The Imperial Japanese Navy:

A Battle History of the Imperial Japanese Navy Paul Dull, 2012-12-12 For almost 20 years more than 200 reels of microfilmed Japanese naval records remained in the custody of the U S Naval History Division virtually untouched This unique book draws on those sources and others to tell the story of the Pacific War from the viewpoint of the Japanese Former Marine Corps officer and Asian scholar Paul Dull focuses on the major surface engagements of the war Coral Sea Midway the crucial Solomons campaign and the last ditch battles in the Marianas and Philippines Also included are detailed track charts and a selection of Japanese photographs of major vessels and actions **Imperial Japanese Navy** Andris J. Kursietis, 2014-09-01 The Imperial Japanese Navy Nihon Kaigun 1900 1945 is a comprehensive study that provides biographical information on several thousand Japanese officers of Admiral rank who served the Empire between 1900 1945 from the time that they attained flag rank with photographs of most of the senior Admirals The book also includes an order of battle of the Japanese Navy IJN during these years with a listing of the highest administrative and field commands and their commanders To complete the overall scope of the subject matter seven chapters provide information about the aircraft carriers battleships and cruisers of the IJN with histories that include the dates that the vessels were launched their eventual fates and photographs of these important elements of the IJN **The Imperial Japanese Navy in the Pacific War** Mark Stille, 2014-11-20 The Imperial Japanese Navy IJN was the third most powerful navy in the world at the start of World War II and came to dominate the Pacific in the early months of the war This was a remarkable turnaround for a navy that only began to modernize in 1868 although defeats inflicted on the Russians and Chinese in successive wars at the turn of the century gave a sense of the threat the IJN was to pose Bringing together for the first time material previously published in Osprey series books and with the addition of new writing making use of the most recent research this book details the Japanese ships which fought in the Pacific and examines the principles on which they were designed how they were armed when and where they were deployed and how effective they were in battle A valuable reference source for Pacific War enthusiasts and historians The Imperial Japanese Navy in the Pacific War provides a history of the IJN s deployment and engagements analysis of the evolution of strategy and tactics and finally addresses the question of whether it truly was a modern navy fully prepared for the rigors of combat in the Pacific The Imperial Japanese Navy Anthony John Watts, Brian G. Gordon, 1971 Fl deliste over den kejserlige japanske fl de *Submarines of the Imperial Japanese Navy* Dorr Carpenter, Norman Polmar, 1986 The Imperial Japanese Navy of the Russo-Japanese War Mark Stille, 2016-03-24 When the Imperial Japanese Navy destroyed Russia s battle fleet during the Russo Japanese War it marked the emergence of Japan as one of the world s major naval powers Japan s navy had been built up over just two decades with the IJN acquiring a fleet of modern foreign built warships Coupled with the IJN s leadership and high levels of training this proved enough to destroy the fleet of one of the world s historic naval powers This book explains in concise detail the IJN s fleet of 1904 1905 from its battleships and

armored cruisers to the torpedo boats that launched the first great torpedo attack in history and outlines the history of the naval campaign against the Russian fleet

The Imperial Japanese Navy Fred Thomas Jane, The earliest Japanese history like that of all other nations is a mass of myths and legends But out of this one solid fact has been evolved the Japanese were a race who invaded the island kingdom by way of Korea much as the Saxons and other Teutonic tribes invaded Britain They therefore used the sea at a very early period of their history They found aboriginal tribes when they came and of these the Ainu still exist in the north a race as distinct as our Celts in the north of Scotland The immigrant race are always spoken of and accepted as Mongolians though in Japanese legend the invaders had as in similar Western myths a divine origin Incidentally it is interesting to note that a Japanese with kindred tastes to those Western savants who have found the cradle of the human race in Lapland or in Central Africa has built a theory by which ancient Egypt was the early home of the Japanese To support this theory numerous small similarities were brought forward but it does not seem to have made headway in Japan or to be known in the Western world It is as regards plausibility about on a par with the Anglo Israelite theory that had once quite a vogue in this country and is by no means without disciples to day Whence they came however is a matter of no moment here Japanese national history begins with the expedition led by the Emperor Jimmu at a date which a loose chronology fixes at 660 b c This is the earliest over sea operation unconnected with deities and myths Jimmu who according to the legends was the grandson of the Sea Deity's daughter led an expedition eastward from Mount Takachiho and eventually found himself on the shores of the Inland Sea and here built a fleet by means of which he reached Naniwa Osaka and consolidated the empire For the next seven or eight centuries the nation was forming but beyond a legend suggestive of the story of Jonah nothing is heard of ships or boats till 202 a d when the Empress Jingo equipped a great fleet for the invasion of Korea As an early instance of the use of sea power this expedition has laid great hold on Japanese imagination but since the transportation of the flagship by legions of fishes with which the Empress has made an alliance is the central point of the story its nautical details can hardly be seriously considered What is of more moment is the undoubted fact that the expedition took place that it was a complete success for Japan and laid the foundations of that Japanese interest in Korea which is to day so potent a factor in the Far Eastern problem

From Mahan to Pearl Harbor Sadao

Asada, 2013-04-22 major work by one of Japan's leading naval historians this book traces Alfred Thayer Mahan's influence on Japan's rise as a sea power after the publication of his classic study *The Influence of Sea Power Upon History* Hailed by the British Admiralty Theodore Roosevelt and Kaiser Wilhelm II the international bestseller also was endorsed by the Japanese Naval Ministry who took it as a clarion call to enhance their own sea power That power of course was eventually used against the United States Sadao Asada opens his book with a discussion of Mahan's sea power doctrine and demonstrates how Mahan's ideas led the Imperial Japanese Navy to view itself as a hypothetical enemy of the Americans Drawing on previously unused Japanese records from the three naval conferences of the 1920s the Washington Conference of 1921-22 the Geneva

Conference of 1927 and the London Conference of 1930 the author examines the strategic dilemma facing the Japanese navy during the 1920s and 1930s against the background of advancing weapon technology and increasing doubt about the relevance of battleships He also analyzes the decisions that led to war with the United States namely the 1936 withdrawal from naval treaties the conclusion of the Tripartite Pact in September 1940 and the armed advance into south Indochina in July 1941 in the context of bureaucratic struggles between the army and navy to gain supremacy He concludes that the ghost of Mahan hung over the Japanese naval leaders as they prepared for war against the United State and made decisions based on miscalculations about American and Japanese strengths and American intentions Morning Glory Stephen

recount the war in the Pacific as the Japanese saw and officially recorded it **The Imperial Japanese Navy** Frederick

Thomas Jane,1904 **Imperial Japanese Navy Light Cruisers 1941-45** Mark Stille,2012-02-20 The Imperial Japanese Navy went to war with 17 light cruisers and another three cruiser sized training ships Of these most were 5 500 ton ships designed to act as destroyer squadron flagships This made them much different in capabilities and mission from their American counterparts During the war the Japanese built another five light cruisers all but one of which maintained the design premise of being able to serve as destroyer squadron flagships During the war Japanese light cruisers were active throughout the Pacific performing many missions in addition to their flagship duties Mark Stille continues Osprey s coverage of the IJN of WWII with this concise and complete study of all 25 ships from their design and development to their ultimate

fates Detailed Osprey artwork and rare period photographs from the Fukui collection held in Kure Japan illustrate this discussion Warships of the Imperial Japanese Navy, 1869-1945 Hansgeorg Jentschura,1977 The Imperial Japanese Navy Fred T Jane,1984 **End Japanese Navy** Masanori Itō,1984-12 **Imperial Japanese Navy Submarines 1941-45** Mark Stille,2012-06-20 During World War II the Imperial Japanese Navy was at the forefront of submarine technology It fielded the largest pre nuclear submarines in the world some capable of carrying floatplane bombers which operated alongside fast combat vessels and midget submarines all equipped with the best torpedoes available The Japanese submarine fleet should have been an awe inspiring force but despite playing a crucial scouting role and enjoying several notable successes it was surprisingly ineffective Using unique color plates Mark Stille describes the astounding technical advances of this range of vessels and the wartime tactics responsible for their failure
