Theories of the New Class

Lawrence P. King, Iván Szelényi, 2004 Old as the notion of the New Class is and the term was coined by anarchist Mikhail Bakunin around 1870 the idea of the ascendancy of an intellectual elite continues to engage and perplex social theorists to this day In *Theories of the New Class* Ivan Szelinyi one of the most incisive and respected analysts of the intellectual class and his colleague Lawrence King put New Class theories into a broad historical framework for the first time Addressing the intellectual history of Marxism and socialism theories of the increasing role of the state and technocratic elites in capitalism and theories of contemporary social change King and Szelinyi's work clearly links the centrality of thinking about intellectual class formation to a variety of theoretical and political projects that have shaped social theory and influenced political realities over the past century King and Szelinyi show that the idea of the New Class has stubbornly entered and reentered the agenda of critical social theorizing throughout the last century Indeed they interpret that the last century as a history of projects by different groups of the highly educated factions of intellectuals bureaucrats technocrats managers and the left wing humanistic intelligentsia to gain ultimate power A rare empirical discussion of theory *Theories of the New Class* invigorates class theories by grounding them in contemporary issues at the same time it uses modern polemics to revitalize historical debates on the origins of capitalism Lawrence Peter King associate professor of sociology at Yale University is the author of *The Basic Features of Postcommunist Capitalism* 2001 Ivan Szelinyi is William Graham Sumner Professor of Sociology and professor of political science at Yale University He is the author or coauthor of *Intellectuals on the Road to Class Power* 1979 *Urban Social Inequalities* 1983 *Socialist Entrepreneurs* 1988 and *Making Capitalism without Capitalists* 1998 *The Future of Market Transition* Kevin T Leicht, 2002-11-26 The collapse of the state controlled economies of the former Eastern Bloc will certainly change the way the global economy operates Bringing together scholars from a wide variety of theoretical perspectives different nations and different empirical research traditions this title examines the ongoing transition and the implications of market transitions for individual life chances state economic policy and social stratification systems The volume includes scholarship that focuses on both single nation and cross national research plus research contributions that compare state socialist former state socialist political economies with conditions elsewhere in the world

Marxist Intellectuals and the Working-class Mentality in Germany, 1887-1912 Stanley Pierson, 1993 How does one explain the presence of educated recruits in movements that were overwhelmingly working class in composition How did intellectuals function within the movements In the first in depth exploration of this question Stanley Pierson examines the rise development and ultimate failure of the German Social Democrats the largest of the European socialist parties from 1887 to 1912 Prominent figures such as Karl Kautsky August Bebel Rosa Luxemburg and Eduard Bernstein are discussed but the book focuses primarily on the younger generation These forgotten intellectuals Max Schippel Paul Kampffmeyer Conrad

Schmidt Paul Ernst and others struggled most directly with the dilemmas arising out of the attempt to translate Marxist doctrines into practical and personal terms These young writers speakers and politicians set out to supplant old ways of thinking with a Marxist understanding of history and society Pierson weaves together over thirty intellectual biographies to explore the relationship between ideology and politics in Germany He examines the conflict within Social Democracy between the revisionist intellectuals who sought to adapt Marxist theory to changing economic and social realities and those orthodox and radical intellectuals who attempted to remain faithful to the Marxist vision By examining the struggles of the socialist intellectuals in Germany Pierson brings out the special features of German cultural social and political life before World War I His study of this critical time in the development of the German Social Democratic party also illuminates the wider development of Marxism in Europe during the twentieth century

The Making of Minjung Namhee Lee, 2011-06-15 In this sweeping intellectual and cultural history of the minjung common people s movement in South Korea Namhee Lee shows how the movement arose in the 1970s and 1980s in response to the repressive authoritarian regime and grew out of a widespread sense that the nation s failed history left Korean identity profoundly incomplete The Making of Minjung captures the movement in its many dimensions presenting its intellectual trajectory as a discourse and its impact as a political movement as well as raising questions about how intellectuals represented the minjung Lee s portrait is based on a wide range of sources underground pamphlets diaries court documents contemporary newspaper reports and interviews with participants Thousands of students and intellectuals left universities during this period and became factory workers forging an intellectual labor alliance perhaps unique in world history At the same time minjung

cultural activists reinvigorated traditional folk theater created a new minjung literature and influenced religious practices and academic disciplines In its transformative scope the minjung phenomenon is comparable to better known contemporaneous movements in South Africa Latin America and Eastern Europe Understanding the minjung movement is essential to understanding South Korea s recent resistance to U S influence Along with its well known economic transformation South Korea has also had a profound social and political transformation The minjung movement drove this transformation and this book tells its story comprehensively and critically **Intellectuals and the Nation** Bernhard Giesen,1998-08-06 This book proposes a cultural theory of national identity and also studies nineteenth century and post war German identity formation *Intellectuals, Universities, and the State in Western Modern Societies* Ron Eyerman,Lennart G. Intersectional Class Struggle Michael Beyea Reagan,2021-06-15 This innovative study explores the relevance of class as a theoretical category in our world today arguing that leading traditions of class analysis have missed major elements of what class is and how it operates It combines intersectional theory and materialism to show that culture economics ideology and consciousness are all factors that go into making class meaningful Using a historical lens it studies the experiences of working class peoples from migrant farm workers in California s central valley to the factory girls of New England and black workers in the South to explore the variety of working class experiences It investigates how the concepts of racial capitalism and black feminist thought when applied to class studies and popular movements allow us to walk and chew gum at the same time to recognize that our movements can be diverse and particularistic as well as have elements of the universal experience shared by all workers Ultimately it argues that class is made up of all of us it is of ourselves in all our contradiction and complexity **Sociology and Post-Socialist Transformations in Eastern Europe** Borut Rončević,Tamara Besednjak Valič,2024-11-28 The volume offers a unique and comprehensive reflection on the role of sociology and sociologists in the transformation of post socialist Eastern European societies It provides detailed insight on the status of sociology in Eastern

From Post-Maoism to Post-Marxism Kalpana Misra, 1998 This text chronicles Deng Xiaoping's institution of far reaching and practical economic reforms that seem at odds with Communist theory and its emphasis on ideology In fact while Deng often turned to Mao for ideological justification of his reforms those very reforms seemed to wear away to official ideology Ultimately even though the post Mao government has fostered economic growth improved standards of living and intellectual pluralism these changes have resulted in a decline on the perceived legitimacy of the regime

The Rise and Fall of Communist Yugoslavism Tomaž Ivešić, 2024-03-05 The Rise and Fall of Communist Yugoslavism Soft Nation Building in Yugoslavia examines how the Communist Party of Yugoslavia incorporated the idea of a Yugoslav nation into its ideology and created the Yugoslav Soft Nation Building project after the Second World War With an innovative approach of researching three levels of research from above from below and from the viewpoint of interethnic relations the book brings forward an original concept of soft nation building with a focus on the Slovenian Yugoslav dimension Drawing on archival sources from Ljubljana Zagreb Sarajevo and Belgrade the author argues that after the abandonment of the Yugoslav national idea two Yugoslavisms were created in the mid 1960s State based socialist Yugoslavism was propagated by the Party and had no ethnic connotations only a small proportion of the population identified themselves as Yugoslav in national terms The created vacuum was filled by old national identities The book is of interest to specialists and advanced students of

cultural and intellectual history studies of nationalism but also history of science and institutions and the history of everyday life The book aims to appeal to scholars of Balkan South East European and Yugoslav history The Origins of Postcommunist Elites Gil Eyal,2003 How is it that Czechoslovakia s separation into two countries in 1993 was accomplished so peacefully especially when compared with the experiences of its neighbors Russia and Yugoslavia This book provides a sociological answer to this question and an empirical explanation for the breakup of Czechoslovakia by tracing the political processes begun in the Prague Spring of 1968 Gil Eyal s main argument is that Czechoslovakia s breakup was caused by a struggle between two fractions of what sociologists call the new class which consisted primarily of intellectuals and technocrats Focusing on the process of polarization that created these two distinct political elites Eyal shows how in response to the events of the ill fated Prague Spring Czech and Slovak members of the new class embarked on divergent paths and developed radically different even opposed identities worldviews and interests Unlike most accounts of postcommunist nationalist conflict this book suggests that what bound together each of these fractions and what differentiated each from the other were not national identities and nationalist sentiments per se but their distinctive visions of the social role of intellectuals Book jacket *The Work of Jacques Le Goff and the Challenges of Medieval History* Miri Rubin,1997 Essays on medieval history inspired by and engaging with the work of Jacques Le Goff The essays in this volume arise from the proceedings of a conference held in 1994 to celebrate the life and work of the eminent French medievalist Jacques Le Goff Set within thematic sections popular religion and heresy the body royalty and its mystique intellectuals in medieval society and others many of the challenges raised by Le Goff are reassessed and reappraised There is an explicit historiographical focus in a section on the reception and influence of Le Goff with particular reference to the Annales school of history with which he is strongly identified the volume also indicates the problems which animate current research in medieval studies especially in certain areas of social and cultural history MIRI RUBIN is Professor of History Queen Mary University of London Contributors ALEXANDER MURRAY PETER BILLER ANDR VAUCHEZ R I MOORE OTTO GERHARD OEXLE LESTER K LITTLE WALTER SIMONS ADELINE RUCQUOI ALAIN BOUREAU JEAN DUBABIN WILLIAM CHESTER JORDAN PETER LINEHAN MIRI RUBIN GABOR KLANICZAY AARON GUREVICH ROBIN BRIGGS STUART CLARK **The Revolutions of 1989** Vladimir Tismaneanu,2005-07-28 The Revolutions of 1989 is a collection of both classic and recent articles examining the causes and consequences of the collapse of communism in East and Central Europe the most important event in recent world history It includes discussion of the economic political and social nature of revolutions the role of dissidents and civil society in encouraging the breakdown of eastern European communist regimes comparisons with other revolutions the extent of the collapse of Leninist regimes in East Central Europe European historians scholars and students will want to make this an integral part of their studies *The End of Russian Philosophy* A. DeBlasio,Alyssa DeBlasio,2014-11-27 The End of Russian Philosophy describes and evaluates the troubled state of Russian philosophical
