**III - Fasting and Sunbathing**, Hygienic Review Herbert M. Shelton, 1996-09 The Science and Fine Art of Fasting Herbert M. Shelton, 2024-03-13T00:00:00Z Herbert Shelton wrote 40 books over his 60-year career in health education and natural hygiene. He supervised over 30,000 fasts of chronically ill and terminal patients, losing only three. Shelton's teachings on fasting inspired Ghandi, Harvey, and Marilyn Diamond. Said of Shelton: "A man of astounding intelligence and understanding." Dr. Herbert Shelton was the greatest health oracle of the 20th century. **Scientific Fasting** Linda Burfield Hazzard, 1927

Fast and Grow Young Walt F.J. Goodridge, Herbert Shelton, 2021-06-09 Excellent work on Fasting. Contains numerous references to additional works by doctors in the field circa time of the writing. The best on fasting I have come across so far. Amazon 5-star review. Fast 6x9 ISBN 978 1494413798. Fast Grow Young features insight, research, and case histories of the remarkable effects fasting has on the human body. The body is in fact coded to heal. Fasting allows the body's digestive system to rest, switch into repair and removal mode, and begin the natural process of healing that has been encoded within every cell of the body. But there's more. An extended fast achieves the remarkable reversal and rejuvenation. Many people never get to experience the dissolution of tumors, the reversal of chronic conditions, the improvement of eyesight, hearing, and sense of smell that occurs during an extended fast. Discover nature's simplest but most profound secret and how to do it right. Read more at <https://www.waltgoodridge.com/books>. **The hygienic system** Herbert McGolphin Shelton, 1963 *The Fast* John Oakes, 2024-02-13 With fasting at an all-time high in popularity, here is an enlightening exploration into the history, science, and philosophy behind the practice essential to many religions and wellness routines. Whether for philosophical, political, or health-related reasons, fasting marks a departure from daily routine. Based on extensive historical, scientific, and cultural research and reporting, *The Fast* illuminates the numerous facets of this act of self-deprivation. John Oakes interviews doctors, spiritual leaders, activists, and others who guide him through this practice and embarks on fasts of his own to deliver a book that supplies anyone curious about fasting with profound new understanding, appreciation, and inspiration. In recent years, fasting has become increasingly popular for a variety of reasons, from weight loss to detoxing to the faithful who fast in prayer to seekers pursuing mindfulness to activists using hunger strikes as protest. Notable fasters include Moses, Buddha, Jesus, Muhammad, Gandhi, George Washington, Abraham Lincoln, Emily Dickinson, Mark Twain, Cesar Chavez, and a long list of others who have drawn on its power over the ages and across borders and cultures. *The Fast* looks at the complex science behind the jaw-dropping biological changes that occur inside the body when we fast. Metabolic switching can prompt repair.

and renewal down to the molecular level providing benefits for those suffering from obesity and diabetes cancer epilepsy cardiovascular disease neurodegenerative disorders and more Longer fasts can both reinvigorate the immune system and protect it against damage Beyond the physical experience fasting can be a great collective unifier and it has been adopted by religions and political movements all over the world for millennia Fasting is central to holy seasons and days such as Lent Christianity Ramadan Islam Yom Kippur Judaism Uposatha Buddhism and Ekadashi Hinduism On an individual level devout ascetics who master self deprivation to an extreme are believed to be closer to the divine ascending to enlightenment or even sainthood Fasting reminds us of the virtues of holding back of not consuming all that we can Broad in scope and rich in insight Publishers Weekly starred review this book shows us that fasting is about much more than food it is about taking control of your life in new and empowering ways and reconsidering your place in the world **The Fasting Story** Health

**Fasting against Diabetes: Starving the Sugar Demon** Laing Z. Matthews, 2025-09-20 Fasting Against Diabetes Starving the Sugar Demon is not a diet manual It is a liberation text A map for those ready to walk out of the prison of type 2 diabetes not with more medication but with less interference Not with gimmicks but with rhythm clarity and the rediscovery of what the body was always capable of doing healing itself This book is both personal and practical Written by a spiritual author who lost his mother to diabetic complications despite guiding her into reduced carbohydrate intake and early fasting practice this work is both a tribute and a turning point It is for everyone who has watched a loved one fade slowly under the weight of management protocols It is also for those who still carry the diagnosis and wonder Is this really permanent The answer backed by science and soul is no Type 2 diabetes is reversible The body is not broken The cure is already within but it must be given space to speak The book dismantles myths that dominate modern diabetes care That it must be managed for life That food must be eaten every few hours That hunger is dangerous That medication is the only way forward Instead it reframes fasting not as starvation but as restoration Fasting calms the insulin chaos It burns toxic reserves It cools chronic inflammation It breaks dopamine addiction to sugar snacking and stimulation It does what no pill can it teaches the body to remember its own rhythm But this book goes beyond biology It sees fasting as sacred as a spiritual rhythm long known by mystics monks yogis and healers It argues that the modern epidemic of metabolic illness is not just a medical failure but a spiritual forgetting We've forgotten how to be empty How to be still How to stop feeding what is killing us physically emotionally and energetically The chapters guide the reader through Why the standard approach to diabetes often fails How fasting works at the cellular and hormonal levels Step by step approaches to different fast types from daily windows to extended fasts How to taper medication safely with medical support How to reintroduce food respectfully after fasting How to eat for long term metabolic peace not obsession How to restore emotional sovereignty around hunger and food How fasting reveals deeper truths about presence healing and purpose The tone is warm but no nonsense It refuses to coddle the lies but honors the suffering It respects the reader not as a passive patient but as a sovereign being capable of transformation This is a book for those ready to stop chasing numbers and start remembering their nature It ends not with a protocol but a prophetic call You were never broken You were never meant to stay sick You are a healing intelligence in human form And the time to reclaim your rhythm is now
