The Information Revolution In The Middle East And North Africa:

The Information Revolution in the Middle East and North Africa Grey E. Burkhardt, Susan Older, 2003 This report explores the future of the information revolution in the countries of the Middle East and North Africa MENA The development gap in information and communication technology between MENA and OECD countries and between rich and poor sectors within MENA countries is likely to increase It is unlikely that most MENA countries will fully enjoy an information revolution during the next decade They have too many impediments and too few resources

The Information Revolution in the Middle East and North Africa, 2003 RAND is conducting a multiyear effort sponsored by the National Intelligence Council NIC to explore the future of the information revolution throughout the world This is a multidisciplinary effort with a broad range of participants from both inside and outside of RAND with an overarching goal of mapping the likely future of the global information revolution over the next one to two decades This effort has included a series of international conferences on specific aspects of the information revolution involving experts in various relevant areas This publication reports the results of one of those studies on the likely course of the information revolution in the Middle East and North Africa over the next five to 10 years Key questions addressed in this report include the extent to which the information revolution has taken hold in this region in general the variations between individual countries and prospects for further information technology IT related developments in the region

Globalization and National Security Jonathan Kirshner, 2006 Publisher description
The Future Security Environment in the Middle East Nora Bensahel, Daniel Byman, 2004-03-12 This report identifies several important trends that are shaping regional security It examines traditional security concerns such as energy security and the proliferation of weapons of mass destruction as well as newer challenges posed by political reform economic reform civil military relations leadership change and the information revolution The report concludes by identifying the implications of these trends for U S foreign policy

Socio-Political Order and Security in the Arab World Andreas Krieg, 2017-03-27 This book examines the connection between socio politics and security in the Arab World In an effort to understand the social and political developments that have been on going in the Arab World since the 1990s culminating in the Arab Spring Krieg moves beyond liberal deterministic assumptions most notably that the promotion of liberal values and democracy are the panacea for the structural problems of the region Instead this text advances the case that grievances related to individual security needs are at the heart of regional insecurity and instability Looking towards the future the author asserts that regimes can only be resilient if they are able to provide for individual security inclusively When regimes fail to cater for public security they might be replaced by alternative non state security providers

Libraries in the early 21st century, volume 2 Ravindra N. Sharma, IFLA Headquarters, 2012-07-30 Following the pattern of the first volume the second volume of Libraries in the early 21st century An international perspective extends the range of countries covered Each chapter covers a different country and describes the modern history development of libraries and library technology

The careful selection of countries achieves good representation of professional library work on all continents This two volume work represents an excellent contribution to international librarianship and allows comparative studies both at graduate and professional level

Media Evolution on the Eve of the Arab Spring L. Hudson,A. Iskandar,M. Kirk,2016-01-12 Media Evolution on the Eve of the Arab Spring brings together some of the most celebrated and respected names in Arab media research to reflect on the communication conditions that preceded and made the Arab uprisings possible

The Syrian Information and Propaganda War Ben Cole,2022-02-22 This book focuses on the propaganda war between the Syrian government and the opposition movement which excludes the Islamic State and the Kurdish led SDF Drawing on international relations psychology and media studies the book encourages readers to question the dominant discourse on the war The core of the book outlines the propaganda battles over the main paradigms and narratives that framed the war exploring the shortcomings of those paradigms and narratives identifying who won the propaganda war and why and assessing what impact it had on the military side of the war In particular it focuses on the role of cognitive bias amongst primary and secondary sources in determining the outcome of the propaganda war and whether the influence of this propaganda is best explained by effects or limited effects theory Through explaining the dynamics of the propaganda war the book encourages readers to critically question the dominant discourse on the war assists them in understanding primary and secondary reporting on the war and shows that the impact of the propaganda war is best understood in terms of limited effects theory The book s main findings are that i the opposition won the international propaganda war but failed to win the propaganda war inside Syria ii propaganda had relatively little effect on shaping attitudes either inside Syria or internationally instead its main effect was to reinforce attitudes that had already been shaped by other factors and iii the reality of the war lies between the conflicting paradigms and narratives being promoted by each side

The Military in Post-Revolutionary Iran Hesam Forozan,2015-10-14 Iran s Revolutionary Guard Corps also known as the Sepah has wielded considerable and increasing power in Iran in recent decades Established in 1979 by Ayatollah Khomeini as a paramilitary organisation charged with protecting the nascent Islamic regime and countering the untrustworthy Imperial army or Artesh the Sepah has evolved into one of the most powerful political ideological military and economic players in Iran over recent years The Sepah is entrusted with a diverse set of indoctrination apparatus training programmes and system welfare provisions intended to broaden support for the regime Although established as a paramilitary organisation the Sepah developed to have its own ministry complex bureaucracy and diversified functions alongside its own network and personnel This book provides a comprehensive overview of the Sepah and its role It examines the position of the Sepah in Iranian state and society explores the nature of the Sepah s involvement in politics and discusses the impact of the Sepah s political rise on Iran s economy and foreign policy Contemporary Iran can only be fully understood by an awareness of the ongoing in fighting among regime factions and increasing popular demands for social change knowing about the Sepah is central to all this

Networked Publics and Digital Contention Mohamed Zayani, 2015 This book brings into focus the relationship between Internet development youth activism cyber resistance and political participation Taking Tunisia as a case study it examines the digital culture of contention that developed in an authoritarian context providing a unique perspective on how networked Arab publics negotiate agency reconfigure political action and reimagine citizenship

The SAGE Handbook of the Digital Media Economy Terry

Flew, Jennifer Holt, Julian Thomas, 2022-09-23 Debates about the digital media economy are at the heart of media and communication studies An increasingly digitalised and datafied media environment has implications for every aspect of the field from ownership and production to distribution and consumption The SAGE Handbook of the Digital Media Economy offers students researchers and policy makers a multidisciplinary overview of contemporary scholarship relating to the intersection of the digital economy and the media cultural and creative industries It provides an overview of the major areas of debate and conceptual and methodological frameworks through chapters written by leading scholars from a range of disciplinary perspective PART 1 Key Concepts PART 2 Methodological Approaches PART 3 Media Industries of the Digital Economy PART 4 Geographies of the Digital Economy PART 5 Law Governance and Policy *The Making of Arab News* Noha Mellor, 2005-01-28 Since September 11 Arab and American journalists have been trading barbs accusing each other of bias and a lack of objectivity But is news coverage in Arab countries all that different from American coverage The Making of Arab News draws comparisons including examples of Arabic news language and their English translations to show how Arab news values have been Americanized and how these values are reflected in the language used in the Arab news Noha Mellor further discusses claims that the current development in the Arab news media could be the first step toward democratization

Artificial Democracy Cecilia Biancalana, Eric Montigny, 2025-06-01 Democracy and data have a complicated relationship Under the influence of big data and artificial intelligence some democracies are being transformed for better or worse as relations between citizens political parties governments and corporations are being redrawn Artificial Democracy explores the ways in which data collection and analytics and their application are changing political practices government policies and even democratic polities themselves With an international roster of multidisciplinary contributors this highly topical collection takes a comprehensive approach to big data's effect on democracy from the use of micro targeting in electoral campaigns to the clash between privacy and surveillance in the name of protecting society Artificial Democracy tackles both the dangers and the potentially desirable changes made possible by the symbiosis of big data and artificial intelligence It explores shifts in how we conceptualize the citizen government relationship and asks important questions about where we could be heading The Success of Sanctions Francesco Giumelli, 2016-03-03 The effectiveness of sanctions cannot purely be measured by the way they change the behaviour of their intended target The degree to which sanctions constrain a rogue state's behaviour and the signals they send to future targets should also be prime considerations In this thought provoking book Francesco Giumelli measures the true effectiveness of EU sanctions against a range of states including Belarus Zimbabwe Moldova Uzbekistan the USA and China He demonstrates that focussing purely on behavioural change is limiting especially when considering the actions and motivations of an international organisation and develops a process to evaluate the direct and indirect impact of EU sanctions Giumelli demonstrates the many different ways sanctions have been used by the EU to produce positive direct and indirect results and provides a multi level framework to assess the

success of sanctions in the future **Microfoundations of the Arab Uprisings** Frédéric Volpi, James Jasper, 2025-10-01
This book brings together a roster of prominent contributors to present a strategic interactionist perspective on the study of contentious politics in the Middle East in response to the Arab uprisings. The common thread among the contributions is an interest in the micro level interactions between various strategic players including not only the mobilisation of protestors during the uprisings but also the responses of regimes. The book also examines short to medium term adaptations of the regimes and the collective action of opponents in the post uprisings period as well as the subsequent trajectories of the protestors themselves in the face of new forms of authoritarianism or democratisation.
