Illusions in Motion Erkki Huhtamo,2013-02-22 Tracing the cultural material and discursive history of an early manifestation of media culture in the making Beginning in the late eighteenth century huge circular panoramas presented their audiences with resplendent representations that ranged from historic battles to exotic locations Such panoramas were immersive but static There were other panoramas that moved hundreds and probably thousands of them Their history has been largely forgotten In *Illusions in Motion* Erkki Huhtamo excavates this neglected early manifestation of media culture in the making The moving panorama was a long painting that unscrolled behind a window by means of a mechanical cranking system accompanied by a lecture music and sometimes sound and light effects Showmen exhibited such panoramas in venues that ranged from opera houses to church halls creating a market for mediated realities in both city and country In the first history of this phenomenon Huhtamo analyzes the moving panorama in all its complexity investigating its relationship to other media and its role in the culture of its time In his telling the panorama becomes a window for observing media in operation Huhtamo explores such topics as cultural forms that anticipated the moving panorama theatrical panoramas the diorama the panoramania of the 1850s and the career of Albert Smith the most successful showman of that era competition with magic lantern shows the final flowering of the panorama in the late nineteenth century and the panorama s afterlife as a topos traced through its evocation in literature journalism science philosophy and propaganda

A Writer of Our Time Joshua Sperling,2018-11-20 This engaging intellectual biography traces Berger s creative evolution analyzes highlights from his vast output and situates them within his empathetic Marxism The New Yorker The first intellectual biography of the life and work of John Berger John Berger was one of the most influential thinkers and writers of postwar Europe As a novelist he won the Booker prize in 1972 donating half his prize money to the Black Panthers As a TV presenter he changed the way we looked at art with *Ways of Seeing* As a storyteller and

political activist he defended the rights and dignity of workers migrants and the oppressed around the world Far from dragging politics into art he wrote in 1953 art has dragged me into politics He remained a revolutionary up to his death in January 2017 Built around a series of watersheds at once personal and historical A Writer of Our Time traces Berger s development from his roots as a postwar art student and polemicist in the Cold War battles of 1950s London through the heady days of the 1960s when the revolutions were not only political but sexual and artistic to Berger s reinvention as a rural storyteller and the long hangover that followed the rise and fall of the New Left Drawing on first hand unpublished interviews and archival sources only recently made available Joshua Sperling digs beneath the moments of controversy to reveal a figure of remarkable complexity and resilience The portrait that emerges is of a cultural innovator as celebrated as he was often misunderstood and a writer increasingly driven as much by what he loved as by what he opposed A Writer of Our Time brings the many faces of John Berger together repatriating one of our great minds to the intellectual dramas of his and our time

Creative Cognition and the Cultural Panorama of Twentieth-Century Spain C. Gala,2015-05-20 This multidisciplinary study focuses on the creative state as the nucleus of the work of numerous poets

artists and philosophers from twentieth century Spain Beginning with cognitive science Gala explores the mental processes and structures that underline creative thinking for poets like Jos Mar a Hinojosa Clara Jan s and Jorge Guill n **Still Life** Elisha Cohn,2016 Still Life Suspended Development in the Victorian Novel rethinks the nineteenth century aesthetics of agency through the Victorian novel s fascination with states of reverie trance and sleep These states challenge contemporary scientific and philosophical accounts of the perfectibility of the self which privileged reflective self awareness In dialogue with the field of literature and science studies and affect studies this book shows how Victorian writers used narrative form to respond to the analytical practices and knowledge production of those other disciplines Drawing upon canonical texts by Charlotte Bront George Eliot George Meredith and Thomas Hardy Still Life contends that depictions of non purposive perceptual experience suspend the processes of self cultivation Bildung central to Victorian aesthetics science psychology and political theory as well as most critical accounts of the novel form Departing from the values of individual cultivation and moral revelation associated with the genre these writers offer an affective framework for understanding the subtly non instrumental powers of narrative Victorian novels ostensibly working within the parameters of the Bildungsroman are suspended by moments of still life a decentered lyricism associated with states of diminished consciousness They use this style to narrate what should be unnarratable experiences not dependent on reflective consciousness which express a distinctive ambivalence toward dominant developmental frameworks of individual self culture Journal of the Engineers' Club of Philadelphia and Affiliated Societies ,1916 Engineers and Engineering ,1916 *Still Life in Photography* Paul Martineau,2010 The genre of still life is considered from a wide range of visual perspectives as it spans the history of photography from the early nineteenth century to the present Kant and the Southern New Critics William J. Handy,1963-01-01 An author s true meaning has always been largely a matter of opinion among literary critics even when only objective language was analyzed However a writer s inner meaning which perhaps not even he or she consciously realizes interests the new critics who base their theory of criticism on the writings of Immanuel Kant and hold philosophical values to be essential in studying a literary work William J Handy a former student of John Crowe Ransom himself a critic of note reveals the inadequacy of logical concept to represent the full quality of human experience In Kant and the Southern New Critics he discusses the theories and practices of some pioneers of philosophical criticism John Crowe Ransom Allen Tate Cleanth Brooks and others and traces the influence of the Kantian generative idea on their assumption that a work of art is the celebration of one s qualitative experience Critics in the new school believe that knowledge of experience is distorted when abstracted into scientific quantitative notations and that the artist to portray things in their more natural state must employ particulars in order to achieve universals Knowledge of any subject or object must include the aesthetic qualities of imagination and emotion that cannot be discovered through analysis This study explores Ransom s theory of ontological criticism The basic difference in symbols representing things and those representing ideas was discerned by Kant who

distinguished between understanding analysis of an object in order to classify it and imagination realization of an object undistorted by logical reduction Handysuggests that ontological structure requires a writer to use the logic that springs from his image making faculty a thought also expressed by T S Eliot who says The only way of expressing emotion in the form of art is by finding an objective correlative The discipline of philosophical aesthetics is necessary for the critic Handy says if his principles are to be substantial enough to make a significant contribution to knowledge of literary theory This book clearly delineates the origins of a philosophical approach and leads the reader to an appreciation of the deeper enjoyment and meaning it can give to literary experience **Memory Bytes** Lauren Rabinovitz,Abraham Geil,2004-01-12 Essays on digital culture what it is its historical context and its uses in the media the film industry and the sciences **Atkinson's Evening Post, and Philadelphia Saturday News** ,1929 *A Course of Advanced Lessons in Clairvoyance and Occult Powers* Swami Panchadasi,1916
