Tensions Of Teaching

Jamy Stillman, Lauren Anderson

Tensions Of Teaching:

Tensions of Teaching Judith Newman, 1998 Covering all grade levels *Tensions of Teaching* is a collection of teachers and principals thoughts and reflections about their experiences as practitioners and learners Through their writings the participating educators learned a great deal about the political nature of teaching as well as everyday issues that teachers face They discovered that every action and every decision in a classroom carries with it the potential both to support and to interfere with a student s learning They observed how their decisions make them vulnerable and fearful And they learned how teaching is fraught with tensions The action research and the writing which brings it to fruition allowed them and all who read this book to better understand the constraints under which teachers work

Tensions in Teaching about Teaching Amanda Berry, 2007-06-03 This book captures the excitement and the difficulties of self study of teacher education practices placing it at the forefront of approaches to practitioner inquiry It offers insight into the relationship between teaching about teaching and learning about teaching that emerged through the author s own self study project The book illustrates how tensions can act as a means for both analysing practice and articulating the professional knowledge that comprises a pedagogy of teacher education

Teaching for Equity in Complex Times Jamy Stillman, Lauren Anderson, 2017 In schools serving high concentrations of bilingual learners it can be especially challenging for teachers to maintain commitments to equity minded instruction while meeting the demands of new educational policies including national standards This book details how one school integrated equity pedagogy into a standards based curriculum and produced exemplary levels of achievement As the authors illustrate

however the school's dual commitment to bilingual education and standards based reform engendered numerous complex tensions. Specifically the authors describe teachers' attempts to balance demands for rigor and content coverage within their high performing school and with their diverse student population. They identify specific tensions that emerged around the following issues: the degree of academic struggle that is generative for student learning and the point at which such struggle becomes counterproductive; the holding of high expectations for all learners and the provision of differentiated student centered learning experiences; the CCSS emphasis on engaging students around more complex text and the contested determination of what constitutes complexity in text and in teaching; the influence of high stakes accountability on school norms and practices including teachers' interpretations and enactment of new national standards; the performance pressures placed on teachers in today's educational policy context. This book offers welcome guidance on dialogical teaching to socially committed teachers and teacher educators. Linda Valli, University of Maryland.
