Murder has transfixed the popular press for centuries But it was only in the second half of the twentieth century that murder began saturating front pages and making these monsters what we today recognise as modern celebrities It was three serial killers caught and executed in the few years after the end of the Second World War who precipitated a level of public furore never seen before Neville Heath a charming sadist who killed two women John George Haigh the Acid Bath Killer who killed between six and nine men and women and John Christie the ineffectual necrophile who killed between six and eight women The modern news coverage finds its roots with these three men whom the crime historian Donald Thomas called the Postwar Psychopaths Their crimes were the first to generate a tabloid frenzy the like of which we see all around us today It was not only the murderers who captured the public s imagination It was the detectives who hunted them down the judiciary who tried them and the man who executed them the legendary hangman Albert Pierrepoint This book tells the stories of these three infamous serial killers against the backdrop of the tabloid frenzy that surrounded them Politics of The Rope Neville Twitchell,2012-10-15 This illuminating broad based political and cultural study presents the definitive account of the campaign to abolish capital punishment in the period 1955-69 It comprises a work of contemporary history exploring the theme from a number of angles both pro and contra which have not been covered so extensively before From the sphere of governmental and parliamentary politics to the relevant pressure groups to the role of the mass media to the significance of the different churches and the influence of professional bodies such as those representing the police and prison officers the book skilfully identifies their interaction with one another It examines the effect on the campaign of fluctuations in public opinion and of controversial murder cases such as those of Timothy Evans Derek Bentley Ruth Ellis and James Hanratty which in turn often informed the state of public opinion The work sets the campaign in the context of the social and cultural ferment of the era the advent of the permissive society and contrasts the fortunes of the movement with those of other conscience issues such as the legalisation of abortion homosexual law reform divorce liberalisation and the abolition of theatre censorship It seeks to account for the success of the campaign within a relatively short time span in the face of intense public antipathy and a concerted effort by various elements of the establishment to thwart its fulfilment It asks why the campaign succeeded when so many others facing lesser institutional obstacles failed and it asks why it succeeded when it did and in the way it did and considers whether the success of the campaign can be accounted for by the Zeitgeist On one level it is a study of the politics of social reform but at a deeper level it is a study of the way in which social trends feed

through into political action at the parliamentary level and illustrates the process of policy formation in the area of private members legislation and free votes where the party has voluntarily taken a back seat

Shocking and Sensational Julian Upton, 2018-06-05 Already part of a genre known for generating controversy some true crime and scandal books have wielded a particular power to unsettle readers provoke authorities and renew interest in a case The reactions to such literature have been as contentious as the books themselves clouding the truth with myths and inaccuracies From high profile publishing sensations such as *Ten Rillington Place Fatal Vision* and *Mommie Dearest* to the wealth of writing on the JFK assassination the death of Marilyn Monroe and the Black Dahlia murder this book delves into that hard copy era when crime and scandal books had a cultural impact beyond the genre's film and TV documentaries fueling outcries that sometimes matched the notoriety of the cases they discussed and leaving legacies that still resonate today

Murder and the Making of English CSI Ian Burney, Neil Pemberton, 2016-09-18 A history of the origins and development of forensic science in murder investigations in early twentieth century England. Crime scene investigation or CSI has captured the modern imagination. On television screens and in newspapers we follow the exploits of forensic officers wearing protective suits and working behind police tape to identify and secure physical evidence for laboratory analysis. But where did this ensemble of investigative specialists and scientific techniques come from? In *Murder and the Making of English CSI* Ian Burney and Neil Pemberton tell the engrossing history of how in the first half of the twentieth century novel routines regulations and techniques from chain of custody procedures to the analysis of hair blood and fiber fundamentally transformed the processing of murder scenes. Focusing on two iconic English investigations the 1924 case of Emily Kaye who was beaten and dismembered by her lover at a lonely beachfront holiday cottage and the 1953 investigation into John Christie's serial murders in his dingy terraced home in London's West End Burney and Pemberton chart the emergence of the crime scene as a new space of forensic activity. Drawing on fascinating source material ranging from how to investigator handbooks and detective novels to crime journalism police case reports and courtroom transcripts the book shows readers how over time the focus of murder inquiries shifted from a primarily medical and autopsy based interest in the victim's body to one dominated by laboratory technicians laboring over minute trace evidence. *Murder and the Making of English CSI* reveals the compelling and untold story of how one of the most iconic features of our present day forensic landscape came into being. It is a must read for forensic scientists historians and true crime devotees alike. Out of some pretty gruesome parts Burney and Pemberton have assembled a remarkably elegant account of the making of modern murder investigation. Their analysis combines scholarly sophistication with a clarity of prose that entertains informs and surprises. *Murder and the Making of English CSI* brims with insight about the historical path that led to our forensic present. Mario Biagioli UC Davis School of Law author of *Galileo's Instruments of Credit Telescopes Images Secrecy*.
