Coury, Robert Kevin Lacey, 2009 Writing Tangier discusses an array of topics relating to the literature on Tangier from the seventeenth century to the present Major questions include Why has Tangier come to play an important role in contemporary world literary history as a signifier in the literary imagination what is the nature of the intertextual output produced through Paul Bowles translations of the oral tales of a circle of uneducated storytellers including Mohammed Mrabet and Larbi Layachi and the text *For Bread Alone* brought to Bowles by the literate Mohamed Choukri how do academics artists and writers who have been based in the city or who have written about it assess the various socio economic political and cultural factors that have shaped its cultural production and the relationship of this production to the celebrated hybrid aspects of its identity does the success of the literature of Tangier reflect a truly new multicultural cosmopolitanism or does it stem from the fact that this literature is congenial to Westerners that it is understood in terms that they themselves define and that much of it including productions in Arabic prepared with the expectation of translation has even been written to measure for them **Who's Who in Contemporary Gay and Lesbian History Vol.2** Robert Aldrich, Garry Wotherspoon, 2005-07-25 Who's Who in Contemporary Gay and Lesbian History From World War II to the Present Day provides a comprehensive modern biographical survey of homosexuality in the Western world Among those included are Controversial political activists Peter Tatchell Guy Hocquenghem Harvey Milk Pop icons David Bowie k d lang Boy George Groundbreaking artists writers and filmmakers Pier Paolo Pasolini Derek Jarman David Hockney Intellectuals who have shaped and changed the modern understanding of sexuality Michel Foucault Simone de Beauvoir Alfred Kinsey Over 500 entries clear informative and enjoyable to read build up a superbly thorough overview of

conflict sweeping the region a record of the power relations that divided space along lines of gender and ethnicity including the spatial impact of the widespread sexual commerce between Westerners and natives a vision of the Maghreb as a land that can be dominated or imposed on as a kind of frontier space an expression of anxieties about the specters of Cold War antagonisms and an embrace of the underlying logic of the market to the culture of the Maghreb Counterbalancing the depictions of Tangier by Westerners who sought to reconcile their nostalgia for the colonial order with their support of native demands for independent governance is Walonen s extended analysis of the contrasting sense of place found in the writings of native Moroccan authors such as Mohammed Choukri Tahar Ben Jelloun and Anouar Majid In its focus on Tangier and the larger Maghreb as a lived environment situated at a particular spatial and temporal crossroads Walonen s study makes an important contribution to the fields of urban transatlantic and postcolonial studies

Stonewall Nicholas C. Edsall,2003-09-29 As recently as the 1970s gay and lesbian history was a relatively unexplored field for serious scholars The past quarter century however has seen enormous growth in gay and lesbian studies The literature is now voluminous it is also widely scattered and not always easily accessible In *Toward Stonewall* Nicholas Edsall provides a much needed synthesis drawing upon both scholarly and popular writings to chart the development of homosexual subcultures in the modern era and the uneasy place they have occupied in Western society Edsall s survey begins three hundred years ago in northwestern Europe when homosexual subcultures recognizably similar to those of our own era began to emerge and it follows their surprisingly diverse paths through the Enlightenment to the early nineteenth century The book then turns to the Victorian era tracing the development of articulate and self aware homosexual subcultures With a greater sense of identity and organization came new forms of resistance this was the age that saw the persecution of Oscar Wilde among others as well as the medical establishment s labeling of homosexuality as a sign of degeneracy The book s final section locates the foundations of present day gay sub cultures in a succession of twentieth century scenes and events in pre Nazi Germany in the lesbian world of interwar Paris in the law reforms of 1960s England culminating in the emergence of popular movements in the postwar United States Rather than examining these groups in isolation the book considers them in their social contexts and as comparable to other subordinate groups and minority movements In the process *Toward*

Stonewall illuminates not only the subcultures that are its primary subject but the larger societies from which they emerged
