Museums and the First World War Gaynor Kavanagh, 2014-05-15 The book is concerned with how during four demanding dislocating and world changing years that most Victorian of institutions the museum was forced or prompted to meet the extraordinary test of war on the home front Museums were no more immune from the pressures of war than any other institution and the changes in museums during this period some long term others transitory do much to explain the nature and character of museums in Britain today Their history reveals and reflects the broader history of the home front and the willing stumbling confused efforts to do the right thing at the right time They were far away from the fighting the despair and degradation of the battlefields But they were in some measure not only close to but part of a society carrying both its fears and expectations for those operating in a war which disassembled all their lives The discussion covers the progress of museums from just before the advent of war in August 1914 to the immediate post war period 1920 although this is set in the context of museum developments before and after this span of time Museums are considered in relation to the tensions and prevalent conditions of this period Further the nature and effect of the experience of them and the public services they provide in both the long and short term are examined *The Imperial War Museum Book of the First World War* ,2002

Imperial War Museum Book of the War at Sea 1914-18 Julian Thompson, 2011-07-22 Based on gripping first hand testimony from the archives of the Imperial War Museum this book reveals what it was really like to serve in the Royal Navy during the First World War It was a period of huge change for the first time the British navy went into battle with untried weapon systems dreadnoughts submarines aircraft and airships Julian Thompson blends insightful narrative with never before published stories to show what these men faced and overcame Officers and men from admirals down to the youngest sailors faced the same dangers at sea in often terrible weather conditions with the ever present prospect of being blown to pieces or choking to death trapped in a compartment or turret as they plunged to the bottom of the sea In their own words they share their experiences from long patrols and pitched battles in the cold rough water of the North Sea to the perils of warfare in the Dardanelles from the cat and mouse search for Vice Admiral Graf von Spee in the Pacific to the dangerous raids on Ostend and Zeebrugge We see what it was like to spend weeks in the cramped smelly submarines of the period or to attack U boats from unreliable airships

provides a targeted survey of 100 years of historical and contemporary understandings and practices of the book as cure The contributors explore the curative practices of wartime reading how they were developed and institutionalized after the war and the afterlives of these ideas and practices today Divided into three sections the first considers bibliotherapy in World War I It is rooted in the wartime cultures which ensured bibliotherapy became part of the active treatment of soldiers damaged minds and bodies on both sides of the Atlantic after 1914 Parts two and three examine the expanding variety of critical contexts both historical and more modern in which reading and wellbeing continued to intersect The chapters draw on a wide range of source material from trench magazines to autograph books to e novels as well as on data and information drawn from practice based encounters They also provide the basis for further scholarly exploration of for example national traditions and contexts and the inter disciplinary relationships which they inspire *A Hundred Years of Bibliotherapy Healing through Books* provides the first interdisciplinary dialogue on and account of bibliotherapy addressing both historical and present day modes of engaging with the ostensibly curative power of reading and reading cultures It is an invaluable resource for scholars of literary studies book history and the medical humanities *Performing the Self* Katie Barclay, Sarah Richardson, 2016-04-14 That the self is performed created through action rather than having a prior existence has been an important methodological intervention in our understanding of human experience It has been particularly significant for studies of gender helping to destabilise models of selfhood where women were usually defined in opposition to a male norm In this multidisciplinary collection scholars apply this approach to a wide array of historical sources from literature to art to letters to museum exhibitions which survive from the medieval to modern periods In doing so they explore the extent that using a model of performativity can open up our understanding of women s lives and sense of self in the past They highlight the way that this method provides a significant critique of power relationships within society that offers greater agency to women as historical actors and offers a challenge to traditional readings of women s place in society An innovative and wide ranging compilation this book provides a template for those wishing to apply performativity to women s lives in historical context This book was originally published as a special issue of *Women s History Review* *Picture This* Pearl James, 2009 Essays by Jay Winter Jeffrey T Schnapp Jennifer D Keene and others reveal the centrality of visual media particularly the poster within the specific national contexts of Britain France Germany Russia and the United States during World War I Ultimately posters were not merely representations of popular understanding of the war but instruments influencing the
