The International Imperatives Of Technology Technological Development And The International Political System:

The International Imperatives of Technology Eugene B. Skolnikoff, 1972 Monograph on the international implications of technological change and the need for international cooperation in the field of technology summarizes trends in environmental alteration and forecasts for the 1980s comments on the present system and functions of international organizations and the political aspects thereof and considers the future long term prospects for cooperation Bibliography pp 187 to 194 and references

Technology, Development, and Democracy Juliann Emmons Allison, 2012-02-01 Technology Development and Democracy examines the growing role of the Internet in international affairs from a source of mostly officially sanctioned information to a venue where knowledge is often merged with political propaganda rhetoric and innuendo The Internet not only provides surfers with up to the minute stories including sound and visual images and opportunities to interact with one another and experts on international issues but also enables anyone with access to a computer modem and telephone line to influence international affairs directly What does this portend for the future of international politics The contributors respond by providing theoretical perspectives and empirical analyses for understanding the impact of the communications revolution on international security the world political economy human rights and gender relations Internet technologies are evaluated as sources of change or continuity and as contributors to either conflict or cooperation among nations While the Internet and its related technologies hold no greater certain prospect for positive change than previous technological advances they arguably do herald significant advances for democracy the democratization process and international peace

International Organization as Technocratic Utopia Jens Steffek, 2021 This volume examines the development of the idea of technocratic internationalism the promotion of the involvement of experts in the workings of international relations especially in international organizations such as the United Nations and European Union

Globalisation and Interdependence in the International Political Economy R. J. Barry Jones, 2013-11-07 Globalisation and Interdependence in the International Political Economy addresses central developments within the contemporary international system The notions of interdependence and globalisation that have accompanied the political discourse of a new world disorder are replete with definitional ambiguities theoretical difficulties and empirical complexities Barry Jones offers a critical review and analysis of these concepts their significance and place within the wider debates of international political economy He argues that contemporary conditions are complex with regionalising tendencies cross cutting those of increasing globalisation and national impulses surviving even in the face of powerful internationalising forces Future developments it is concluded may also be far more uncertain and turbulent than is widely anticipated Written by a leading authority this volume is an effective and compelling introduction to the complex study of international political economy

factors in the competitive advantage of nations Today however the new international political economy is being increasingly driven by science and technology in new ways Integration globalization and internationalization have all become watchwords for a series of dynamic processes in which science and technology are deeply implicated As a result not only are the policies of national governments being exposed in terms of the limits of their sovereignty but science and technology are being increasingly implicated in a wide array of public issues ranging from security privacy development and economic growth to employment environment foreign policy and geopolitics Clearly in today s emerging world the ways in which governments organize their science and technology policy their science and technology intelligence and their research advisory structures and resources matter more today than ever before In turn the contract between science and democracy is being rapidly redefined This book is the first to comprehensively discuss these critical issues **Power and Policy in Quest of Law**

Myres S. McDougal, W.M. Reisman, 2024-09-02 *Oceanographers and the Cold War* Jacob Darwin Hamblin, 2011-07-01 A political history of twentieth century oceanography *Oceanographers and the Cold War* is about patronage politics and the community of scientists It is the first book to examine the study of the oceans during the Cold War era and explore the international focus of American oceanographers taking into account the roles of the US Navy US foreign policy and scientists throughout the world Jacob Darwin Hamblin demonstrates that to understand the history of American oceanography one must consider its role in both conflict and cooperation with other nations Paradoxically American oceanography after World War II was enmeshed in the military industrial complex while characterized by close international cooperation The military dimension of marine science with its involvement in submarine acoustics fleet operations and sea launched nuclear missiles coexisted with data exchange programs with the Soviet Union and global operations in seas without borders From an uneasy cooperation with the Soviet bloc in the International Geophysical Year of 1957-58 to the NATO Science Committee in the late 1960s which excluded the Soviet Union to the US Marine Sciences Council which served as an important national link between scientists and the government *Oceanographers and the Cold War* reveals the military and foreign policy goals served by US government involvement in cooperative activities between scientists such as joint cruises and expeditions It demonstrates as well the extent to which oceanographers used international cooperation as a vehicle to pursue patronage from military government and commercial sponsors during the Cold War as they sought support for their work by creating disciples of marine science wherever they could A political history of twentieth century oceanography **Science, Technology and Governance** John De la Mothe, 2001 This anthology examines *Love s Labours Lost* from a variety of perspectives and through a wide range of materials Selections discuss the play in terms of historical context dating and sources character analysis comic elements and verbal conceits evidence of authorship performance analysis and feminist interpretations Alongside theater reviews production photographs and critical commentary the volume also includes essays written by practicing theater artists who have worked on the play An index by name literary work and concept rounds out

this valuable resource **The Elusive Transformation** Eugene B. Skolnikoff,1994-08-22 Eugene Skolnikoff treats the roles of science and technology across the entire range of relations among nations including security and economic issues environmental questions international economic competitiveness the spread of weapons technology the demise of communism the new content of dependency relations and the demanding new problems of national and international governance He shows how the structure and operation of the scientific and technological enterprises have interacted with international affairs to lead to the dramatic evolution of world politics experienced in this century particularly after World War II **Superships And Nationstates** Harvey B Silverstein,2019-09-05 With the explosion of national international and multinational actors becoming involved in ocean exploitation concern has arisen over how this common resource is to be managed One focus of these concerns has been with those international organizations already involved in ocean issues The subject of this book is one of those international organizations the Intergovernmental Maritime Consultative Organization IMCO and how it operates The tasks and functioning of IMCO have not only been neglected by observers of international organization but are unknown to many of those individuals specifically concerned with the operation of the1Specialized Agencies of the United Nations system **U.S. Environmental Protection Agency Library System Book Catalog** United States.
