

The Idea of Natural Inequality*

The Auguste Comte Memorial Lecture, 1979

The mind of man is far from the nature of a clear and equal glass, wherein the beams of things should reflect according to their true incidence: nay, it is rather like an enchanted glass, full of superstition and imposture . . .

FRANCIS BACON

When we talk about inequality among men we mean various things. We mean in one sense that human beings are unequally placed, that they have unequal opportunities and that they are unequally rewarded; this kind of inequality is easily recognized and can easily be shown to exist in any society, simple or complex, past or present. But we also mean in another sense that men and women have unequal abilities, that they are unequally endowed, and also perhaps that they are of unequal worth; the proof of this kind of inequality is difficult, one might say impossible.

Those who make the case for natural inequality will readily concede that people sometimes appear to be unequally endowed because in fact the opportunities available to them are unequal. No society is perfect, and in every society some individuals suffer more than others from a variety of contingent circumstances. But, they will go on to argue, this is not all that there is to it. For, according to them, it should be possible to remove the existing distortions or imperfections, at least in principle, and when this is done we will still be left with certain irreducible inequalities of endowment. Viewed in this light

* A first sketch of the argument of this essay was presented at a conference in Burg Wartenstein organized by the Wenner-Gren Foundation which I would like to thank for its hospitality on that occasion. I am grateful to Marshall Sahlins for his comments then. I am grateful also to Meyer Fortes, Edmund Leach and Alan Macfarlane for their patience and care in reading and commenting on earlier drafts of this essay.

Inequality André Béteille, 1980 , Colonialism, Capitalism and Racism Jan Breman, 2025-10-01 For a long time Europe's colonizing powers justified their urge for expansion with the conviction that they were bringing civilization to territories where civilization was lacking This doctrine of white superiority and indigenous inferiority was accompanied by a boundless exploitation of local labor Under colonial rule the ideology that later became known as neoliberalism was free to subject labor to a capitalism tainted by racialized policies This political economy has now become dominant in the Western world too and has reversed the trend towards equality In *Colonialism Capitalism and Racism* Jan Breman shows how racial favoritism is no longer contained to faraway indigenous peoples but has become a source of polarization within Western societies as well

Universal Human Rights in Theory and Practice Jack Donnelly,2013-04-15 In the third edition of his classic work revised extensively and updated to include recent developments on the international scene Jack Donnelly explains and defends a richly interdisciplinary account of human rights as universal rights He shows that any conception of human rights and the idea of human rights itself is historically specific and contingent Since publication of the first edition in 1989 Universal Human Rights in Theory and Practice has justified Donnelly's claim that conceptual clarity the fruit of sound theory can facilitate action At the very least it can help to unmask the arguments of dictators and their allies Greed Unbound: Official Misdeeds in Political Economies of Kin Groups and Chiefdoms (Volume 1) Eugene L Mendonsa, Ph.D.,2016-02-10 The first volume of Greed Unbound is about the ways elites siphoned off value from workers in the early Neolithic farming and herding societies In the broadest terms it highlights the consequences of greed in officialdom the offices of kin groups cults secret societies and chiefdoms Greed in all of these groups has consistently led to severe inequality Prior to the Agricultural Revolution inequality had been held in check being restricted to such things as respect for the elderly and male chauvinism In the mild inequality of the Long Paleolithic no one person or faction could siphon value from the labor of others But all that changed once food was stored in farming societies allowing greedy chiefs to exploit the common people in stark contrast to the egalitarian nature of life before the development of stored wealth With the change exploitation flourished as did warfare and mystical institutions that functioned to mislead and appease the masses **Human Expeditions** Andre
