truth and belief respectively With each turn the book seeks to convey a more nuanced and complete understanding of the many facets of transcendence Part I puts forward the controversial notion that many religious myths are actually true and not just allegorically so Part II argues that our own inner storytelling plays a surprising role in creating the seeming concreteness of things and the tangibility of history Part III suggests in the form of a myth how deeply ingrained belief systems create the world we live in The three themes myth truth and belief flow into and interpenetrate each other throughout the book
