The Influence Of Law On Sea Power

Ian Speller

The Influence Of Law On Sea Power:

The Influence of Law on Sea Power Daniel Patrick O'Connell, 1975 From the John Holmes Library collection The Influence of Sea Power Upon the French Revolution and Empire, 1793-1812 Alfred Thayer Mahan, 1892 Seapower Geoffrey Till, 2018-06-19 This is the fourth revised and updated edition of Geoffrey Till's *Seapower A Guide for the Twenty first Century* The rise of the Chinese and other Asian navies worsening quarrels over maritime jurisdiction and the United States maritime pivot towards the Asia Pacific region reminds us that the sea has always been central to human development as a source of resources and as a means of transportation information exchange and strategic dominion It has provided the basis for mankind's prosperity and security and this is even more true in the early twenty first century with the emergence of an increasingly globalised world trading system Navies have always provided a way of policing and sometimes exploiting the system In contemporary conditions navies and other forms of maritime power are having to adapt in order to exert the maximum power ashore in the company of others and to expand the range of their interests activities and responsibilities While these new tasks are developing fast traditional ones still predominate Deterrence remains the first duty of today's navies backed up by the need to fight and win if necessary How navies and their states balance these two imperatives will tell us a great deal about our future in this increasingly maritime century This book investigates the consequences of all this for the developing nature composition and functions of all the world's significant navies and provides a guide for anyone interested in the changing and crucial role of seapower in the twenty first century *Seapower* is essential reading for all students of naval power maritime security and naval history and highly recommended for students of strategic studies international security and international relations Seapower in the Post-modern World Basil Germond, 2024-04-16 In an era of increasing geopolitical tensions disruptive technologies and the rise of authoritarianism the question of who masters the seas is more than ever central to the future of the international order But while naval operations maritime security and ocean governance have become increasingly relevant in world politics the concept and definition of seapower have largely been neglected by the scholarship in the international relations field *Seapower in the Post modern World* fills this gap with an analysis of the naval economic and ideational dimensions of seapower from antiquity to today Exploring the extent to which the permanent elements associated with seapower such as technology commerce and maritime culture transcend historical periods Basil Germond frames contemporary seapower as a combination of components including traditional naval power post modern conceptions of collective and civilian seapower and the neo modern phenomena of maritime territorialization and the naval arms race By giving seapower a new conceptual definition *Seapower in the Post modern World* offers key analytical tools for understanding the stability of the global maritime order and seapower's contribution to global leadership more broadly **United Nations Naval Peace Operations in the Territorial Sea** Rob McLaughlin, 2009-10-23 This book examines UN naval peace operations addressing the construction and assessment of

authority with respect to a range of acts essential to the conduct of such operations The focus is particularly upon operations as they relate to and impact upon the Territorial Sea Within a conceptual approach emphasising the interaction of power and legitimation in the construction of authority naval peace operations issues such as Innocent Passage interdiction operations and transitional administration are considered The book concludes by proposing a conceptually and operationally sensitive approach to constructing authority for the conduct of UN naval peace operations in the Territorial Sea

The Politics of Maritime Power Andrew T. H. Tan, 2010-10-18 Since the crucial maritime battles that were fought during the Second World War in both the Atlantic and Pacific Oceans and the post war period which saw a naval standoff between a vast US navy and a growing Soviet navy the focus of international maritime power has changed Major maritime powers have deployed warships aircraft carriers and heavy land forces around the globe for purposes of diplomacy such as in maintaining far flung alliances for deterrent purposes such as in the Taiwan Straits for warfighting such as in its crucial support roles in recent conflicts in Afghanistan and both Gulf Wars and for complex emergencies such as tsunami and earthquake rescue in Indonesia and Pakistan Increasingly maritime power is employed in counter terrorism such as in joint patrols counter terrorism exercises and in intercepting ships suspected of carrying weapons of mass destruction The Politics of Maritime Power is an exploration of the contemporary facets of maritime power particularly as an instrument of the state in the post Second World War era This reference volume is divided into four parts with chapters exploring various aspects of modern maritime power written by maritime experts a series of maps which show major maritime zones a glossary which contains over 240 entries on various aspects of maritime power and a detailed bibliography

Maritime Strategy for Medium Powers Rear Admiral J.R. Hill, 2021-05-30 This book first published in 1986 argues that there is a special category of medium powers in the world such as Britain France India Brazil Japan China and others which have sufficient military power to do something to protect their interests but which are not a match for the superpowers It surveys the whole range of naval warfare equipment operations organisation and deployment and discusses how each item should be tailored by the recognition of the position of the medium power It considers alliances a key element for medium powers and explores how these should be handled and what use they may be expected to fulfil The book argues that the concept of medium power here developed thoroughly for the first time will be extremely useful to many countries in defining their strategic role in a purposeful way

Grasping the Influence of Law on Sea Power James Kraska, 2025-05-22 The Naval War College Review was established in 1948 and is a forum for discussion of public policy matters of interest to the maritime services The forthright and candid views of the authors are presented for the professional education of the readers Articles published are related to the academic and professional activities of the Naval War College They are drawn from a wide variety of sources in order to inform stimulate and challenge readers and to serve as a catalyst for new ideas Articles are selected primarily on the basis of their intellectual and literary merits timeliness and usefulness and interest to a wide readership The thoughts and opinions

Proportionality and the Use of Force by States Judith Gardam,2004-11-18 There has been considerable debate in the international community as to the legality of the forceful actions in Kosovo in 1999 Afghanistan in 2002 and Iraq in 2003 under the United Nations Charter There has been consensus however that the use of force in all these situations had to be both proportional and necessary Against the background of these recent armed conflicts this 2004 book offers the first comprehensive assessment of the twin requirements of proportionality and necessity as legal restraints on the forceful actions of States It also provides a much needed examination of the relationship between proportionality in the law on the use of force and international humanitarian law [The Oxford Handbook of International Security](#) Alexandra Gheciu,William C. Wohlforth,2018-03-08 This Oxford Handbook is the definitive volume on the state of international security and the academic field of security studies It provides a tour of the most innovative and exciting news areas of research as well as major developments in established lines of inquiry It presents a comprehensive portrait of an exciting field with a distinctively forward looking theme focusing on the question what does it mean to think about the future of international security The key assumption underpinning this volume is that all scholarly claims about international security both normative and positive have implications for the future By examining international security to extract implications for the future the volume provides clarity about the real meaning and practical implications for those involved in this field Yet contributions to this volume are not exclusively forecasts or prognostications and the volume reflects the fact that within the field of security studies there are diverse views on how to think about the future Readers will find in this volume some of the most influential mainstream positivist voices in the field of international security as well as some of the best known scholars representing various branches of critical thinking about security The topics covered in the Handbook range from conventional international security themes such as arms control alliances and Great Power politics to new security issues such as global health the roles of non state actors cyber security and the power of visual representations in international security The

Oxford Handbooks of International Relations is a twelve volume set of reference books offering authoritative and innovative engagements with the principal sub fields of International Relations The series as a whole is under the General Editorship of Christian Reus Smith of the University of Queensland and Duncan Snidal of the University of Oxford with each volume edited by a distinguished pair of specialists in their respective fields The series both surveys the broad terrain of International Relations scholarship and reshapes it pushing each sub field in challenging new directions Following the example of the original Reus Smit and Snidal The Oxford Handbook of International Relations each volume is organized around a strong central thematic by a pair of scholars drawn from alternative perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions

Surface Warfare, 1978 **Understanding Naval Warfare** Ian Speller, 2023-09-11 This updated new edition of Understanding Naval Warfare offers the reader an accessible introduction to the study of modern naval warfare providing a thorough grounding in the vocabulary concepts issues and debates set within the context of relevant history The third edition explains traditional concepts and explores current and emerging ideas concerning the theory and practice of naval warfare relating these to recent events including Sino American naval competition and the Russian Ukraine War Navies operate in an environment that most people do not understand and that many avoid They are equipped with a bewildering range of ships craft and other vessels and types of equipment the purpose of which is often unclear Writings on naval warfare are usually replete with references to esoteric concepts explained in specialist language that can serve as a barrier to understanding This book cuts through the obscure and the arcane to offer a clear coherent and accessible guide to the key features of naval warfare which will equip the reader with the knowledge and understanding necessary for a sophisticated engagement with the subject The new edition is divided into two key parts The first focuses on concepts of naval warfare and introduces readers to the ideas associated with the theory and practice of naval operations and includes a chapter where the history of the last century of naval warfare is explored in order to illustrate the key concepts The second part focuses on the conduct of war at sea and on peacetime roles for contemporary navies and now includes new material on hybrid warfare and grey zone operations and on joint warfare multi domain operations and integrated deterrence within the context of evolving great power rivalry at sea This textbook will be essential reading for students of naval warfare sea power and maritime security and is highly recommended for those studying military history strategic studies and security studies in general

Talking about Naval History John B. Hattendorf, 2011 NOTE NO FURTHER DISCOUNT ON THIS PRINT PRODUCT OVERSTOCK SALE Significantly reduced list price Twenty essays selected from the writings of John B Hattendorf Ernest J King Professor of Maritime History at the U S Naval War College between 2001 and 2009 They represent a wide historical perspective that ranges across nearly four centuries of maritime history A number of these pieces have been published previously but have appeared in other languages and in other countries where they may not have come to the attention of an American naval reading audience This collection is divided

into parts that deal with four major themes the broad field of maritime history general naval history with specific focus on the classical age of sail from the mid seventeenth century to the end of the Napoleonic Wars in 1815 the wide scope of American naval history from 1775 to the end of the twentieth century and finally the realm of naval theory and its relationship to naval historical studies They are reprinted with only minor alterations as they originally appeared This work may appeal to general history readers scholarly and general adult readers of history especially naval and maritime plus students pursuing coursework in military science degree programs Other related products Fundamentals of War Gaming Print Paperback format can be found here https://bookstore.gpo.gov/products/sku/008_046_00299_1 Print Hardcover format can be found here https://bookstore.gpo.gov/products/sku/008_046_00269_0 Nineteen Gun Salute Case Studies of Operational Strategic and Diplomatic Naval Leadership During the 20th and Early 21st Centuries can be found here https://bookstore.gpo.gov/products/sku/008_046_00252_5 Digesting History The U S Naval War College the Lessons of World War Two and Future Naval Warfare 1945 1947 Print Paperback format is available here https://bookstore.gpo.gov/products/sku/008_046_00255_0 ePub format is available here https://bookstore.gpo.gov/products/sku/008_300_00040_2 ePub is also available from Apple iBookstore BarnesandNoble.com Books on Board eBookstore Diesel eBookstore Google Play eBookstore Overdrive Powell's eBookstore Please use ISBN 9781884733864 to search for this product within these platforms Naval War College Illustrated History and Guide can be found here https://bookstore.gpo.gov/products/sku/008_046_00265_7 Other products produced by the U S Naval War College NWC can be found here https://bookstore.gpo.gov/products/sku/008_046_00265_7 **Littell's Living Age** ,1894

The Seaforth Bibliography Eugene Rasor,2009-04-17 This remarkable work is a comprehensive historiographical and bibliographical survey of the most important scholarly and printed materials about the naval and maritime history of England and Great Britain from the earliest times to 1815 More than 4 000 popular standard and official histories important articles in journals and periodicals anthologies conference symposium and seminar papers guides documents and doctoral theses are covered so that the emphasis is the broadest possible But the work is far far more than a listing The works are all evaluated assessed and analysed and then integrated into an historical narrative that makes the book a hugely useful reference work for student scholar and enthusiast alike It is divided into twenty one chapters which cover resource centres significant naval writers pre eminent and general histories the chronological periods from Julius Caesar through the Vikings Tudors and Stuarts to Nelson and Bligh major naval personalities warships piracy strategy and tactics exploration discovery and navigation archaeology and even naval fiction Quite simply no one with an interest and enthusiasm for naval history can afford to be without this book at their side *Great Britain, International Law, and the Evolution of Maritime Strategic Thought, 1856-1914* Gabriela A. Frei,2020-04-16 Gabriela A Frei addresses the interaction between international maritime law and maritime strategy in a historical context arguing that both international law and maritime strategy are based on long term state interests Great Britain as the predominant sea power in the nineteenth and early twentieth centuries shaped the

relationship between international law and maritime strategy like no other power This study explores how Great Britain used international maritime law as an instrument of foreign policy to protect its strategic and economic interests and how maritime strategic thought evolved in parallel to the development of international legal norms Frei offers an analysis of British state practice as well as an examination of the efforts of the international community to codify international maritime law in the late nineteenth and early twentieth centuries Great Britain as the predominant sea power as well as the world's largest carrier of goods had to balance its interests as both a belligerent and a neutral power With the growing importance of international law in international politics the volume examines the role of international lawyers strategists and government officials who shaped state practice Great Britain's neutrality for most of the period between 1856 and 1914 influenced its state practice and its perceptions of a future maritime conflict Yet the codification of international maritime law at the Hague and London conferences at the beginning of the twentieth century demanded a reassessment of Great Britain's legal position

Navies and Foreign Policy (Routledge Revivals) Ken Booth, 2014-06-27 First published in 1977 this study offers a comprehensive systematic and integrated survey of the important relationship between navies and the making and execution of foreign policy Ken Booth explains the functions navies can perform in both war and peace the influence they have on particular situations and how the relevant organisations can affect the character of naval actions Ultimately navies are regarded as indispensable instruments of the state by a number of countries whilst all countries with a coast find some need to threaten a degree of force at sea This book provides students and academics with the intellectual framework with which to assess the changing character of the navy

Problems of Communism, 1981

Naval Blockades and Seapower Bruce Allen Elleman, Sarah C.M. Paine, 2007-04-11 This new collection of scholarly readable and up to date essays covers the most significant naval blockades of the nineteenth and twentieth centuries Here the reader can find Napoleon's Continental Blockade of England the Anglo American War of 1812 the Crimean War the American Civil War the first Sino Japanese War 1894 95 the Spanish American War the First World War the second Sino Japanese War 1937 45 the Second World War in Europe and Asia the Nationalist attempt to blockade the PRC the Korean War the Cuban Missile Crisis the Vietnam War the British blockade of Rhodesia the Falklands War the Persian Gulf interdiction program the PRC missile blockade of Taiwan in 1996 and finally Australia's recent reverse blockade to keep illegal aliens out of the country The authors of each chapter address the causes of the blockade in question its long and short term repercussions and the course of the blockade itself More generally they address the state of the literature taking advantage of new research and new methodologies to provide something of value to both the specialist and non specialist reader Taken as a whole this volume presents fresh insights into issues such as what a blockade is why countries might choose them which navies can and cannot make use of them what responses lead to satisfactory or unsatisfactory conclusions and how far reaching their consequences tend to be This book will be of great interest to all students and scholars of strategic studies military history and maritime studies in particular
