The International Organizations And World Order Dictionary:

The International Organizations and World Order Dictionary Sheikh Rustum Ali,1992 **The Fragility of the 'Failed State' Paradigm** Neyire Akpinarli,2010 The absence of effective government one of the most important issues in current international law became prominent with the failed state concept at the beginning of the 1990s Public international law however lacked sufficient legal means to deal with the phenomenon Neither attempts at state reconstruction in countries such as Afghanistan and Somalia on the legal basis of Chapter VII of the UN Charter nor economic liberalisation have addressed fundamental social and economic problems This work investigates the weaknesses of the failed state paradigm as a long term solution for international peace and security arguing that the solution to the absence of effective government can be found only in an economic and social approach and a true universalisation of international law *Routledge Handbook of International Organization* Bob Reinalda,2013-06-07 This Handbook brings together scholars whose essays discuss significant issues with regard to international organization as a process and international organizations as institutions Although the focus is on intergovernmental organizations IGOs non governmental organizations NGOs are discussed where relevant The handbook is divided into six parts Documentation Data Sets and Sources International Secretariats as Bureaucracies Actors within International Bureaucracies Processes within International Bureaucracies Challenges to International Organizations and Expanding International Architectures The state of the art articles are meant to encourage current and future generations of scholars to enjoy working in and further exploiting the field and are also of great interest to practitioners of international organization and global governance Information Sources of Political Science Stephen W. Green,Douglas J. Ernest,2005-07-15 A thoroughly revised and updated new edition of the world s leading comprehensive bibliography of American and international politics The eagerly anticipated new edition of the widely acclaimed Information Sources of Political Science is the most comprehensive English language political bibliography available offering the surest way for students and researchers to get straight to the information they need Like no other volume it provides a fully rounded view of the field both in the United States and internationally including relevant works in history economics sociology and education Its 2 500 entries cover a wide variety of source types indexing and abstracting services major bibliographical tools encyclopedias dictionaries handbooks directories statistical compilations and more In addition this edition is the first to feature substantial coverage of electronic resources both databases and Internet sites Each source receives its own annotation with entries grouped in categories to bring together like works for easy comparison This work is a cornerstone reference for academic and public libraries *Introduction to International Organizations* American Association of Law Libraries,1996 Comprises 19 papers about how international organizations work and what they publish Covers also what is published about international organizations in what format by whom and how to access and acquire publications of international organizations Adapting the United Nations to a Post-Modern Era W. Knight,2001-03-28 This

volume addresses the central theme of adjusting the United Nations system in light of firstly the broadening definition of security secondly a perceived shift from modernity to post modernity and finally the contemporary debate about reform adaptation and institutional learning in multilateral institutions during transnational periods The UN has not been successful in learning appropriate lessons that could facilitate requisite changes to its structure and operations Thus the authors in this study focus on the lessons learned from the organizations recent performance in collective security preventative diplomacy preventative deployment peacekeeping peacemaking peace maintenance and international legal environmental and trade regulation

International Organization Initiatives Gabrielle Marceau, Henner Gött, 2025 How do changes in international organizations IOs come about How do IOs respond to crises and unforeseen needs of their members What role do the secretariats and their heads play in doing so This volume describes how IOs their secretariats and executive heads launch and implement innovative activities initiatives and adapt to respond to crises members demands internal impulses or interactions with the outside world It brings together distinguished scholars and experienced practitioners of IOs to showcase and investigate IOs adaptive capacity their achievements and limitations Through case studies and conceptual frameworks the book explores a largely uncharted world of IO evolution in which the international secretariats contribute importantly to adapting the role of the IGO The volume brings to light the mechanisms used by IOs to adapt to what were on each occasion new challenges to their efforts to assist and respond to unprecedented needs of members faced with contemporary realities

The A to Z of NATO and Other International Security Organizations Marco Rimanelli, 2009-09-14 The North Atlantic Treaty Organization NATO is a military alliance established by the signing of the North Atlantic Treaty on April 4 1949 The treaty was signed by Belgium the Netherlands Luxemburg France United Kingdom United States Canada Portugal Italy Norway Denmark and Iceland Today there are a total of 26 countries that belong to NATO The A to Z of NATO and Other International Security Organizations covers the Atlantic Alliance s origins structure and organization through a chronology an introductory essay a bibliography and over 1 000 cross referenced dictionary entries on its Secretaries Generals its Supreme Allied Commanders Europe plus all affiliated organizations created to enhance NATO s reach in a broader Euro Atlantic security architecture e g North Atlantic Consultative Council Euro Atlantic Partnership Council NATO Russia Charter NATO Ukraine Charter and NATO Mediterranean Dialogue Partners This book also covers other related regional organizations with security responsibilities in Europe and worldwide where they interact with NATO either currently e g ANZUS ASEAN European Union Organization of African Unity Organization of American States Organization on Security and Cooperation in Europe and United Nations or in the past e g CENTO European Defence Community SEATO Warsaw Pact and Western European Union

Evolving Constitutions of International Organizations Tetsuo Sato, 2023-09-14 This book analyzes the law creating process relating to the interpretation of constituent instruments of international organizations This topic is one of the key issues concerning the structures and activities of international organizations It differs from other

books in the field by suggesting that under the influences of the inherent dynamism of international organizations the interpretative framework of their constituent instruments is not the same as that of ordinary treaties. It also concludes that the interpretation of the constituent instruments of international organizations deviates from the interpretative framework regulated by the law of treaties as codified by the Vienna Convention on the Law of Treaties. The book will be of prime interest to academics in the fields of international law and international organization and treaty law. **International**

Environmental Disputes Aaron Schwabach, 2005-12-13 This book offers an intensive investigation of past and present achievements and failures in international environmental law. *International Environmental Disputes* is a thought provoking examination of the world's most pressing environmental problems and the attempts to remedy them through international law. From the dumping of ash in the Danube and the disposal of waste in western Africa to the effects of the Everglades sugar industry, the work explores such topics as the role of the United Nations, the debate over sustainable development, environmental ethics, biopiracy and radioactive material in space satellites. The book covers issues such as treaties on the ozone layer, global climate change and the Kyoto protocol. A chapter devoted to the United States discusses the international environmental impact of its economy. Biographical sketches introduce readers to a diverse cast of characters including a New Guinea tribal elder and a Japanese TV personality. Eric Drummond and his Legacies David Macfadyen, Michael D. V.

Davies, Marilyn Norah Carr, John Burley, 2019-02-06 This book shows how the first institution of global governance was conceived and operated. It provides a new assessment of its architect Eric Drummond, the first Secretary General of the League of Nations appointed a century ago. The authors conclude that he stands in the front rank of the 12 men who have occupied the post of Secretary General of the League or its successor the UN. Part 1 describes his character and leadership. His influence in shaping the International Civil Service, the beating heart of the League, is the subject of Part 2, which also shows how the young staff he appointed responded with imagination and creativity to the political, economic and social problems that followed World War I. Part 3 shows the influence of these early origins on today's global organizations and the large scale absorption of League policies, programmes, practices and staff into the UN and its Specialized Agencies.

International Organization and Global Governance Thomas G. Weiss, Rorden Wilkinson, 2013-10-15 Featuring a diverse and impressive array of authors, this volume is the most comprehensive textbook available for all interested in international organization and global governance. Organized around a concern with how the world is and could be governed, the book offers in depth and accessible coverage of the history and theories of international organization and global governance, discussions of the full range of state, intergovernmental and nonstate actors, and examinations of key issues in all aspects of contemporary global governance. The book's 50 chapters are arranged into 7 parts and woven together by a comprehensive introduction to the field, separate section introductions designed to guide students and faculty, and helpful pointers to further reading. *International Organization and Global Governance* is a self contained resource enabling readers to better

comprehend the role of myriad actors in the governance of global life as well as to assemble the many pieces of the contemporary global governance puzzle

Yearbook of International Organizations 2014-2015 (Volume 4) Union Of International Associations, Union of International Associations, 2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations

Unsettled Legitimacy Steven Bernstein, William D. Coleman, 2010-07-01 Globalization has challenged taken for granted relationships of rule in local regional national and international settings This unsettling of legitimacy raises questions Under what conditions do individuals and communities accept globalized decision making as legitimate And what political practices do individuals and collectivities under globalization use to exercise autonomy To answer these questions the contributors to *Unsettled Legitimacy* explore the disruptions and reconfigurations of political authority that accompany globalization Arguing that we live in an era in which political legitimacy at multiple scales of authority is under strain they show that globalization has also created demands for regulation security and the protection of rights and expressions of individual and collective autonomy within and across multiple political and geographic spaces Instead of offering simplistic arguments for or against global governance enhanced democracy or economic integration the contributors provide a sophisticated examination of the complexities of legitimacy and autonomy in a globalizing world

Choice ,2008

Concise Biographical Companion to Index Islamicus Wolfgang Behn, 2004-09-01 This first of the ultimately three volume Who's Who in Islamic Studies presents the scholarly world at long last with its own biographical encyclopaedia Taking as a starting point the inventory of authors from the renowned Index Islamicus the author Wolfgang Behn Berlin has systematically collected numerous data on the lives and works of the tens of thousands of authors listed in the Index Islamicus from 1665 to 1980 This Biographical Companion will be an indispensable reference tool for the serious student and scholar of Islamic Studies It enables the user to quickly gain knowledge on the life work and professional background of almost every major and minor author and thus to place each author in his/her proper perspective A tremendous achievement and a true must for every library

Life in the Educational Trenches Jack C. Plano, 1991

□□□□□□□□ ,1992

Routledge History of International Organizations Bob Reinalda, 2009-09-11 This is a definitive and comprehensive history of international organizations from their very beginning at the Congress of Vienna in

1815 up to the present day and provides the reader with nearly two centuries of world history seen from the perspective of international organizations. It covers the three main fields of international relations: security, economics, and the humanitarian domain, which often overlap in international organizations. As well as global and intercontinental organizations, the book also covers regional international organizations and international non-governmental organizations in all continents. The book progresses chronologically but also provides a thematic and geographical coherence so that related developments can be discussed together. A series of detailed tables, figures, charts, and information boxes explain the chronologies, structures, and relationships of international organizations. There are biographies, histories, and analysis of hundreds of international organizations. This is an essential reference work with direct relevance to scholars in international relations, international political economy, international economics and business, and security studies. *Law Books in Print: Publishers, 1997*
