The Inside Story:

Biocidal Theodore Michael Dracos, 2010-11-16 The first full account of the scientific and political dynamics of global PCB contamination and its threat to human health and the environment Whether or not you've heard of PCBs polychlorinated biphenyls it's likely that this toxic chemical can be found in your cells PCBs were invented in 1920 for the electronics industry fueled the WWII military machine then were put to domestic uses and finally came to be present in every corner of the earth Because PCBs were outlawed in 1976 most people think they are no longer a threat However like many industrial chemicals PCBs persist in our environment and continue to accumulate in practically every life form on earth becoming more concentrated in the tissues of those highest on the food chain like us In *Biocidal* investigative journalist Ted Dracos explores the science behind how PCBs affect the environment amphibians fish and mammals He also draws on extensive research to document the connection between PCBs and catastrophic human illness From the beginning even as workers in the first manufacturing plants quickly began to suffer skin lesions boils liver failure and death the industry denied the danger of its chemicals and manipulated science regulatory agencies and the government to continue to make and distribute PCBs throughout the next half century Dracos provides the latest scientific findings in the heated controversy that surrounds the continued health impacts of PCBs ranging from cancer to immunosuppression endocrine disruption fetal brain development reproductive abnormalities and even autism Yet *Biocidal* is optimistic leaving readers with a complete and surprisingly uncomplicated blueprint of what can be done and is being done to counter the risks and damages of PCBs and other industrial chemicals

The Stories We Are William Randall, 2013-12-31 From time to time we all tend to wonder what sort of story our life might comprise what it means where it is going and whether it hangs together as a whole In *The Stories We Are* William Lowell Randall explores the links between literature and life and speculates on the range of storytelling styles through which people compose their lives In doing so he draws on a variety of fields including psychology psychotherapy theology philosophy feminist theory and literary theory Using categories like plot character point of view and style Randall plays with the possibility that we each make sense of the events of our lives to the extent that we weave them into our own unfolding novel as simultaneously its author narrator main character and reader In the process he offers us a unique perspective on features of our day to day world such as secrecy self deception gossip prejudice intimacy maturity and the proverbial art of living First published in 1995 this second edition of *The Stories We Are* includes a new preface and afterword by the author that offer insight into his argument and evolution as a scholar as well as an illuminating foreword by Ruthellen Josselson

The Gene Editors Louisa Ghevaert, 2024-03-28 Whilst *The Gene Editors* is written through the eyes of a fictional character it is based on the cumulative result of 4 years independent research into biotechnology genetics and genomics the creation of the world's first gene edited babies infectious diseases and the origins impact and legacy of the Covid 19 pandemic

Life and Learning of Korean Artists and Craftsmen Dae Joong Kang, 2015-04-17 This book brings out

the need for lifelong learning theory and explores how it is possible from a postmodern perspective The book uses life history that has gained its popularity in social science research to overcome the dichotomy between individual and society or between agency and structure Life history also reflects the postmodern or late modern conditions of social life In this book the author uses a collection of published oral history narratives of famous Korean artists and craftsmen The author maps out life and learning of five such artists and craftsmen with figurations of escaping creating controlling and formalizing These figurations are images of Rhizoactivity that the author proposes as a new conceptual tool to navigate lifelong learning from a postmodern perspective This book signalises a new way of theory building in the field of adult and lifelong education The Life and Learning of Korean Artists and Craftsmen Rhizoactivity conceptualises Adult learning in terms of postmodern and lifelong learning conditions Life histories as a method of researching lifelong learning The four facets of artistic journeys escaping creating controlling and formalizing This book will interest researchers focusing on lifelong and adult education Its use of social theories in its study of lifelong learning amongst Korean artists will also interest sociologists and educators concerned with the sociology of education

Writing the Ghetto Yoonmee Chang,2010 In the United States perhaps no minority group is considered as successful as the Asian American community which is often described as residing in positive sounding ethnic enclaves rather than in ghettos In this volume Yoonmee Chang exposes the unspoken class inequalities faced by Asian Americans while insightfully analyzing the effect such nations have had on their literary voices The Ashgate Research Companion to Fan Cultures Linda Duits,Koos Zwaan,Stijn Reijnders,2016-04-22 Fans constitute a very special kind of audience They have been marginalized ridiculed and stigmatized yet at the same time they seem to represent the vanguard of new relationships with and within the media Participatory culture has become the new normative standard Concepts derived from early fan studies such as transmedial storytelling and co creation are now the standard fare of journalism and marketing text books alike Indeed usage of the word fan has become ubiquitous The Ashgate Research Companion to Fan Cultures problematizes this exaltation of fans and offers a comprehensive examination of the current state of the field Bringing together the latest international research it explores the conceptualization of the fan and the significance of relationships between fans and producers with particular attention to the intersection between online spaces and offline places The twenty two chapters of this volume elucidate the key themes of the fan studies vernacular As the contributing authors draw from recent empirical work around the globe the book provides fresh insights and innovative angles on the latest developments within fan cultures both online and offline Because the volume is specifically set up as companion for researchers the chapters include recommendations for the further study of fan cultures As such it represents an essential reference volume for researchers and scholars in the fields of cultural and media studies communication cultural geography and the sociology of culture Flying Magazine ,1971-03 The Narrative Complexity of Ordinary Life William L. Randall,2015-08-20 Our everyday lives are enmeshed in storytelling the stories we tell about our memories the people we

know and the world we inhabit those we tell about our families and communities and the narratives we encounter in books movies and television Narrative structures how we view ourselves and everything around us In *The Narrative Complexity of Ordinary Life* William L Randall shows how concepts central to the study of narrative psychology such as narrative development and the interrelation between narrative and identity cognition and development are integral to everyday life He makes the case that all people function as narrative psychologists by continually storying their lives in memory and imagination as well as speculating on the stories that others may be living a process that Randall refers to as storyotyping Relying heavily on narrative Randall draws from experiences in his own life to illustrate various concepts in narrative psychology His inquiry leads him to the topics of gossip rumor and the narrative complexity of nostalgia In doing so he makes the case that all people function as narrative psychologists by continually storying or cementing their lives in memory and imagination a process Randall refers to as storyotyping

Special Warfare, 1994 **Are We Screwed?** Geoff Dembicki, 2017-01-01 A declaration of independence and a call for systemic change from the generation that will be most impacted by climate change If anyone doubted the potential political power of the Millennial generation Bernie Sanders campaign put it in the spotlight *Are We Screwed* makes clear that the ardor for change defines this generation especially when it comes to climate change and they are willing to consider options that their elders might think naive and impractical rejecting a capitalism that cares only about profit and a political system riven by false ideology In telling the stories of his contemporaries around the globe in describing how they think and the many ways they are already effecting change Geoff Dembicki documents a historic shift in values and a corresponding re thinking of how social change can happen As of this year the millennial generation 18 to 34 year olds will become North America s largest demographic It is also the generation that has lived with the looming reality of global warming and will be most affected by its impacts In vividly reported dispatches from Beijing to Paris from San Francisco to New York Dembicki examines what millennial responses to climate change look like and how they are shaping our future He also provides an essential perspective on how climate change is intensifying generational tensions and shifts in society In the process a portrait of a generation emerges that goes a long way toward re branding it in ways that are positive and full of hope for the future

Who's Teaching Your Children? Vivian Troen, Katherine C. Boles, 2008-10-01 Many of the problems afflicting American education are the result of a critical shortage of qualified teachers in the classrooms The teacher crisis is surprisingly resistant to current reforms and is getting worse This important book reveals the causes underlying the crisis and offers concrete affordable proposals for effective reform Vivian Troen and Katherine Boles two experienced classroom teachers and education consultants argue that because teachers are recruited from a pool of underqualified candidates given inadequate preparation and dropped into a culture of isolation without mentoring support or incentives for excellence they are programmed to fail Half quit within their first five years Troen and Boles offer an alternative a model of reform they call the Millennium School which changes the way teachers work and improves the quality of their teaching When teaching becomes a real profession they contend more academically able people will be drawn into it colleges will be forced to improve the quality of their education and better prepared teachers will enter the classroom and improve the profession

Watching While Black Beretta E. Smith-Shomade,2013-01-10 Television scholarship has substantially ignored programming aimed at Black audiences despite a few sweeping histories and critiques In this volume the first of its kind contributors examine the televisual diversity complexity and cultural imperatives manifest in programming directed at a Black and marginalized audience Watching While Black considers its subject from an entirely new angle in an attempt to understand the lives motivations distinctions kindred lines and individuality of various Black groups and suggest what television might be like if such diversity permeated beyond specialized enclaves It looks at the macro structures of ownership producing casting and advertising that all inform production and then delves into television programming crafted to appeal to black audiences historic and contemporary domestic and worldwide Chapters rethink such historically significant programs as Roots and Black Journal such seemingly innocuous programs as Fat Albert and Bro Town and such contemporary and culturally complicated programs as Noah s Arc Treme and The Boondocks The book makes a case for the centrality of these programs while always recognizing the racial dynamics that continue to shape Black representation on the small screen Painting a decidedly introspective portrait across forty years of Black television Watching While Black sheds much needed light on under examined demographics broadens common audience considerations and gives deference to the the preferences of audiences and producers of Black targeted programming

Encyclopedia of Intelligence and Counterintelligence Rodney Carlisle,2015-03-26 From references to secret agents in The Art of War in 400 B C E to the Bush administration s ongoing War on Terrorism espionage has always been an essential part of state security policies This illustrated encyclopedia traces the fascinating stories of spies intelligence and counterintelligence throughout history both internationally and in the United States Written specifically for students and general readers by scholars former intelligence officers and other experts Encyclopedia of Intelligence and Counterintelligence provides a unique background perspective for viewing history and current events In easy to understand non technical language it explains how espionage works as a function of national policy traces the roots of national security profiles key intelligence leaders agents and double agents discusses intelligence concepts and techniques and profiles the security organizations and intelligence history and policies of nations around the world As a special feature the set also includes forewords by former CIA Director Robert M Gates and

Yanik, 2009 Offers a detailed history of Maxwell Motor Company discussing vehicle engineering business negotiations influential leaders its dissolution and other related topics *Keepers of the Flame* Travis Vogan, 2014-03-15 NFL Films changed the way Americans view football *Keepers of the Flame* NFL Films and the Rise of Sports Media traces the subsidiary's development from a small independent film production company to the marketing machine that Sports Illustrated named perhaps the most effective propaganda organ in the history of corporate America Drawing on research at the NFL Films Archive and the Pro Football Hall of Fame and interviews with media pioneer Steve Sabol and others Travis Vogan shows how NFL Films has constructed a consistent romanticized and remarkably visible mythology for the National Football League The company packages football as a visceral and dramatic sequence of violent beautiful graceful and heroic gridiron battles Historically proven formulas for presentation such as the dramatic voiceovers once provided by John Facenda's baritone the soaring scores of Sam Spence's rousing background music and the epic poetry found in Steve Sabol's scripts are still used today From the Vincent Price narrated *Strange but True Football Stories* to the currently running series *Hard Knocks* NFL Films distinguishes the NFL from other sports organizations and from other media and entertainment Vogan tells the larger story of the company's relationship with and vast influence on our culture's representations of sport the expansion of sports television beyond live game broadcasts and the emergence of cable television and Internet sports media *Keepers of the Flame* NFL Films and the Rise of Sports Media presents sports media as an integral facet of American popular culture and NFL Films as key to the transformation of professional football into the national obsession commonly known as America's Game

Publications Combined: Russia's Regular And Special Forces In The Regional And Global War On Terror, Over 2 400 total pages Russian outrage following the September 2004 hostage disaster at North Ossetia's Beslan Middle School No 1 was reflected in many ways throughout the country The 52 hour debacle resulted in the death of some 344 civilians including more than 170 children in addition to unprecedented losses of elite Russian security forces and the dispatch of most Chechen allied hostage takers themselves It quickly became clear as well that Russian authorities had been less than candid about the number of hostages held and the extent to which they were prepared to deal with the situation Amid grief calls for retaliation and demands for reform one of the more telling reactions in terms of hardening public perspectives appeared in a national poll taken several days after the event Some 54% of citizens polled specifically judged the Russian security forces and the police to be corrupt and thus complicit in the failure to deal adequately with terrorism while 44% thought that no lessons for the future would be learned from the tragedy This pessimism was the consequence not just of the Beslan terrorism but the accumulation of years of often spectacular failures by Russian special operations forces SOF in the apt US military acronym A series of Russian SOF counterterrorism mishaps

misjudgments and failures in the 1990s and continuing to the present have made the Kremlin's special operations establishment in 2005 appear much like Russia's old Mir space station wired together unpredictable and subject to sudden startling failures. But Russia continued to maintain and expand a large variegated special operations establishment which had borne the brunt of combat actions in Afghanistan, Chechnya and other trouble spots and was expected to serve as the nation's principal shield against terrorism in all its forms. Known since Soviet days for tough personnel, personal bravery, demanding training and a certain rough or brutal competence that not infrequently violated international human rights norms, it was supposed that Russian special operations forces steeped in their world of threats to the state and associated with once dreaded military and national intelligence services could make valuable contributions to countering terrorism. The now widely perceived link between corrupt special forces on the one hand and counterterrorism failures on the other reflected the further erosion of Russia's national security infrastructure in the eyes of both Russian citizens and international observers. There have been other more ambiguous but equally unsettling dimensions of Russian SOF activity as well that have strong internal and external political aspects. These constitute the continuing assertions from Russian media, the judicial system and other Federal agencies and officials that past and current members of the SOF establishment have organized to pursue interests other than those publicly declared by the state or allowed under law. This includes especially the alleged intent to punish by assassination those individuals and groups that they believe have betrayed Russia. The murky nature of these alleged activities has formed a backdrop to other problems in the special units.
