Imperial Rivals Sarah C.M. Paine, 2023-05-31 Based on archival research this is a history of the Russo Chinese border which examines Russia's expansion into the Asian heartland during the decades of Chinese decline and the 20th century paradox of Russia's inability to sustain political and economic sway over its domains

The Power of Position Timothy B. Weston, 2004-02-27 Throughout the twentieth century Beijing University or Beida has been at the center of China's greatest political and cultural upheavals from the May Fourth Movement of 1919 to the Cultural Revolution of the 1960s to the tragic events in Tiananmen Square in 1989 Why this should be how Beida's historical importance has come to transcend that of a mere institution of higher learning is a question at the heart of this book A study of intellectuals and political culture during the past century's tumultuous early decades The Power of Position is the first to focus on Beida China's oldest and best known national university Timothy B Weston portrays the university as a key locus used by intellectuals to increase their influence in society Weston analyzes the links between intellectuals political and cultural commitments and their specific manner of living He also compares Beijing's intellectual culture with that of the rising metropolis of Shanghai What emerges is a remarkably nuanced and complex picture of life at China's leading university especially in the decades leading up to the May Fourth Movement

Yellow Perils Franck Billé, Sören Urbansky, 2018-07-31 For an open access edition visit the Yellow Perils page on Manifold <https://manifold.ohpress.hawaii.edu/projects/yellow-perils> China's meteoric rise and ever expanding economic and cultural footprint have been accompanied by widespread global disquiet Whether admiring or alarmist media discourse and representations of China often tap into the myths and prejudices that emerged through specific historical encounters These deeply embedded anxieties have shown great resilience as in recent media treatments of SARS and the H5N1 virus which echoed past beliefs connecting China and disease Popular perceptions of Asia too continue to be framed by entrenched racial stereotypes its people are unfathomable exploitative cunning or excessively hardworking This interdisciplinary collection of original essays offers a broad view of the mechanics that underlie Yellow Peril discourse by looking at its cultural deployment and repercussions worldwide Building on the richly detailed historical studies already published in the context of the United States and Europe contributors to Yellow Perils confront the phenomenon in Italy Australia South Africa Nigeria Mongolia Hong Kong and China itself With chapters based on archival material and interviews the collection supplements and often challenges superficial journalistic accounts and top down studies by economists and political scientists Yellow Peril narratives contributors find constitute cultural vectors of multiple kinds of anxieties spanning the cultural racial political and economic Indeed the emergence of the term Yellow Peril in such disparate contexts cannot be assumed to be singular to refer to the same fears or to revolve around the same stereotypes The discourse even when used in reference to a single country like China is therefore inherently fractured and multiple The term Yellow Peril may feel unpalatable and dated today but the

ethnographic geographic and historical breadth of this collection experiences of Chinese migration and diaspora historical reflections on the discourse of the Yellow Peril in China and contemporary analyses of the global reverberations of China's economic rise offers a unique overview of the ways in which anti Chinese narratives continue to play out in today's world This timely and provocative book will appeal to Chinese and Asian Studies scholars but will also be highly relevant to historians and anthropologists working on diasporic communities and on ethnic formations both within and beyond Asia Contributors Christos Lynteris David Walker Kevin Carrico Magnus Fiskesj Romain Dittgen Ross Anthony Xiaojian Zhao Yu Qiu

Chinese Hinterland Capitalism and Shanxi Piaohao Luman Wang, 2020-09-21 This book examines Shanxi piaohao private financiers from the Chinese hinterland in the economic and business history of late imperial China forming the original theory of Chinese hinterland capitalism Deepening the existing understanding of capitalist dynamics at work in the families and financial institutions of late imperial China the book foregrounds the expansionist role played by Shanxi piaohao in transforming China's market and trade from an agrarian empire to a modern nation state In a departure for economic history it also focuses on the histories of the people and their lifeworlds behind financial institutions which have previously been erased by universal capitalist narratives Persistent binary oppositions between coastal areas and hinterland state and market and institutions and families are each transcended in recounting the local histories of global capital in the marginalized countryside and borderlands of China Based on a wealth of archival material and correspondence with Shanxi piaohao offices and branches Chinese Hinterland Capitalism and Shanxi Piaohao will appeal to students and scholars of Chinese and economic history anthropology and postcolonial studies more generally

War and National Reinvention Frederick R. Dickinson, 2020-03-23 For Japan as one of the victorious allies World War I meant territorial gains in China and the Pacific At the end of the war however Japan discovered that in modeling itself on imperial Germany since the nineteenth century it had perhaps been imitating the wrong national example Japanese policy debates during World War I particularly the clash between proponents of greater democratization and those who argued for military expansion thus became part of the ongoing discussion of national identity among Japanese elites This study links two sets of concerns the focus of recent studies of the nation on language culture education and race and the emphasis of diplomatic history on international developments to show how political diplomatic and cultural concerns work together to shape national identity

The Taking of Hong Kong Susanna Hoe, Derek Roebuck, 2013-10-11 Relations between Britain and China have for over 150 years been inextricably bound up with the taking of Hong Kong Island on 26 January 1841 The man responsible Britain's plenipotentiary Captain Charles Elliot was recalled by his government in disgrace and has been vilified ever since by China This book describes the taking of Hong Kong from Elliot's point of view for the first time through the personal letters of himself and his wife Clara and shows a man of intelligence conscience and humanitarian instincts The book gives new insights into Sino British relations of the period Because these are now being re assessed both historically and for the future revelations about

Elliot's role intentions and analysis are significant and could make an important difference to our understanding of the dynamics of these relations. On a different level, the book explores how Charles, the private man with his wife by his side, experienced events rather than how Elliot, the public figure, reported them to the British government. The work is therefore of great historiographical interest.

China Made Karl Gerth, 2020-05-11

Chinese people should consume Chinese products. This slogan was the catchphrase of a movement in early twentieth-century China that sought to link consumption and nationalism by instilling a concept of China as a modern nation with its own national products. From fashions in clothing to food additives, from museums to department stores, from product fairs to advertising, this movement influenced all aspects of China's burgeoning consumer culture. Anti-imperialist boycotts, commemorations of national humiliations, exhibitions of Chinese products, the vilification of treasonous consumers, and the promotion of Chinese captains of industry helped enforce nationalistic consumption and spread the message: patriotic Chinese bought goods made of Chinese materials by Chinese workers in factories owned and run by Chinese. In *China Made*, Karl Gerth argues that two key forces shaping the modern world—nationalism and consumerism—developed in tandem in China. Early in the twentieth century, nationalism branded every commodity as either Chinese or foreign, and consumer culture became the place where the notion of nationality was articulated, institutionalized, and practiced. Based on Chinese, Japanese, and English language archives, magazines, newspapers, and books, this first exploration of the historical ties between nationalism and consumerism reinterprets fundamental aspects of modern Chinese history and suggests ways of discerning such ties in all modern nations.

The Southern Garden Poetry Society David B. Honey, 2013-03-06

What has traditionally been the main matter explored by Cantonese literati? From the earliest poets, oceanic elements and riparian scenes contrasted with stunning rock formations; a love for the exotic, especially local plants, products, and lore; Daoist transcendentalism; and finally, a concern for pointing up local loyalty to the distant throne and a fierce pride in being culturally authentically Chinese. The Southern Garden Poetry Society in Guangzhou was the only major literary club in Chinese history to be periodically reconvened over the Ming, Qing, and Republican eras. Beginning with an examination of its five founding members during the Yuan-Ming transition period, in particular Sun Fen (1335–1393), David Honey traces the various elements of this Southern Muse that became embodied in later Cantonese poetry and pursues the issue of social memory by focusing on later reconvenings of the society.

Polachek, 1992 Why did defeat in the Opium War not lead China to a more realistic appreciation of Western might and Chinese weakness James Polachek's revisionist analysis exposes the behind the scenes political struggles that not only shaped foreign policy decisions in the 1830s and 1840s but have continued to affect the history of Chinese nationalism in modern times Polachek looks closely at the networks of literati and officials self consciously reminiscent of the late Ming era that sought and gained the ear of the emperor Challenging the conventional view that Lin Tse hsu and his supporters were selfless patriots who acted in China's best interests Polachek argues that for reasons having more to do with their own domestic political agenda these men advocated a futile policy of militant resistance to the West Linking political intrigue scholarly debates and foreign affairs local notables in Canton and literati lobbyists in Peking this book sets the Opium War for the first time in its inner domestic political context
