The Hungarian Revolution and War of Independence Gábor Bona,1999 **The Ideas of the Hungarian Revolution** Lee Congdon,Béla K. Király,2002 Taking as its starting point the long standing characterization of Milton as a Hebraic writer Milton and the Rabbis probes the limits of the relationship between the seventeenth century English poet and polemicist and his Jewish antecedents Shoulson s analysis moves back and forth between Milton s writings and Jewish writings of the first five centuries of the Common Era collectively known as midrash In exploring the historical and literary implications of these connections Shoulson shows how Milton s text can inform a more nuanced reading of midrash just as midrash can offer new insights into Paradise Lost Shoulson is unconvinced of a direct link between a specific collection of rabbinic writings and Milton s works He argues that many of Milton s poetic ideas that parallel midrash are likely to have entered Christian discourse not only through early modern Christian Hebraicists but also through Protestant writers and preachers without special knowledge of Hebrew At the heart of Shoulson s inquiry lies a fundamental question When is an idea a theme or an emphasis distinctively Judaic or Hebraic and when is it Christian The difficulty in answering such questions reveals and highlights the fluid interaction between ostensibly Jewish Hellenistic and Christian modes of thought not only during the early modern period but also early in time when rabbinic Judaism and Christianity began *Evolution of the Hungarian Economy, 1848-2000* György Csáki,Gábor Karsai,2001 After describing the overall macroeconomic development of the Hungarian economy the volume focuses on privatization foreign direct investment inflows the development of the corporate sector and the country s preparation for accession to the European Union Finally the book provides a short term forecast for 2002 **Hungary in the Dual Monarchy, 1867-1914** László Katus,2008 Under the

Austro Hungarian Dual Monarchy both countries had economic autonomy but because of their alliance they shared a common market and monetary system This arrangement was a decisive element in Hungary s development during this dynamic era which was characterized by a surge in the country s economy population modernization and cultural civil and legal institutions L szl Katus covers the major political parties and social trends of this period as well as the changes in its ethnic and religious population which later proved detrimental to the monarchy

Hungary in the Age of the Two World Wars, 1914-1945 Mária Ormos,2007 Maria Ormos focuses on the Horthy Period and assesses the immeasurable human and material costs caused by Arrow Cross rule and the Soviet dominate provisional wartime administration This book clarifies all the historical factors that affected Hungarian society during this era including the worldwide financial crisis of the Great Depression Ormos analyzes Hungary s economic and market ties with Germany and the subsequent exploitation of Hungarian resources She also identifies 1932 as a year when limited economic recovery and diplomatic success shifted to the exploitation of Hungary for German war preparation Finally this volume analyzes the process of realignment of Hungarian society in the context of vital areas of land tenure and educational scientific and social policy

Evolution of the Hungarian Economy, 1848-1998 János Kornai,2000 Historical Abstracts ,2000 **Whitaker's Books in Print** ,1998
