Congress. House. Committee on the Judiciary,1974 *The Long Disenchantment* Ilaria Poggiolini,2024-12-27 This book seeks to replace a comforting European narrative of British missed opportunities with a chronicle of the complexity of UK EC EU relations After nearly a decade of Brexit 2016 it revisits the historical evolution of the relationship between Britain and Europe since the 1970s Building on an in depth study of primary and secondary sources the author sheds new light on the intricacies of that relationship The book is structured in six chapters the first of which reflects on the causes of the UK s lack of engagement in the early and crucial developments of the European Community The second chapter revisits ten years of stop go diplomacy of accession and the meaning of the first enlargement for Britain and its partners The third chapter argues that in the early years entry represented for Britain an opportunity to deliver change working with France and Germany inside the EC and as an EC member building new relationships with countries outside including in the Commonwealth The fourth chapter focuses on the dawning realisation that EC membership meant for Britain joining its partners on a journey towards an unknown destination in search of whatever closer Union would mean The Fifth chapter concentrates on the 1980s when on the one hand the British government was to the fore in the creation of a single market while on the other it openly challenged an agreed upon narrative among the continental member states This narrative was one which sought to reshape European values and relationships together with its culture geography and history round a commitment to greater integration The final chapter is

an epilogue that examines the political decisions of the last four British prime ministers Major Brown Blair and Cameron in confronting and reacting to the reality of European Union from the Maastricht Treaty 1992 onward This examination suggests that rather than political continuity discontinuity led the UK through Prime Minister David Cameron s efforts at renegotiation in the EU to Brexit and his instant resignation This book invites readers to rethink refine and challenge the dominant narrative of Britain as a predictable permanent outsider condemned to irrelevance in the EC EU It will appeal to scholars of international relations and political history as well as political decision makers both in Britain and the EU **The Oxford Handbook of Industrial Archaeology** Eleanor Casella,Michael Nevell,Hanna Steyne,2022-05-12 Representing the first substantial English language text on Industrial Archaeology in a decade this handbook comes at a time when the global impact of industrialization is being re assessed in terms of its legacy of climate change mechanization urbanization the forced migration of peoples and labour relations Critical debates around the beginning of a new geological era The Anthropocene have emerged over the last decade This approach interrogates the widespread exploitation of natural resources that forged industrialization from its early emergence in 18th century northern Europe to its contemporary ubiquity environmental impacts and social legacy within our globalized world Through a broad international and multi period set of chapters this volume explores the complex origins processes and development of industrialization through both its physical remains and human consequences both the good and the bad It provides a diverse material framework for understanding our modern world from its industrial origins through its future paths in the 21st century **Australian national bibliography** ,1961
