Heer, 1990-11-30 When this volume was published in 1990 undocumented Mexican immigrants had become an important component of the US population In this book the author analyzes the results of a unique survey conducted in Los Angeles County where an estimated 44 percent of the undocumented Mexican population lived The survey allows the author to make comparisons among the groups of undocumented and legal Mexican immigrants and to study the effects of legal status on their living conditions The author also examines the findings of a number of other social scientists providing a comprehensive summary of the data on undocumented Mexicans in the US In his conclusion he turns to an evaluation of policy options for incorporating this group into the US population and for immigrants The book will be useful to sociologists and other social scientists as well as to lawyers and policy experts studying the problem of illegal immigrants **Roots Too** Matthew Frye Jacobson, 2009-07-01 In the 1970s whites mobilized around a new version of the epic tale of plucky immigrants in the New World Although this turn to ethnicity was for many an individual search for familial and psychological identity Jacobson

The End of the Myth Greg Grandin,2019-03-05 WINNER OF THE PULITZER PRIZE A new and eye opening interpretation of the meaning of the frontier from early westward expansion to Trump s border wall Ever since this nation s inception the idea of an open and ever expanding frontier has been central to American identity Symbolizing a future of endless promise it was the foundation of the United States belief in itself as an exceptional nation democratic individualistic forward looking Today though America has a new symbol the border wall In *The End of the Myth* acclaimed historian Greg Grandin explores the meaning of the frontier throughout the full sweep of U S history from the American Revolution to the War of 1898 the New Deal to the election of 2016 For centuries he shows America s constant expansion fighting wars and opening markets served as a gate of escape helping to deflect domestic political and economic conflicts outward But this deflection meant that the country s problems from racism to inequality were never confronted directly And now the combined catastrophe of the 2008 financial meltdown and our unwinnable wars in the Middle East have slammed this gate shut bringing political passions that had long been directed elsewhere back home It is this new reality Grandin says that explains the rise of reactionary populism and racist nationalism the extreme anger and polarization that catapulted Trump to the presidency The border wall may or may not be built but it will survive as a rallying point an allegorical tombstone marking the end of American exceptionalism
