Jackson,2023-09-29 Postfoundational Approaches to Qualitative Inquiry is an edited collection that aims to move beyond a critique and deconstruction of method in order to present an engagement with various postfoundational frameworks and approaches that produce new concepts and enactments What makes this book innovative is the singular focus on postfoundational paradigms borrowed from the humanities and sciences that are enveloped in what is referred to as the ontological turn the new empiricisms and the new materialisms Postfoundational inquiry is conceived by the editors as emergent relational responsive involuntary and inventive While the editors name the facets of these contingent approaches and explain how they work they do so not in order to fix a new method but to spur new connectives In this collection authors take up a range of postfoundational theories such as poststructuralism posthumanism postcolonialism feminist new materialism speculative new empiricism agential realism immanent ontologies and affect theory Provoked by a series of reorienting questions chapters in the book offer enactments as
