Preaching the Crusades to the Eastern Mediterranean Constantinos Georgiou,2018-03-05 Preaching was an integral part of the crusade movement

This book focuses on the efforts of the first four Avignon popes to organize crusade preaching campaigns to the Eastern Mediterranean and on the role of the secular and regular clergy in their implementation. Historians have treated the fall of Acre in 1291 as an arbitrary boundary in crusader studies for far too long. The period 1305-1352 was particularly significant for crusade preaching yet it has not been studied in detail. This volume thus constitutes an important addition to the flourishing field of late medieval crusade historiography. The core of the book deals with two interlocking themes: the liturgy for the Holy Land and the popular response to crusade preaching between the papacies of Clement V and Clement VI. The book analyses the evolving use of the liturgy for the crusade in combination with preaching and it illustrates the catalytic role of these measures in driving popular pro crusade sentiments. A key theme in the account is the analysis of the surviving crusade sermons of the Parisian theologians from the era. Critical editions of these previously neglected propagandistic texts are a valuable addition to our corpus of papal correspondence relating to the crusades in the later Middle Ages. This book will be of interest both to specialized historians and to students of late medieval crusading.

The Invention of the Crusades Christopher Tyerman, 1998-06-08. What were the Crusades? Were the great Christian expeditions to invade the Holy Land in fact Crusades at all? In this radical and compelling new treatment, Christopher Tyerman questions the very nature of our belief in the Crusades, showing how historians writing more than a century after the First Crusade retrospectively invented the idea of the Crusade. Using these much later sources, all subsequent historians up to the present day have fallen into the same trap of following propaganda from a much later period to explain events that were understood quite differently by contemporaries.

A History of the Crusades Kenneth Meyer Setton, 1969. The six volumes of *A History of the Crusades* will stand as the definitive history of the Crusades, spanning five centuries, encompassing Jewish, Moslem, and Christian perspectives, and containing a wealth of information and analysis of the history, politics, economics, and culture of the medieval world.

The Chronicle of William of Puylaurens William (of Puylaurens.), 2003. William of Puylaurens' chronicle, here translated into English for the first time, is one of the main contemporary accounts of these events. It describes heresy in the south of France in the early 13th century, provides a narrative of the crusade, and then outlines the growth of the Inquisition and the sustained attack on heresy which followed, including the siege of the Cathar fortress of Montségur in 1243-44. This translation is accompanied by an introduction, full notes, appendices, and a bibliography.
