Fitzgerald,2015-07-01 Every day millions of people around the world sit down to a meal that includes meat This book explores several questions as it examines the use of animals as food How did the domestication and production of livestock animals emerge and why How did current modes of raising and slaughtering animals for human consumption develop and what are their consequences What can be done to mitigate and even reverse the impacts of animal production With insight into the historical cultural political legal and economic processes that shape our use of animals as food

Fitzgerald provides a holistic picture and explicates the connections in the supply chain that are obscured in the current mode of food production Bridging the distance in animal agriculture between production processing consumption and their associated impacts this analysis envisions ways of redressing the negative effects of the use of animals as food It details how consumption levels and practices have changed as the relationship between production processing and consumption has shifted Due to the wide ranging questions addressed in this book the author draws on many fields of inquiry including sociology critical animal studies history economics law political science anthropology criminology environmental science geography philosophy and animal science *Annual report of the Bureau of Animal Industry. v. 18, 1901 ,1902* *Report of the Chief of the Bureau of Animal Industry, United States Department of Agriculture* United States.
