Early Mesoamerican Cities Michael Love, Julia Guernsey, 2022-01-06 Urbanization is a phenomenon that brings into focus a range of topics of broad interest to scholars It is one of the central enduring interests of anthropological archaeology Because urbanization is a transformational process it changes the relationships between social and cultural variables such as demography economy politics and ideology As one of a handful of cases in the ancient world where cities developed independently Mesoamerica should play a major role in the global comparative analysis of first generation cities and urbanism in general Yet most

research focuses on later manifestations of urbanism in Mesoamerica thereby perpetuating the fallacy that Mesoamerican cities developed relatively late in comparison to urban centers in the rest of the world This volume presents new data case studies and models for approaching the subject of early Mesoamerican cities It demonstrates how the study of urbanism in Mesoamerica and all ancient civilizations is entering a new and dynamic phase of scholarship *Ceramic Sequence in Colima* Isabel Kelly,1980 Kelly s identification of a nineteenth century B C ceramic complex has far reaching implications for the archaeology of western Mexico and its relationship with central Mexico and South America A well illustrated monograph that covers much more than the title promises *The Masterkey* The Collapse of Ancient States and Civilizations Norman Yoffee,George L. Cowgill,1988-05-01 This is an excellent collection of essays on the collapse of ancient states and civilizations by historians archaeologists excellent overviews of the relevant research *Contemporary Sociology* *Ancient Mesoamerica* Richard E. Chase,Arlen F. Chase,Diane Z. Chase,2024-05-07 This book critically re examines Mesoamerican archaeological approaches to estimating populations associated with ancient cities settlement systems and regions Archaeological data and lidar are both employed to demonstrate how complex ancient Mesoamerican societies were and how they changed over time **Intrasite Spatial Analysis in Archaeology** Harold Hietala,Paul A. Larson,1984-11-08 Collection of theoretical discussions and case studies paper by B Spurling and B Hayden seperately annotated Environment and Planning ,1987 Visual Culture of the Ancient Americas Esther Pasztory,2017-01-26 In the past fifty years the study of indigenous and pre Columbian art has evolved from a groundbreaking area of inquiry in the mid 1960s to an established field of research This period also spans the career of art historian Esther Pasztory Few scholars have made such a broad and lasting impact as Pasztory both in terms of our understanding of specific facets of ancient American art as well as in our appreciation of the evolving analytical tendencies related to the broader field

of study as it developed and matured The essays collected in this volume reflect scholarly rigor and new perspectives on ancient American art and are contributed by many of Pasztory's former students and colleagues A testament to the sheer breadth of Pasztory's accomplishments Visual Culture of the Ancient Americas covers a wide range of topics from Aztec picture writing to nineteenth century European scientific illustration of Andean sites in Peru The essays written by both established and rising scholars from across the field focus on three areas the ancient Andes including its representation by European explorers and scholars of the nineteenth century Classic period Mesoamerica and its uses within the cultural heritage debate of the twentieth and twenty first centuries and Postclassic Mesoamerica particularly the deeper and heretofore often hidden meanings of its cultural production Figures maps and color plates demonstrate the vibrancy and continued allure of indigenous artworks from the ancient Americas Pre Columbian art can give more Pasztory declares and the scholars featured here make a compelling case for its incorporation into art theory as a whole The result is a collection of essays that celebrates Pasztory's central role in the development of the field of Ancient American visual studies even as it looks toward the future of the discipline

Palaces and Courtly Culture in Ancient Mesoamerica Julie Nehammer Knub, Christophe Helmke, Jesper Nielsen, 2014-01-19 This volume collects eight recent and innovative studies spanning the breadth of Mesoamerica from the Early Classic metropolis of Teotihuacan to Tenochtitlan the Late Postclassic capital of the Aztec and from the arid central Mexican highlands in the west to the humid Maya lowlands in the east

Ancient Road Networks and Settlement Hierarchies in the New World Charles D. Trombold, 1991-11-28 The presence of ancient road networks in the New World is a puzzle because they predate the use of wheeled transport vehicles But whatever their diverse functions may have been they remain the only tangible indication of how extinct American societies were regionally organised Contributors to this volume originally published in 1991 describe past studies of prehispanic roads in the southwestern United States Mexico Central and South America paying special attention to their significance for economic and political organisation as well as regional communication
