Literature and Utopian Politics in Seventeenth-Century England Robert Appelbaum, 2002-04-04 Hundreds of writers in the English speaking world of the seventeenth century imagined alternative ideal societies Sometimes they did so by

exploring fanciful territories such as the world in the moon or the nations of the Antipodes but sometimes they composed serious disquisitions about the here and now proposing how England or its nascent colonies could be conceived of as an Oceana or a New Jerusalem This book provides a comprehensive view of the operations of the utopian imagination in literature from 1603 to the 1660s Appealing to social theorists literary critics and political and cultural historians this volume revises prevailing notions of the languages of hope and social dreaming in the making of British modernity during a century of political and intellectual upheaval The Different Faces of Politics in the Visual and Performative Arts Mario Thomas Vassallo, Andre P. Debattista, 2023-12-22 This book highlights the linkages between politics and governance and the arts The essays in the volume show how visual and performative arts have challenged those in power or conversely patronised by them been used for propaganda to stir up national fervour and found themselves at the receiving end of political censure They focus on the tension and symbiosis between the politician and the artist foregrounding how they have always tried to influence challenge and in some cases undermine one another This volume will serve as an indispensable source for researchers and academics in political science the humanities and performing arts *Counterpoints* Stephanie Tara Schwartz, May Telmissany, 2010-03-08 Revolving around the theme of counterpoint extensively used by Edward Said as the interplay of diverse ideas and discrepant experiences this book aims to explore Said's contribution to the fields of comparative literature literary criticism postcolonial theory exilic and transnational studies and socio political thought among many others Overshadowed by his legitimate political positions in support to the Palestinian cause and at odds with Islamophobic hostilities Said's intellectual achievements in the fields of humanities and philosophical thinking should equally be acknowledged and celebrated Said articulates his notion of counterpoints through a vivid description of the composition of Western classical music In the counterpoint of Western classical music various themes play off one another with only a provisional privilege being given to any particular one yet in the resulting polyphony there is concert and order an organized interplay that derives from the themes not from a rigorous melodic or formal principle outside the work This book pays tribute to Said's contrapuntal methodology as well as to his academic and humanistic legacy **French Intellectuals Against the Left** Michael Scott Christofferson, 2004-06-01 In the latter half of the 1970s the French intellectual Left denounced communism Marxism and revolutionary politics through a critique of left wing totalitarianism that paved the way for today's postmodern liberal and moderate republican political options Contrary to the dominant understanding of the critique of totalitarianism as an abrupt rupture induced by Aleksandr Solzhenitsyn's *The Gulag Archipelago* Christofferson argues that French anti totalitarianism was the culmination of direct democratic critiques of communism and revisions of the revolutionary project after 1956 The author's focus on the direct democratic politics of French intellectuals offers an important alternative to recent histories that seek to explain the course of French intellectual politics by France's apparent lack of a liberal tradition **The Politics of the Essay** Ruth-Ellen B. Joeres, Elizabeth Mittman, 1993-08-22 The Politics of

the Essay is that rare scholarly work that provides both a history of this relatively new field and of its formal characteristics and inspires its readers to want to participate in the making of this history Signs The first in depth study of the relationship between women and essays Employing gender race class and national identity as axes of analysis this volume introduces new perspectives into what has been a largely apolitical discussion of the essay Includes an original essay by Susan Griffin
