stopped Hence the Russian invasion of Ukraine must end and Diplomacy and Dialogue must be restored To achieve that it is imperative that Vladimir Putin is graciously removed from office so that Peace and Harmony can be restored between Ukraine and Russia and the Russian people can be part of the International Community again An Amnesty should be offered to key people in the Putin regime to encourage those individuals to do the right thing and end the war that has cost countless of lives so that International Law and the Universal Declaration of Human Rights can be restored in the International Community We are also advocating the founding of a world organization that is above all other governments even above the US China the UK Russia and the EU so that Peace and Prosperity can be manifested in the world So until an organization like that is formed in the International Community it will be the NGO BTB Global Peacebuilding which will handle matters such as bringing Russia and the US into an International Peacebuilding Alliance Also the status quo concerning NATO has to change This means that NATO will have to make room for a new military international alliance sooner or later that encompasses Russia the EU China Germany and the US if circumstances allow However it s imperative that Peace and Harmony is first restored between Russia and Ukraine Only then measures can be taken to improve NATO and implement steps to include Russia in an International Peacebuilding Alliance Love and Light Dieu vous prot ge Gottes Segen Mark O Doherty BTB Global Peacebuilding

Elements of the philosophy of the human mind ... To which is prefixed introduction and part first of the Outlines of moral philosophy. 1854 Dugald Stewart,1877 The Humanity of God John Wright Buckham,1928 Inhuman Thoughts Asher Seidel,2008-03-25 Inhuman Thoughts is a philosophical exploration of the possibility of increasing the physiological and psychological capacities of humans to the point that they are no longer biologically psychologically or socially human The movement is from the human through the trans human to the post human The tone is optimistic Seidel argues that such an evolution would be of positive value on the whole Seidel s initial argument supports the need for a comprehensive ethical theory the success of which would parallel that of a large scale scientific revolution such as Newtonian mechanics He elaborates the movement from the improved but still human to the post human and philosophically examines speculated examples of post human forms of life including indefinitely extended life span parallel consciousness altered perception a sociality and a sexuality Inhuman Thoughts is directed at those interested in philosophical questions on human nature and the best life given the possibilities of that nature Seidel s overall argument is that the most satisfactory answer to the latter question involves a transcendence of the present confines of human nature
