Understanding Volume 2 casts a spotlight on the status of case studies in psychoanalysis which are commonly used to illustrate clinicians expertise and mastery rather than patients actual itineraries When a case is presented the complex unwieldy and often self contradictory material of a therapeutic trajectory is often vastly oversimplified in view of producing a linear narrative that seems perfectly to fit the parameters of a practitioner's preferred theoretical framework Bruce Fink attempts to eschew the appearance of mastery in assembling clinical material and in discussing his approach to practice and theory in the myriad case histories and vignettes included in both Volumes 1 and details about the many obscure vacillating and unruly phases of treatment Fink hopes thereby to allow readers to form their own opinions about the well foundedness or unsoundness of his formulations interpretations and interventions This second part of a two volume collection of papers interviews and case studies provides the reader with hundreds of illustrations of Lacanian theory in practice and will be essential for psychoanalysts psychotherapists psychiatrists psychologists social workers and counselors      **Collected**

This last volume of Kierkegaard Research Sources Reception and Resources is a cumulative index to all the volumes of the series. The series was originally designed in a systematic fashion in order to make it as easily usable and accessible as possible. The individual parts of the series and the individual volumes have been organized to make it generally fairly simple to locate the main articles relevant for one's research interests. However, the placement of some individual articles might not always be completely self-evident. Moreover, the sheer mass of material and information provided by the series makes a cumulative index a necessary accompanying resource. Further, given the scope of the series, it was inevitable that some names or topics are mentioned more than once in the series in different places beyond the main article ostensibly dedicated to them. The purpose of these indices is thus to help the readers to find an easy and direct way to the topics of their interest in the rich universe of Kierkegaard research. The material of the indices is divided into three tomes. Tome I is the Index of Names from A to K. Tome II covers the Index of Names from L to Z, while Tome III consists of the Index of Subjects and includes a complete overview of all the volumes, tomes and articles of the series.

**Correspondance 1904-1938** Anna Freud, Sigmund Freud, 2012-10-17. Riche de près de 300 lettres, la correspondance échangée entre Freud et la plus jeune de ses filles Anna est un document exceptionnel. Tout au long de cette chronique de la vie d'une famille viennoise pendant les premières décennies du XXe siècle, on découvre l'homme Freud travaillant son œuvre et sa pratique clinique et s'intéressant aux détails de la vie quotidienne. Mais c'est la psychanalyse qui scelle d'une manière singulière la relation entre le père et sa fille. Je vois présent en te regardant combien je suis vieux car tu as exactement l'âge de la psychanalyse. Vous m'avez toutes deux causé des soucis mais au fond j'attends quand même plus de joies de ta part que de la sienne. Lui, critiquant la fin de 1920. Cette comparaison montre quel point en ses commencements la psychanalyse s'avère en famille et dans le cercle des initiés. Freud observe l'activité onirique de sa fille, une enfant tourmentée avant de devenir deux reprises entre 1918 et 1924 son analyste. L'expérience est décisive. Anna s'implique dans l'International Psychoanalytical Association dès sa création, fréquente ses membres, se fait même courtiser par quelques-uns d'entre eux. Mais disciple fervente, elle se consacre à l'histoire des enfants et devient dans ce domaine la principale représentante de l'école viennoise face à sa grande rivale de l'école anglaise, Melanie Klein. Après l'exil de la famille en Grande-Bretagne en 1938, le conflit se poursuivra mais se soldera en plein cœur de la Deuxième Guerre mondiale par une entente cordiale entre les différents courants. Document historique précieux, cette correspondance qui s'étend sur plus de trente ans témoigne d'un moment essentiel de l'histoire de la psychanalyse avec ses passions et sa formidable volonté de transformer la subjectivité humaine. Ouvrage traduit avec le concours du Centre National du Livre.
