Chambers,2013-03-14 This book is about the teaching and study of the humanities in our universities It addresses humanities educators whose job it is to teach undergraduate students researchers into the processes of teaching and learning involved and higher education policy makers The book aims to stimulate discussion among them of the proper purposes processes and outcomes of this form of education And in the process it aims to help

define and develop the new field of Arts and Humanities Higher Education AHHE In the humanities as in other academic domains of higher education a public discourse of teaching and of students learning is presently underdeveloped This may seem surprising given the long history of the university as an institution and the huge resources devoted to higher education in many countries but there are of course reasons for it First until very recently there has been no profession of teacher education focused on the academy Simply academics have needed neither training nor qualification as teachers of their subject so that no one has been required to make teacher education their business or teaching learning in 2 higher education their special field of interest As regards schooling the The label Arts and Humanities Higher Education reflects the fact that the humanities subjects Classics Cultural Studies History Art History European Studies Languages Literature Philosophy Religious Studies etc are usually taught in the Faculty of Arts in UK universities The book does not include discussion of the fine or performing arts except incidentally

Wilson, 2002-05-27 From beginning to end of the Iliad Agamemnon and Achilles are locked in a high stakes struggle for dominance based on their efforts to impose competing definitions of loss incurred and the nature of compensation thereby owed This typology of scenes involving apoina or ransom and poine or revenge is the basis of Donna Wilson s detailed anthropology of

compensation in Homer which she locates in the wider context of agonistic exchange Wilson argues that a struggle over definitions is a central feature of elite competition for status in the zero sum and fluid ranking system characteristic of Homeric society This system can be used to explain why Achilles refuses Agamemnon s compensation in Book 9 as well as why and how the embassy tries to mask it Ransom Revenge and Heroic Identity in the Iliad thus examines the traditional semantic cultural and poetic matrix of which compensation is an integral part *Theory in Contemporary Art since 1985* Zoya Kocur, Simon Leung, 2012-09-11 Updated and reorganized to offer the best collection of state of the art readings on the role of critical theory in contemporary art this second edition of *Theory in Contemporary Art since 1985* brings together scholarly essays artists statements and art reproductions to capture the vibrancy and dissonance that define today s art scene Incorporates new and updated topics that have become central to art theory and practice over the past decade New and updated chapters cover such topics as international biennials historicizing of the term contemporary art aesthetics art and politics feminism and pornography ecology and art the Middle East and conflict studies Eastern European art and politics gender and war and technology Features a thematic reconfiguration of sections and new introductions to make readings user friendly Extensively illustrated throughout with an expanded color plate section New contributions to this edition include those by Alexander Alberro Claire Bishop T J Demos Anthony Downey Liam Gillick Marina Gr ini Mary Kelly Chantal Mouffe Beatriz Preciado Jacques Ranciere Blake Stimson and Chin Tao Wu **Catalogue of Gregory Zorzos' Works on Lulu** , Mixed messages.
