The Holy Spirit John F. Walvoord,2010-12-21 This eBook on the Holy Spirit is the outgrowth of lectures on the topic given in Dr Walvoord s classes at Dallas Theological Seminary Over the years this book has aroused considerable interest and gone through 23 printings in hardcover before prompting this new paperback edition The Holy Spirit is an extensive treatment of the entire doctrine of pneumatology using some 1500 Scripture citations and is designed for theological students and pastors as well as for laypeople desiring to get a complete presentation of the third person of the Trinity who indwells all Christians **The Poetics of Ancient and Classical Arabic Literature** Esad Durakovic,2015-04-24 Through analysing ancient and classical Arabic literature including the Qur an from within the Arabic literary tradition this book provides an original interpretation of poetics and of other important aspects of Arab culture Ancient Arabic literature is a realm of poetry prose literary forms emerged rather late and even then remained in the shadow of poetic creative efforts

Traditionally this literature has been viewed through a philologist's lens and has often been represented as materialistic in the sense that its poetry lacked imagination. As a result, Arabic poetry was often evaluated negatively in relation to other poetic traditions. *The Poetics of Ancient and Classical Arabic Literature* argues that old Arabic literature is remarkably coherent in poetical terms and has its own individuality and that claims of its materialism arise from a failure to grasp the poetic principles of the Arabic tradition. Analysing the Qur'an which is known for confronting the poetry of the time, this book reveals that post-Qur'anic literature came to be defined against it. Thus the constitution and interpretation of Arabic literature imposed itself as a particular exegesis of the sacred Text. Disputing traditional interpretations by arguing that Arabic literature can only be assessed from within and not through comparison with other literary traditions, this book is of interest to students and scholars of Islamic Studies, Arabic Studies and Literary Studies.

The Importance of Ideals Wibren van der Burg, Sanne Taekema, 2004. Ideals are important in social reality but they have been neglected in theories of law, politics and morality. This book has the role of ideals as its central theme. More specifically, it argues that ideals are necessary to understand pluralism; that they are key elements in controversy and debate; and that they enable development. It combines theoretical analysis of the concept of ideals with discussion of concrete debates and cases, including philosophical debates about politics and equality, sociological studies of the diverse interpretations of the rule of law, and accounts of the development of environmental law and privacy law. Thus the functioning of ideals is critically examined, showing the merits and limitations of an ideal-oriented approach.
