Teoría De La Comunicación Humana:

Teoría de la comunicación humana Paul Watzlawick, Janet Beavin Bavelas, Don D. Jackson, 2011-01-01 Los autores miembros del equipo que trabajó diez años en Palo Alto California con Gregory Bateson estudian aquí la pragmática de la comunicación interpersonal La comunicación es considerada como una relación cualitativamente diferente de las propiedades de los individuos que participan en ella Después de definir ciertos conceptos generales los autores presentan las características básicas de la comunicación humana e ilustran sus manifestaciones y sus posibles perturbaciones Los distintos aspectos de la teoría son ejemplificados mediante un análisis de la pieza Qui no teme a Virginia Woolf de Edward Albee Se analiza la importancia especial de la paradoja y la contradicción en la comunicación humana tanto desde el punto de vista de la patología como de la terapia La conducta perturbada es vista como una reacción comunicacional ante una situación que tiene determinadas propiedades y no como una enfermedad localizada en la mente del individuo Se discute también la famosa teoría del doble vínculo sobre la esquizofrenia y se ejemplifica la situación contradictoria que caracteriza al doble vínculo en unas variadas situaciones interpersonales incluida la psicoterapia En el último capítulo se establece una comparación entre la teoría de la comunicación y el punto de vista existencial Dentro de la nueva literatura sobre los fenómenos de la comunicación humana este libro está ya en camino de convertirse en un clásico

Teorías de la comunicación Miquel Rodrigo Alsina, 2001 Las teorías de la comunicación con una tradición en nuestro país de más de veinte años se han consolidado como una de las líneas de investigación y de los ámbitos de docencia más importantes tanto en los estudios de ciencias sociales como de humanidades En Teorías de la comunicación ámbitos métodos y perspectivas se nos muestra claramente cómo se ha producido ese reconocimiento académico y científico que no ha estado exento de dificultades Pero el mayor reto que deben arrastrar las teorías de la comunicación es la delimitación de un objeto de estudio in fieri en constante reconstrucción y de una enorme complejidad Por ello es interesante conocer cuáles son los avances de la investigación occidental y los caminos que faltan por recorrer Como se apunta en esta obra las teorías de la comunicación ocupan en el marco de las ciencias sociales un lugar de privilegio para sin olvidar la epistemología clásica aportar un pensamiento más fresco y creativo al estudio de la comunicación aunque no por ello menos riguroso y sustentado por una metodología contrastada Además lo que caracteriza las teorías de la comunicación es un pluralismo teórico que da cuenta desde las perspectivas interpretativa funcionalista y crítica de las múltiples facetas del apasionante mundo de la comunicación

ello no se pretende proporcionar respuestas definitivas a las cuestiones que plantean los actos comunicativos en los que nos involucramos cotidianamente se trata en cambio de promover una autorreflexión basada en el elenco de soluciones tentativas que proponen los teóricos de la comunicación humana y secundariamente de ofrecer los recursos adicionales que orienten estos conocimientos hacia la vertiente aplicada relativa a las destrezas verbales y no verbales que se le asumen al comunicador de masas
