**Carlos Fuentes, Mexico, and Modernity** Maarten Van Delden, 1998 In Carlos Fuentes Mexico and Modernity Maarten van Delden argues that there is a fundamental paradox at the heart of Fuentes s vision of Mexico and in his role as novelist and critic in putting forth that vision This paradox hinges on the tension between national identity and modernity A significant internal conflict emerges in Fuentes s work from his attempt to stake out two different positions for himself as experimental novelist and as politically engaged and responsible intellectual Drawing from the fiction literary essays and political journalism van Delden places these tensions in Fuentes s work in relation to the larger debates about modernity and postmodernity in Latin America He concludes that Fuentes is fundamentally a modernist writer in spite of the fact that he occasionally gravitates toward the postmodernist position in literature and politics Van Delden s thorough command of the subject matter his innovative and sometimes iconoclastic conclusions and his clear and engaging writing style make this study more than just an interpretation of Fuentes s work Carlos Fuentes Mexico and Modernity offers nothing less than a comprehensive analysis of Fuentes s work Carlos Fuentes Mexico and Modernity offers nothing less than a comprehensive analysis of Fuentes s intellectual development in the context of modern Mexican political and cultural life

The Voice of the Masters Roberto González Echevarría, 2010-07-05 By one of the most original and learned critical voices in Hispanic studies a timely and ambitious study of authority as theme and authority as authorial strategy in modern Latin American literature An ideology is implicit in modern Latin American literature argues Roberto González Echevarría through which both the literature itself and criticism of it define what Latin American literature is and how it ought to be read In the works themselves this ideology is constantly subjected to a radical critique and that critique renders the ideology productive and in a sense is what constitutes the work In literary criticism however too frequently the ideology merely serves as support for an authoritative discourse that seriously misrepresents Latin American literature In The Voice of the Masters González Echevarría attempts to uncover the workings of modern Latin American literature by creating a dialogue of texts a dynamic whole whose parts are seven illuminating essays on seminal texts in the tradition As he says To have written a sustained expository book would have led me to make the same kind of critical error that I attribute to most criticism of Latin American literature I would have naively assumed an authoritative voice while attempting a critique of precisely that critical gesture Instead major works by Barnet Cabrera Infante Carpentier Cortázar Fuentes Gallegos García M

riquez Roa Bastos and Rod are the object of a set of independent deconstructive and reconstructive readings Writing in the tradition of Derrida and de Man Gonz lez Echevarra brings to these readings both the penetrative brilliance of the French master and a profound understanding of historical and cultural context His insightful annotation of Cabrera Infante's *Meta* End the full text of which is presented at the close of the study clearly demonstrates these qualities and exemplifies his particular approach to the text

**Orogenic Processes** Wolfgang Franke (géologue.),2000 *The Irish Parliament in the Middle Ages* H. G. Richardson,G. O. Sayles,2016-11-11 Based largely on manuscript material this comprehensive account of the Irish Parliament in the Middle Ages shows that early Irish parliaments cannot be identified either in form or function with their modern namesake and consequently demonstrates that the concept of governmental democracy had a much slower more gradual development than historians have heretofore believed The history of the Irish Parliaments proper begins with that held at Castledermot in mid June 1264 During the reign of Edward II and the early years of Edward III significant changes took place changes the authors point out similar to those taking place in the development of the English Parliament though there were important differences The book continues with a description of the Irish Parliament in the middle years of Edward III's reign and concludes with an account of the parliament at Drogheda held in 1494 when the passing of Poyning's Law brought the period of medieval parliaments to a close The appendices include an almost complete list of the meetings convened between 1264 and 1494 as well as copies of documents that the authors say are the only means whereby a close glimpse may be had of the personnel and deliberations of the Privy Council
