**Streaking** Brian Stableford,2011-11-14 For hundreds of years the male members of the Kilcannon family have considered themselves to be the beneficiaries of distortions in the statistical distribution of chance associating their most fortunate windfalls with visual distortions that they call streaks This belief has led to the accumulation of a vast heritage of superstitions rules which if broken might allegedly terminate the privilege The current heir Canny Kilcannon is anxious to dispose of this burden but is unsure as to how far he can go in tempting fate When his father dies his life is further complicated when a female beneficiary of a similar centuries old lucky streak reveals herself to him Lissa suggests that they attempt the ultimate experiment to test the boundaries of their gift Can they succeed Or will they bring down upon them the black lightning of which both of their traditions warn A truly compelling tale of luck and probability in the real world BRIAN STABLEFORD has written and edited almost 200 volumes of science fiction horror fantasy literary criticism and reference among others many of them being published by the Borgo Press Imprint of Wildside Press He lives and works in England

**Changelings and Other Metamorphic Tales** Brian Stableford,2009-03-01 Ten fantastic stories of humans changing into something else vampires animals aliens and others by a modern master of science fiction and fantasy literature      **War Games** Brian Stableford,2012-05-15 Throughout the centuries that have passed since humans first ventured into interstellar space they have been at war with the alien Veich The human race has in consequence been fully militarized its educational system being a form of military training which includes among other disciplines the elimination of fear from the human psyche Attitudes to the war have however been colored by the gradual discovery of relics revealing that it is echoing an earlier interstellar conflict whose antagonists have completely disappeared victors and vanquished alike On a neglected continent of an unimportant world ex sergeant Remy and other human and Veich deserters have joined forces to form a

mercenary company that places its expert skills at the disposal of the dominant indigenes This refuge from the greater war is however disrupted when archeologists on another world discover evidence that there might be significant relics of the earlier war buried in the inhospitable heart of the continent where barbarian tribes are currently massing for a religious war Remy has no alternative but to revert to working for his own race knowing that whatever he enables them to find or even if they find nothing at all his own life will be in grave peril and that nothing will ever be the same again Great military SF Also published as *Optiman* *Nature's Shift* Brian Stableford, 2011-09-09 Peter Bell the Third accidentally named from the title of a poem by Percy Bysshe Shelley is called upon to renew his old friendship with Rowland Usher who was deliberately named after the protagonist of a story by Edgar Allan Poe In the new House of Usher that Rowland is growing in the Orinoco Delta Usher explains the scientific work in genetics that he is doing there to Peter while they both mourn Rowland's dead twin sister Magdalen who has apparently committed suicide for reasons that no one quite understands As a scientist Peter is inevitably convinced when he discovers Magdalen's ghost haunting the house that the haunting can only be figurative and symbolic but that does not make it any less meaningful or problematic A marvelous new novel in this long running series by a master of biological extrapolation *Salome and other Decadent Fantasies* Brian Stableford, 2011-11-15 Decadent literature is intrinsically and proudly a literature of moral challenge it is sceptical cynical and satirical It recognizes that everyday morality does not work either in practical or in psychological terms and is therefore a sham but that ideal morality is not necessarily unfortunately unattainable This volume collects the best of Brian Stableford's decadent work including *Salome O For a Fiery Gloom and Thee* *The Last Worshipper of Proteus* *The Evil That Men Do* *Ebony Eyes* *The Fisherman's Child* *The Storyteller's Tale* *The Unluckiest Thief* *The Flowers in the Forest* *The Mandrake Garden* and *Chanterelle* **Asgard's Conquerors** Brian Stableford, 2013-10-16 Asgard's not an easy world to get away from Mike Rousseau only wants to take a vacation in his home system but he's back before he has time to draw breath and he's been drafted into the Space Force once again His new mission is even more dangerous than the last one the number of his enemies has increased vastly and his friends haven't improved at all By way of compensation he has another chance to get closer to the mystery at Asgard's heart but the inhabitants of the megaplanet's core are no longer content to sit quietly and wait to be found They've discovered the outside universe and are trying to decide what to do about it but they have problems of their own Only Rousseau can cross the boundaries between species and offer each of the races a possible solution Another great entry into an exciting SF series **Journey to the Core of Creation** Brian Stableford, 2011-11-04 It is 1847 and Paris is edging closer to its next revolution but something is also astir inside Mont Dragon in the Ardèche This is a place of annual pilgrimage for a band of enigmatic nomads and also a place of interest to the ambitious Bishop of Viviers In spite of his distaste for travel Auguste Dupin makes the long southward journey in the hope that he might be able to help an old friend the evolutionist Claude Gu rande Gu rande believes that he has made discoveries in the caves of Mont Dragon that might cast new light on the origin of humankind and

of life itself Over the years however not everyone who has gone into the caves has come out again and not everyone who has come out has been unaltered and 1847 promises to be a critical year more dangerous than any before it And when the bizarre flameflower begins to bloom everything changes Another great tale in the Auguste Dupin series     **News of the Black Feast and Other Random Reviews** Brian Stableford,2009-03-01 This new collection gathers together 45 of Stableford s best critical reviews on works of science fiction fantasy horror decadent literature and nonfiction books about these topics His comments are witty intelligent and full of insight Complete with comprehensive index     **Creators of Science Fiction** Brian Stableford,2009-11-01 Well known critic and novelist Brian Stableford here discusses the writers editors and publishers who helped create the modern genre of science fiction Mary Wollstonecraft Shelley Edgar Allan Poe Camille Flammarion Jules Verne H G Wells Hugo Gernsback John W Campbell Jr Edward E Doc Smith Robert A Heinlein James Blish Gregory Benford and Ian Watson Complete with bibliography and index     Les Fleurs Du Mal / The Undead (Wildside Double #4 Brian Stableford,2010-08-01 In the tradition of the old Ace Doubles two in one books flip one over to read the second title here is the fourth Wildside Double Les Fleurs du Mal A Tale of the Biotech Revolution by Brian Stableford In the year 2550 where premediated murder is supposedly impossible a serial killer begins attacking very old men with specially bred plants that eat them from the inside out creating the bizarre flowers of evil les fleurs du mal Biotech artist Oscar Wilde teams with UN detectives Charlotte Holmes and Hal Watson to unravel this futuristic nightmare A Hugo Award finalist in the Novella category The Undead A Tale of the Biotech Revolution by Brian Stableford In the world of the future the latest rage is the creation of Undead personality simulations to place within the tombstones of the recently departed But when a cluster of new monuments is vandalized cemetery Chief Security Officer Tann Hicks must find the perpetrators and stop the crimes Are the sims really dead As the controversy over the Undead grows with religious fanatics lining up against right to life advocates Tann finds himself at the center of a growing political and media storm     **Luscinia** Brian Stableford,2010-08-01 Cris s life falls apart after he and his girlfriend Claire are tattooed by artist Devon Curtin who s murdered shortly after Twenty years later Curtin s fans who believe his art was magical are putting together an exhibit of his work including the never before seen tattoos on Cris and Claire Cris wants nothing to do with the show but soon realizes that he and Claire might be in real danger Because Devon Curtin s killer has never been caught     *Wildeblood's Empire* Brian Stableford,2017-08-07 hey call them the rat catchers They re the crew of the spaceship Daedalus which a declining Earth has sent to re establish contact with its long lost colonies Biologist Alex Alexander together with his staff must help solve the mysteries of human and alien ecosystems that they encounter far from home On the world called Wildeblood named for the ecologist Emperor who founded it the settlers descendants harbor a terrible secret a secret that Alex must uncover if the colony is to survive But he must also make contact with the world OTHER intelligent species something that will take time time that the colonists are determined not to give him And even if can solve the biological problem what about the

diplomatic one The Daedalus Mission Book Three      *Yesterday Never Dies* Brian Stableford, 2013-07-30 At an 1847 revival of Meyerbeer's opera Robert le Diable the ghost of Blaise Thibodeaux the author of La Resonance du temps appears in one of the boxes just as Thibodeaux had predicted to Auguste Dupin that it would thirteen years before Unfortunately Dupin is unable to attend the performance leaving his uninformed friend and narrator Reynolds to try to make sense of the apparition and all the confusing circumstances surrounding it Once Dupin has returned to the intellectual fray however and pulled the multitudinous threads of possibility together seven individuals must set forth for the forest of Fontainebleau in the dead of night in order to bring the temporal resonance that Thibodeaux had earlier attempted to produce to its full fruition hoping at least to understand why he wanted to do so although the Comte de Saint Germain apparently in control for once has much greater ambitions than that Another riveting entry in this ongoing historical fantasy series      [The Return of the Djinn and Other Black Melodramas](#) Brian Stableford, 2017-04-06 Six stories of fantasy and science fiction by a modern master including three pieces published for the first time The Path of Progress Kalamada's Blessing The Shepherd's Daughter Shadows of the Past Reconstruction and the original short fantasy novel The Return of the Djinn      *Science Fiction Culture* Camille Bacon-Smith, 2000 An inside look at this wonderfully strange universe      *A Vision of Hell* Brian Stableford, 2012-11-30 The people of the Echronian Millennium had been reminded of the Underworld that existed beneath the platform on which they had constructed their better cleaner safer world leaving the original surface of Earth a dark dreary and forgotten place That awareness had become a political pawn which many different people were trying to manipulate in their own interests In the meantime the search for more information about what actually existed in the Underworld went on tentatively and ineptly The hunter sent to help clarify the situation brought back a sensational prize and revealed it to the world but in so doing he triggered an unexpected and unprecedented reaction which changed the whole nature of the game gave the people of Heaven a vision of Hell and threw the fate of both worlds into the balance The second novel in the exciting Realms of Tartarus series
