The Inner History of the Chinese Revolution

By

T'ang Leang-Li

*Representative in Great Britain and Correspondent in
Europe of the Central Executive Committee
of the Kuo-Min Tang*

One of the most dramatic aspects of the Chinese National Revolution is that practically all the leaders have studied abroad—particularly in England and the United States—and have gained their revolutionary inspirations from Western political philosophy.

The author, having been closely associated with the most prominent of these leaders and having had access to many confidential documents, has become acquainted with the secret decisions of the Political Council of the Kuo-Min Tang, which are now revealed for the first time.

This is the first book to give an insight into the inner machinery of a Revolution inspired and conducted by leaders whose "foreign" political philosophy turned their eyes away from the past and the restoration of the Empire, toward the future with its hope of a new social and political consciousness for all classes of the Chinese people.

The Inner History Of The Chinese Revolution:

The Inner History of the Chinese Revolution T'ang Leang-li, 1975 **The Inner History of the Chinese Revolution** Leang-Li T'Ang, 1976-08 **The Inner History of the Chinese Revolution** Liang-li T'ang, 1977 **The Inner History of the Chinese Revolution** Liang-li T'ang, 1977 **The Tragedy of the Chinese Revolution** Harold Isaacs, 2010 The story of contemporary China typically dates back to Mao's 1949 revolution. But in this classic work Harold R. Isaacs uncovers how workers and peasants struggled for a different kind of revolution, one built from the bottom up in the 1920s. The defeat of their heroic efforts profoundly shaped the further course of modern Chinese history. **Prologue to the Chinese Revolution** Charlton M. Lewis, 2020-03-17 The author argues that the transformation of ideas and institutions in Hunan around the turn of the twentieth century was brought about mainly by the orthodox Confucian literati and that imperialist penetration was largely the result of changes within the province. **The Statesman's Year-Book** Mortimer Epstein, 2016-12-27 The classic reference work that provides annually updated information on the countries of the world. **The Statesman's Year-Book** M. Epstein, 2016-12-28 The classic reference work that provides annually updated information on the countries of the world. **Moscow and the Emergence of Communist Power in China, 1925-30** Bruce Elleman, 2009-01-30 This book examines the emergence of Communist power in China during the interwar period, focusing especially on the 1927 Nanchang Uprising. It explains why the Communists created the myth that the Nanchang Uprising was a success and later dated the origins of the People's Liberation Army to this event. **Institute of Pacific Relations** United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws, 1951 Investigates alleged communist control of the publications and international information exchange programs of the Institute of Pacific Relations. Also investigates alleged communist attempts to influence U.S. Far East policy. Includes discussion of Communist Party activities in Nazi Germany. **Books and Notes** Los Angeles County Public Library, 1926 **Mongolia in the Twentieth Century** Stephen Kotkin, Bruce Allen Elleman, 2015-02-12 The remote vastness of Mongolia has remained somewhat of a mystery to most Westerners, no less so in the 20th century. Homeland of the legendary conqueror Chingiz Khan, in modern times Mongolia itself has been the object of imperial rivalry. For most of the 20th century it was under Soviet domination. Mikhail Gorbachev began the withdrawal of Soviet troops from Mongolia in 1989, a process completed in 1992. By 1996 a coalition of opposition parties triumphed in national elections and Mongolia launched itself on a new course. It is perhaps the most intriguing of the post-communist transition societies. This volume examines Mongol history over the past century, embracing not only Mongolia proper but also Mongol communities in Russia and China. Contributions based on new archival research and the latest fieldwork are from the world's top experts in the field, including four authors from Mongolia and others from Japan, Russia, Taiwan, Great Britain, and the United States. Stephen Kotkin's introductory chapter is an overview of Mongol studies. The essays in part 1 examine Sino-

Russian competition over Outer Mongolia Part 2 looks at international diplomacy in Mongolia including the role of Japan Part 3 focuses on contemporary issues ranging from economic and cultural change to emergent elites A concluding essay surveys Mongolian foreign policy *Trübner's Bibliographical Catalogues* Kegan Paul, Trench, Trubner & Co,1925 **P'eng P'ai and the Hai-Lu-feng Soviet** Fernando Galbiati,1985 A Stanford University Press classic **Region and Nation** Diana Lary,1974 A study of the tensions between region and nation in Republican China Diana Lary gives a detailed examination of Kwangsi province in south west China the home base of a major warlord clique that was important both for its interesting internal politics and for its national influence in the late 1920s and the 1930s She reconstructs with imagination and thoroughness the intricate political and military history of the nation but without losing sight of the overall regional character of the Kwangsi government and its policies She shows how the regional leaders responded to central breakdown what sense they had of the nation even in its weakened condition China is usually studied as a monolithic entity Diana Lary demonstrates that such a simple view must fail that China also consists of a large number of distinct regions with special patterns of relationship to the centre *Orientalia* ,1926 **The Political Thought of Sun Yat-sen** A. Wells,2001-10-29 The significance of Sun Yat sen s political thought has rarely been appreciated though he is hailed as the Father of Modern China This is the first extended treatment of the subject which will be invaluable to sinologists and historians of political thought Dr Wells first traces the development of Sun s revolutionary ideas from the nineteenth to the twentieth century She then considers the impact of Sun s political thought on Chinese revolutionary leaders and on Third World countries arguing that it has been considerable This subject has never before been so widely explored *The Rise of the Chinese Military Power* Ralph L. Powell,2015-12-08 A study of the growth of semi personal Chinese armies and the rise of militarists to a position that permitted them to seize power upon the breakdown of the monarchic system It traces the modernization of the land forces of the Chinese Empire and evaluates progress attained up to the establishment of the Republic in 1912 Ralph Powell is on leave from the history department at Princeton University as a professor at the National War College Originally published in 1955 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Disarming the Allies of Imperialism* Michael G. Murdock,2010-03-31 This study provides a striking new explanation of how China s Nationalist Party GMD defeated its rivals in the revolution of 1922 1929 and helped bring some degree of unification to a country torn by class regional and ideological interests *Disarming the Allies of Imperialism* argues that inconsistency more than culture ideology or any other factor gave nationalism its unique edge Revolutionary leaders manipulated revolutionaries and non revolutionaries alike to advantage their own positions and

seize national power sometimes seeking to protect foreign lives and property and shield Chinese merchants from agitative disruptions sometimes voting to do the opposite Exploiting the symbiotic yet contradictory relationship between state building which sought foreign ties and international recognition and low level agitators committed to confrontational anti imperialist objectives top Guomindang leaders were able to manipulate political circumstances to their own benefit For example party leaders stirred up anti Christian sentiment pitting popular forces against mission schools while simultaneously intervening to rescue these same schools from agitative destruction thus helping missionaries to soften their attitudes toward the revolution and eventually embrace the new order Scholars of modern Chinese history and anyone familiar with the growing literature on nationalism will appreciate this work for its elucidation of a complex historical snarl while undergraduates and scholars outside the China field will find this a useful and accessible study as well **From War to Nationalism** Arthur Waldron, 2003-10-16 This book investigates the warlord period in China focusing on the pivotal year 1924
