Travel Writing in the Nineteenth Century Tim Youngs, 2006-09-01 Long popular with a general readership travel writing has in the past three decades or so become firmly established as an object of serious and multi disciplinary academic inquiry Few of the scholarly and popular publications that have focused on the nineteenth century have regarded the century as a whole This broad volume examines the cultural and social aspects of travel writing on Africa Asia America the Balkans and Australasia

The History of Archaeology Paul Bahn, 2014-01-10 The History of Archaeology An Introduction provides global coverage with chapters devoted to particular regions of the world The regional approach allows readers to understand the similarities and differences in the history of and approach to archaeology in various parts of the world Each chapter is written by a specialist scholar with experience of the region concerned Thus the book focuses on the earliest beginnings of archaeology in different parts of the world and how it developed from being a pastime for antiquarians and collectors to a serious attempt to obtain information about past societies Woven into the text are various boxes that explore key archaeologists sites and important discoveries in the history of archaeology enriching the story of the discipline s development With such far ranging coverage including an exploration of the little covered development of Russian and Chinese archaeology The History of Archaeology is the perfect introduction to the history of archaeology for the interested reader and student alike

Travel Narratives, Travel Fictions Daniel Cooper Alarcón, 2024-02-02 In Travel Narratives Travel Fictions Daniel Cooper Alarcón argues that travel literature performs important social and cultural criticism often overlooked in studies of the genre By examining non fiction and fiction novels and short stories that purposefully examine different types of travel in relationship to each other Cooper Alarcón documents and highlights the sophisticated ways that both types of writing have anticipated and contributed ideas central to critical studies of travel tourism and migration The author uses the term travel fictions to illustrate the ways in which travel narratives supposed factual accounts of travel often misrepresent distort and fabricate notions about the people and places they purport to describe creating useful mythologies and hinting at the ways in which the acts of reading and writing have become an integral part of traveling shaping not just itineraries but perceptions and beliefs about places travelers visit Both types of travel writing are influential in this regard and they frequently borrow from one another mutually reinforcing ideas tropes and modes of representation often in problematic ways

Mexican Travel Writing Thea Pitman, 2008 This book is a detailed study of salient examples of Mexican travel writing from the nineteenth and twentieth centuries While scholars have often explored the close relationship between European or North American travel writing and the discourse of imperialism little has been written on how postcolonial subjects might relate to the genre This study first traces the development of a travel writing tradition based closely on European imperialist models in mid nineteenth century Mexico It then goes on to analyse how the narrative techniques of postmodernism and the political agenda of postcolonialism might combine to help challenge the genre s

imperialist tendencies in late twentieth century works of travel writing focusing in particular on works by writers Juan Villoro Hector Perea and Fernando Solana Olivares

Jewish, Christian, and Muslim Travel Experiences Susanne Luther, Pieter B. Hartog, Clare E. Wilde, 2023-10-04 Travel and pilgrimage have become central research topics in recent years Some archaeologists and historians have applied globalization theories to ancient intercultural connections Classicists have rediscovered travel as a literary topic in Greek and Roman writing Scholars of early Judaism Christianity and Islam have been rethinking long familiar pilgrimage practices in new interdisciplinary contexts This volume contributes to this flourishing field of study in two ways First the focus of its contributions is on experiences of travel Our main question is How did travelers in the ancient world experience and make sense of their journeys real or imaginary and of the places they visited Second by treating Jewish Christian and Islamic experiences together this volume develops a long overdue perspective on the ways in which travel experiences across these three traditions resembled each other By focusing on experiences of travel we hope to foster interaction between the study of ancient travel in the humanities and that of broader human experience in the social sciences

Reinventing the Lacandón Brian Gollnick, 2022-08-23 Before massive deforestation began in the 1960s the Lacandón jungle which lies on the border of Mexico and Guatemala was part of the largest tropical rain forest north of the Amazon The destruction of the Lacandón occurred with little attention from the international press until January 1 1994 when a group of armed Maya rebels led by a charismatic spokesperson who called himself Subcomandante Marcos emerged from jungle communities and briefly occupied several towns in the Mexican state of Chiapas These rebels known as the Zapatista National Liberation Army became front page news around the globe and they used their notoriety to issue rhetorically powerful communiqués that denounced political corruption the Mexican government's treatment of indigenous peoples and the negative impact of globalization As Brian Gollnick reveals the Zapatista communiqués had deeper roots in the Mayan rain forest than Westerners realized and he points out that the very idea of the jungle is also deeply rooted though in different ways in the Western imagination Gollnick draws on theoretical innovations offered by subaltern studies to discover oral traces left by indigenous inhabitants in dominant cultural productions He explores both how the jungle region and its inhabitants have been represented in literary writings from the time of the Spanish conquest to the present and how the indigenous people have represented themselves in such works including post colonial and anti colonial narratives poetry video and photography His goal is to show how popular and elite cultures have interacted in creating depictions of life in the rain forest and to offer new critical vocabularies for analyzing forms of cross cultural expression

Guatemalan Journey Stephen Connely Benz, 2010-05-28 Guatemala draws some half million tourists each year whose brief visits to the ruins of ancient Maya cities and contemporary highland Maya villages may give them only a partial and folkloric understanding of Guatemalan society In this vividly written travel narrative Stephen Connely Benz explores the Guatemala that casual travelers miss using his encounters with ordinary Guatemalans at the mall on the streets at soccer games and even at the

funeral of massacre victims to illuminate the social reality of Guatemala today The book opens with an extended section on the capital Guatemala City and then moves out to the more remote parts of the country where the Guatemalan Indians predominate Benz offers us a series of intelligent and sometimes humorous perspectives on Guatemala's political history and the role of the military the country's environmental degradation the influence of foreign missionaries and especially the impact of the United States on Guatemala from governmental programs to fast food franchises
