an age of science and logic we can be sure that death is an issue to which humans attach great importance In a sense the idea of an afterlife can be a great source of comfort to those whose death is imminent as well as to their loved ones Those who have led especially difficult lives can look forward to a more pleasant world while those who have enjoyed happiness and abundance have the chance to experience more good fortune To those left behind the idea of an afterlife presents the chance to meet a loved one again We may not be conscious of it but such hopes and expectations stay with us throughout our lives If such an afterlife does exist then there is no reason to avoid or fear death Moreover if we believe that another life awaits us then we would believe that we are only separated from our loved ones temporarily before being reunited with them later on
