? This is an essential reference text for all those engaged with community corrections, probation and post-release policy in criminal justice.

Criminología y conducta antisocial Arturo Silva, 2007-11 Presenting a valuable integration of the latest criminology research, this work uses the analysis of the most controversial topics in the field, bringing together philosophical, legal, sociological and psychological perspectives to the field of antisocial behavior. The book also proposes that the science of criminology needs to focus its efforts on a way to create a social technology that allows for change to come about in the field. This would achieve a shift from the speculative to the actual path where criminal behavior leads. Ideal for philosophers, criminologists, lawyers, sociologists, psychologists.
