Mind Games Sir Jeff Grout, Sir Sarah Perrin, 2010-02-12 What makes a winner in business or in sport Why do some people consistently break sales targets cross the line first or hammer the ball in the net with pinpoint accuracy Natural talent and disciplined training are vital But with two equally matched professionals something else makes the difference that provides that extra champion factor the mind Mind Games looks into the mental processes of sporting stars identifying the attitudes and approaches that enable them to achieve peak performance every time and applies them specifically to the world of business What are the key mental characteristics that make some people come out on top How do winners channel adrenalin into controlled power while losers choke What do sportsmen and women mean when they talk about the inner game being in the zone or being in the now What is it that coaches do to realise the potential they see What are the lessons that business winners need to learn from sport s superstars Mind Games has the full involvement of over 30 sporting household names including Sven Goran Eriksson Matthew Pinsent Clive Woodward Nick Faldo Jonny Wilkinson The authors draw on extensive first hand experiences of acknowledged sporting champions across a range of sports identifying personal techniques proven to have worked under the pressure of top level competition They also draw on the expertise of professional coaches and psychologists who have worked with sportsmen and women

The Tennis Brain Federico Di Carlo, 2016-12-17 Most times tennis players and athletes in general finish the competition unhappy about their performances They feel that the potential was there but a hidden force prevented them from achieving a feel good performance Performances however are never usually black and white Most times athletes feel as though they were going through flows flash in flash out phases Falls during performance are conventionally defined slumps and are among the most hated between athletes above all when they feel that the main reason for slumps is not due to technical tactical or athletic flash outs but rather to the mental components of the sport activity In The Tennis Brain you will find the following Journey inside the processes and functions of the human brain Find a neuroscientific based evidence for theories on the mind and conscious processes Discover why the game of tennis is so prone to mind influences Understand how the mind processes influence tennis game specific situations Learn how to synchronize brain body and mind for best tennis in match performance Book Endorsements This work by Federico Di Carlo is a cornerstone among the contemporary research on cognitive neuroscience The reader is introduced to the exploration and a step by step understanding of the brain and mind mechanisms Through a fascinating journey in the world of tennis the author motivates the reader to discover and change wrong behaviours in a positive way This is a complete manual useful to both tennis professionals and fans as well as to anyone aspiring to achieve better results in the game of life Renzo Ardiccioni associate professor of communication Universit du Maine France Drawing upon a great number of studies as well as on the authors personal experience Tennis Brain brings together neurosciences and tennis practice challenging the readers to critically reconsider some of their habits and beliefs Di Carlo summarises the

extensive research produced in the last three decades and makes it accessible to a wider audience bringing our understanding of key mental aspects of tennis out of the realm of empirical opinions and into the realm of science and knowledge Tennis Brain can actually guide the readers to develop their own critical thinking and to learn to improve

Alessandro Bruinen Serio PhD founder of RISED Research for Integrative and Sustainable Development Since the first time we met I was really impressed with Di Carlo well founded opinion genuine love and immense enthusiasm for a neuroscientific driven tennis which comes out from every single page of The Tennis Brain Starting from a presentation of the structural and physiological mechanisms of the nervous system and the psychological assets of the mind Federico Di Carlo uses the tennis court to change the tennis player mind to a positive thinking and correct competitive mentality For scientific consistency I compared my thinking on the book with other readers and I received a similar feedback The Tennis Brain actually might represent a benchmark in the developing field of cognitive neuroscience applied to sport coaching Prof Salvatore Guccione Department of Drug Sciences University of Catania
