Tension Areas Of The World By Bennett 2nd Edition:

Geopolitics at the End of the Twentieth Century Nurit Kliot, David Newman, 2013-11-05 An excellent examination of how the collapse of the Soviet Union and the impact of globalization have brought about changes not only to the territorial configuration sovereignty of states and their boundaries but also to traditional notions of state boundaries sovereignty and social order These essays focus on the key regional and geopolitical characteristics of this global reordering with an emphasis on Eastern Europe and South Asia They discuss the territorial reordering which is taking place at the level of the state as boundaries are redemarcated in line with ethno territorial demands as borders are transversed by the movement of peoples information and finance and as the lines of territorial demarcation are perceived not only in terms of their fixed characteristics but as part of a process through which regional and ethnic identities continue to be formed and reformed Each section ends with articles which focus on literature on geopolitics and boundaries This is an invaluable addition to our understanding of contemporary world affairs

Geography in America at the Dawn of the 21st Century Gary L. Gaile, Cort J. Willmott, 2005 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 47 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of American geographers While it focuses on work since 1990 it additionally includes related prior work and work by non American geographers The initial Geography in America was published in 1989 and has become a benchmark reference of American geographical research during the 1980s This latest volume is completely new and features a preface written by the eminent geographer Gilbert White

The Territorial Factor Gertjan Dijkink, Hans Knippenberg, 2001 Nowadays political territoriality is profoundly put to the test by globalization the rise of the network society international migration and new types of risk that state governments find hard to control Yet new political configurations do not invalidate the relevance of territory and territorial identity right away Moreover people who want to escape or forget foreign dominace still reach for the traditionally sovereign state Eastern Europe Asia In this book an international group of political geographers analyse the meaning of post modern transfromation in territoriality at different geographical scales global inter national and local They cover such varied topics as the probability of a clash between civilizations the rise of World cities the disintegration of African States ethnic conflicts and politics in Europe the meaning of a supranational territorial order European Union the end of the welfare state nation building and its symbols Israeli cultural politics urban regimes and local conflict defense mechanisms The perspectives put forward match more general theoretical geography and political science and involve case studies from different parts of the World This important new study is of

immediate interest to students of all levels of political science sociology social geography administrative science international relations contemporary history and to policy makers and politicians
