Tendering and Negotiating MOD Contracts Tim R. Retention of Title Susan Singleton, 2010 This briefing ensures that businesses are put in a position where they can recover goods by judicious use of a well drafted retention of title clause and ensure their terms and conditions apply and form part of the contract between the parties Sadly many of the disputes that occurred during the recession have come about because one or other party did not get their commercial deal down in writing at the start They started running a company without a shareholder agreement Or they supplied goods without any terms and conditions in writing Or they had terms but they omitted important legal issues Often saving half an hour of a lawyer s cost in the initial drafting stage means a company has 18 months of High Court litigation This briefing will light the way on how to ensure you retain title to goods Tax Planning for Businesses and Their Owners Peter Hughes, 2006-11 2006 07 has been a significant year for UK tax legislation seeing in the introduction of a new personal pensions regime the abolition of the nil starting rate for Corporation Tax and the alignment of Inheritance Tax for the various types of trusts This book is aimed at owners and managers of businesses and offers advice on the tax implications of their business decisions It guides owners towards both business choices and personal transactions that will help to secure opportunities for tax reduction In the midst of wide reaching change in tax regulations the author a financial consultant and lecturer uses his experience and expertise to provide a timely advisory text which concentrates specifically on relieving the tax burden *The Politics and Economics of Defence Industries* Efraim

these negotiations requires a level of strategic awareness because the interests of the parties are more complex the options more numerous and the outcomes more critical than at a tactical level Strategic Negotiation is written for senior executives who provide input to or assessment of their organization's medium or long term planning process and who are engaged in implementing any aspects of their organization's plans Part One focuses on the foundations of strategic negotiation the commercial imperatives what the organization must do to restructure and resource its operations to achieve commercial success and the negotiation strategies associated with each It also explains the logistics of managing complex public and private sector negotiations Part Two includes the tools for successful negotiation bid strategies techniques for analyzing your position before you start and reassessing it during the negotiation and the negotiation agenda and how to design and compile it If you are operating at a senior level where negotiations are by their nature high value complex multi level and often multi party what better guide than Gavin Kennedy a long standing world expert on negotiation and his book Strategic Negotiation

Defence Policy of Nigeria: Capability and Context Charles Quarker Dokubo,Celestine Oyom Bassey,2011-01-20 This Reader provides a structurally coherent explanation and review of the magnified role conception and organizational task expansion for the Nigerian military establishment in foreign policy It argues essentially that one of the most problematic and intractable areas of public policy in Nigeria since the Civil War concerns the development of a professional defence establishment adequate to meet the challenges arising from the altered parameters of iour security environment The correction of this condition is the primary motivation of the Armed Forces modernization and augmentation program that touches upon all elements of Nigeria s military power This Reader is at once a review and a critique of the major facets of this modernization and augmentation process of the Nigerian armed forces within the operative context of the changing dimension of threat perception and the strategic parameters that have guided Nigerian military planning since the Civil War in 1970

British Weapons Acquisition Policy and the Futility of Reform Warren A. Chin,2019-09-17 Originally published in 2004 This incisive work reveals the causes of escalating costs and delays in British defence procurement from 1945 to the

present Tackling a complex subject in a straightforward and readable manner it considers how successive British governments reacted to this problem why they adopted the reforms they did and why these reforms failed to have any meaningful effect on the operation of this process The study draws upon a number of disciplines such as economics politics and science and engineering to provide a broad synthesis that allows the reader to understand the technicalities of the process The conclusion reached is that there is no apparent solution to the problem of intergenerational costs of weapons but that a key to controlling the growing cost of projects during their development lies in the construction of a more effective research and development strategy a path followed by Margaret Thatcher s predecessors and one that is also being advocated today *Middle East Diversification and Defense Market Assessment* ,1996 *Sessional Papers* Great Britain.
