Spirits of Community K. D. M. Snell,2016-06-16 Concern about the decline of community and the theme of community
 spirit are internationally widespread in the modern world The English past has featured many representations of declining
 community expressed by those who lamented its loss in quite different periods and in diverse genres This book analyses how
 community spirit and the passing of community have been described in the past whether for good or ill with an eye to
 modern issues such as the so called loneliness epidemic or the social consequences of alternative structures of community It
 does this through examination of authors such as Thomas Hardy James Wentworth Day Adrian Bell and H E Bates by
 appraising detective fiction writers analysing parish magazines considering the letter writing of the parish poor in the 18th
 and 19th centuries and through the depictions of realist landscape painters such as George Morland K D M Snell addresses
 modern social concerns showing how many current preoccupations had earlier precedents In presenting past representations
 of declining communities and the way these affected individuals of very different political persuasions the book draws out
 lessons and examples from the past about what community has meant hitherto setting into context modern predicaments and
 judgements about spirits of community today **The New England Historical and Genealogical Register** ,1884
