Lean Retail. Can lean production help retailers to address global challenges? Simon G Fauser,2012-02-27 Saturated markets a decreasing valuation of fashion by a part of consumers paired with missing impulses by some companies has brought along a crisis in retail especially in Europe Changing consumer demand customer sophistication customer empowerment via the internet and rapid industry change are just a few challenges global retailers are facing today The consequence is big pressure on prices and margins and a need for process excellence As in the 1990s the American and European automotive industry struggled with similar challenges a concept named lean production was imported from Japan It helped some Western automotive companies like Porsche and big parts of industry to find their way back on the path of success Is the route to success via lean production exclusive to industry Or might retailers today benefit from lean production philosophy In this book Simon Fauser approaches these questions by analysing lean production philosophy extracting lean principles and applying these to retail and its challenges

Healing Your Family History Rebecca Linder Hintze,2006-11-01 An absolutely stunning title and an idea of profound significance Those who discover its truth and act

upon it will become powerful agents of positive change in their families Stephen R Covey the author of The 7 Habits of Highly Effective People and The 7 Habits of Highly Effective Families This fascinating book by Rebecca Linder Hintze powerfully and effectively communicates a key and sometimes overlooked piece of the puzzle relating to family dynamics For example have you ever wondered why some families reach a ceiling on their earning potential struggle to have happy marriages or have such difficult interactions with their siblings and parents Perhaps your family has a history of sabotaging careers or thwarting their love relationships Healing Your Family History explains that most of our individual issues originate from family blocks As you read this book you ll come to understand how family belief systems store inside you and prevent individual growth by locking you into thought processes that hold you back All families have these nonverbal belief systems and unless you understand and heal your inherent blocks it may be difficult to love others move forward and get what you want in life Most people have a family and we all have a reason to heal our related challenges after all tribal issues sit at the core of world turmoil Those who are truly ready to heal their family dysfunction will benefit immensely from this book
