The Identity Club:

The Identity Club Richard Burgin, 2005 In 20 stories both new and selected from his four previous collections Richard Burgin explores our quest for identity and love truth and family as well as darker themes of betrayal and crime In *The Identity Club* we meet an extraordinarily variegated cast of characters including prostitutes and businessmen a famous young writer and a homeless basketball player an ambitious but thwarted composer There are love stories murder stories as well as stories of transcendence both imagined and real The 20 songs on the accompanying CD while not directly related to the stories express many of the same moods and emotions found in *The Identity Club* from the darkly lyrical to the exultant

Cards of Identity Nigel Forbes Dennis, 2002 A Scathing Satire On Psychology Identity Theory And Class Prejudice *Cards of Identity* is a scathing satire of psychology identity theory and class prejudice The plot centers on an annual meeting of the Identity Club a group of psychologists who come together to present case histories promoting their chosen theory of identity These case studies three of which are presented in the novel are not scientific treatises but fictional representations of characters in line with the author's biases In fact members of the Club aren't allowed to interact with actual patients when creating their stories Surrounding this meeting is the equally bizarre story of the local townspeople who are brainwashed and transformed into servants for the convention and who end the book with a show stopping Shakespearian play

Sport, Media and Regional Identity Simon Roberts, 2015-11-25 The increasing potency of identity politics across Europe often sees sport acting as a vehicle for the promotion and celebration of regional and sub national identities However while the relationship between sport the media and national identity has featured in numerous academic and political debates in recent years the links between sports media and regional identity have received little attention This seems a curious oversight because the links between sport and region frequently become a celebration of the local and the distinctive emblematic of community and continuity This volume will explore that sense of the counter hegemonic where sport is celebrated by a media often keen to promote notions of difference which might verge on rebellion in some contexts conceived as resisting global homogeneity or national hegemony At other times they may merely reflect a commercial nose for the local audience s tastes but there is always the sense of preserving something important a celebration of the diversity that makes us human This book considers the centrality and cultural significance of particular sports or clubs to regional and sub national identities across Europe and beyond adopting a comparative approach to the mediatized nature of such portrayals

English National Identity and Football Fan Culture Tom Gibbons, 2016-05-13 In recent years scholars have understood the increasing use of the St George s Cross by football fans to be evidence of a rise in a specifically English identity This has emerged as part of a wider national response to broader political processes such as devolution and European integration which have fragmented identities within the UK Using the controversial figurational sociological approach advocated by the twentieth century theorist Norbert Elias this book challenges such a view drawing on ethnographic research amongst fans to explore the precise nature of the relationship between contemporary English national identity and football fan culture Examining football fans expressions of Englishness in public houses and online spaces the author discusses the effects of globalization European integration and UK devolution on English society revealing that the use of the St George s Cross does not signal the emergence of a specifically English national consciousness but in fact masks a more complex multi layered process of

national identity construction A detailed and grounded study of identity nationalism and globalization amongst football fans English National Identity and Football Fan Culture will appeal to scholars and students of politics sociology and anthropology with interests in ethnography the sociology of sport fan cultures globalization and contemporary national identities *The Making of Latin London* Patria Roman-Velazquez, 2017-07-05 An examination of how Latin American people and cultural practices have moved from between continents exploring how Latin Americans experience this process and what part different people play in re making Latin identities in the neighbourhoods parks bars and dance clubs of London The Enchanted Glass Tom Nairn, 2011-11-07 In this acclaimed study of British statehood identity and culture Tom Nairn deftly dispels the conviction that the Royal Family is nothing more than an amusing relic of feudalism or a mere tourist attraction Instead he argues that the monarchy is both apex and essence of the British state the symbol of a national backwardness In this fully updated edition Nairn's powerful and bitterly comic prose lays bare Britain's peculiar pseudo modern national identity which remains stubbornly fixated on the Crown and its constitutional framework the parliamentary sovereignty of Westminster **Market Research Methods in the Sports Industry** Neven Šerić, Jasenko Ljubica, 2025-04-14 Market Research Methods in the Sports Industry provides a comprehensive elaboration of market research methods currently used by sports businesses The book identifies and explains the most effective uses of market research drawing upon a range of updated real life case studies *Trust, Ethnicity, and Identity* Janet T.
