F's Story Yusuf Demir, 2025-02-11 It s a story that has been repeated for thousands of years we neither know where we came from nor where we are going The bewilderment of our precarious situation between these two unknowns is so great that it will last a lifetime However as it turns out most of our lives melt away in the ordinary hustle and bustle of daily life the stress of a bill to be paid the repair of a broken faucet the calculation of how much the rent will be this year thousands of small details like this put a thick sponge on our temporary stay in this world and we either postpone thinking about our main subject or forget it altogether Is this a good thing I don t know for sure However I can definitely say that F is as close to me as an old friend I ve known for years and their experiences seem very familiar I hope life s pleasant side is always with them And as the old saying goes may they never stumble

S. Erdem Aytaç, Susan C. Stokes, 2019-01-10 Why do vote suppression efforts sometimes fail Why does police repression of demonstrators sometimes turn localized protests into massive national movements How do politicians and activists manipulate people's emotions to get them involved The authors of Why Bother offer a new theory of why people take part in collective action in politics and test it in the contexts of voting and protesting They develop the idea that just as there are costs of participation in politics there are also costs of abstention intrinsic and psychological but no less real That abstention can be psychically costly helps explain real world patterns that are anomalies for existing theories such as that sometimes increases in costs of participation are followed by more participation not less The book draws on a wealth of survey data interviews and experimental results from a range of countries including the United States Britain Brazil Sweden and Turkey
