The International Dimensions Of Internal Conflict:

The International Dimensions of Internal Conflict Michael Edward Brown, 1996 Internal conflicts threaten many countries and regions globally The first part of this book examines the sources of internal conflicts and the ways these may affect neighbouring states and the international community The second part covers specific problems policy instruments and key actors *The International Dimensions of Internal Conflict* Emmanuel Kwezi Aning, 1997 *Nationalism and Ethnic*

Conflict, revised edition Michael E. Brown, Owen R. Cote, Jr., Sean M. Lynn-Jones, Steven E. Miller, 2001-09-14 Understanding the roots and causes of ethnic animosity analyses of recent events in Bosnia Kosovo Rwanda Somalia and the former Soviet Union Most recent wars have been complex and bloody internal conflicts driven to a significant degree by nationalism and ethnic animosity Since the end of the Cold War dozens of wars in Bosnia Kosovo Rwanda Somalia the former Soviet Union and elsewhere have killed or displaced millions of people Understanding and controlling these wars has become one of the most important and frustrating tasks for scholars and political leaders This revised and expanded edition of *Nationalism and Ethnic Conflict* contains essays from some of the world's leading analysts of nationalism ethnic conflict and internal war The essays from the first edition have been updated and supplemented by analyses of recent conflicts and new research on the resolution of ethnic and civil wars The first part of the book addresses the roots of nationalistic and ethnic wars focusing in particular on the former Yugoslavia The second part assesses options for international action including the use of force and the deployment of peacekeeping troops The third part examines political challenges that often complicate attempts to prevent or end internal conflicts including refugee flows and the special difficulties of resolving civil wars **Internal**

Conflict and the International Community Roderic Alley, 2017-07-05 This insightful book debates whether conflict within states has emerged as the Achilles Heel of the international community It covers a wide range of issues including the roots of internal conflict small arms supplies intervention human rights and international humanitarian law refugees and post conflict reconstruction *Internal Conflict and the International Community* provides supplementary reading for third level undergraduates post graduates and scholars of international relations comparative politics development studies international law and security and defence studies **The International Containment of Displaced Persons** Cecile

Dubernet, 2017-07-12 This title was first published in 2001 This work examines four post Cold War interventions launched on behalf of people on the move international action in Iraq Bosnia Somalia and Rwanda Because these crises accompanied the emergence of the concept of Internationally Displaced Persons IDPs in international relations they have shaped the understandings of forced displacement issues such as ethnic cleansing need and humanitarian action The author looks at attitudes towards IDPs concluding that UN backed interventions regarding displaced civilians were primarily about deterring sometimes preventing them from escaping places of conflict Protection in this context became a device by which international protagonists sought to contain people on the move within the confines of their collapsed states As a result levels

of safety effectively granted by the international community depended less on the vulnerability of populations than on Western fears of mass border crossings

The Shadow of the Past Gregory D. Miller, 2012-02-17 In *The Shadow of the Past* Gregory D Miller examines the role that reputation plays in international politics emphasizing the importance of reliability confidence that based on past political actions a country will make good on its promises in the formation of military alliances Challenging recent scholarship that focuses on the importance of credibility a state's reputation for following through on its threats Miller finds that reliable states have much greater freedom in forming alliances than those that invest resources in building military force but then use it inconsistently To explore the formation and maintenance of alliances based on reputation Miller draws on insights from both political science and business theory to track the evolution of great power relations before the First World War He starts with the British decision to abandon splendid isolation in 1900 and examines three crises the First Moroccan Crisis 1905-6 the Bosnia Herzegovina Crisis 1908-9 and the Agadir Crisis 1911 leading up to the war He determines that states with a reputation for being a reliable ally have an easier time finding other reliable allies and have greater autonomy within their alliances than do states with a reputation for unreliability Further a history of reliability carries long term benefits as states tend not to lose allies even when their reputation declines

Conflict Resolution and Status Céline Francis, 2011 The dispute between Georgia and Abkhazia is not a conflict of equals In international conflicts adversaries may differ de facto on the ground in terms of population territory and capability among other things As internationally recognized states however they have equal de jure status and fears that inviting the other side to the negotiating table might be construed as recognition for example rarely intrude The question of status does pose problems however when a conflict is being fought between a recognized state and an unrecognized entity and these problems may contribute to increase the intractability of such conflicts This study explores how and to what extent the difference in status between a sovereign state and an unrecognized entity hinders conflict resolution activities Based on intensive fieldwork and unedited negotiation material the book provides an in depth analysis of the negotiations informal dialogues and grassroots activities that took place in Abkhazia and Georgia between 1989 and 2008

Identity and Territorial Autonomy in Plural Societies Ramón Máiz, Safran William, 2014-01-14 Focusing on autonomy in countries whose societies are marked by ethnic diversity this work examines the effects of territorial solutions to the safeguarding of cultural identities Contributors distinguish among types of autonomy and their impact on pluralism democracy and unity of the state

Internal Conflicts in Nepal V R Raghavan, 2011-07-07 Neglect of socio economic needs inequality and injustice in Nepali society attributed to the genesis of the Maoist insurgency in Nepal In early 1990 a mass upsurge Jana Andolan paved way for multi party of governance in Nepal The opening up of the polity increased the awareness of inequality which helped Maoist insurgency to grow dramatically However in November 2005 a Comprehensive Peace Agreement was reached between the Communist Party of Nepal CPN UML and other main stream political parties Monarchy was abolished Election to the Constituent

transnational actors and processes The terrorist attacks on the World Trade Center and the Pentagon marked the maturation of what had been described as the new terrorism Jervis has argued that the western system of security governance produced a security community that was contingent upon five necessary and sufficient conditions The United States has made an effort to integrate China Russia into the Atlantic security system via the Partnership for Peace PfP programme and the Euro Atlantic Partnership Council The Black Sea Economic Cooperation has become engaged in disseminating security concerns in fields such as environment energy and economy If the end of the Cold War left America triumphant Russia's new geopolitical hand seemed a terrible demotion Successfully rebalancing the West and building a collaborative system with Russia China Europe and America probably requires more wisdom and skill from the world's leaders

Government Policies and Ethnic Relations in Asia and the Pacific Michael E. Civil Wars and Foreign Powers Patrick M. Regan, 2000 Explores how outside intervention affects the course of civil wars *Global Politics* Abraham Ben-Zvi, Aharon Klieman, 2016-01-20 The essays in this volume discuss and assess the philosophies and writings of Professor David Vital They aim to develop his work within modern diplomacy issues relating to modern Jewish history and within the State of Israel and its conduct of foreign relations International Mediation in Civil Wars Timothy D Sisk, 2009-01-08 This book evaluates the role of international mediators in bringing civil wars to an end and makes the case for powerful peacemaking using incentives and sanctions to leverage parties into peace As internal violence within countries is a hugely significant threat to international peace in the post Cold War era the question of how these wars end has become an urgent research and policy question This volume explores a critical aspect of peacemaking that has yet to be sufficiently evaluated the turbulent period beyond the onset of formal or open negotiations to end civil wars and the clinching of an initially sustainable negotiated settlement The book argues that the transnational flow of weapons resources and ideas means that when civil wars today end they are more likely to do so at the negotiating table than on the battlefield It uses bargaining theory to develop an analytical framework to evaluate peace processes moving from stalemate in wars to negotiated settlement and it rigorously analyses the experiences of five cases of negotiated transitions from war and the role of international mediators South Africa Liberia Burundi Kashmir and Sri Lanka

Despite Nationalist Conflicts Kristen P. Williams, 2001-02-28 Williams explores the effectiveness of various types of responses and strategies available to states when faced with demands for territorial revisions She examines the situations surrounding the 19th century unification of Germany the breakup of Yugoslavia and the strife in Bosnia and Kosovo and the ongoing struggle over the fate of Kashmir The type of demand for territorial revisions she argues and the responses determine whether the outcome will be peace or war While states should deter those states or groups that are imperialist she points to the utility of pursuing a firm but flexible strategy toward those that are consolidationists This analysis will be of considerable value to scholars students and policy makers involved with issues of contemporary nationalism ethnic politics and international relations The Internationalization of Internal Conflicts Amy L. Freedman, 2016-04-29 Internal security crises from environmental disaster extreme poverty and deprivation armed conflicts or ethnic or religious conflict provide sites of opportunity for those seeking to internationalize conflicts Domestic conflicts in Africa the Middle East and Southeast Asia have started as internal problems but have taken on regional and international

dimensions as parties to the conflict within the country and sympathetic external forces have joined forces with each other for mutual gain This book examines the international dimension to internal conflicts and asks under what conditions do domestic conflicts become opportunities for regional or global actors to become involved Why have some countries been able to successfully deal with this problem while others have not Who are the actors who seek to internationalize conflicts Why and with what means do they become involved and how do their agendas get internalized localized Cases include the separatist movements in the Philippines Southern Thailand Aceh Indonesia and the civil wars in Rwanda Congo and Sierra Leone Liberia Lebanon and Iraq This book finds that a combination of greater democratization internally coupled with constructive outside mediation efforts can produce conditions necessary to prevent conflicts from escalating or diffusing and can facilitate peace building Several chapters in this book were originally published as a special issue of Asian Security

Revolutions, Nations, Empires Alexander J. Motyl, 1999 In this concise provocative and trenchant book Alexander J Motyl argues that social scientists must pay more rigorous attention to the formulation of concepts as they provide the basis for clear thinking good research and intelligent formulation of theories Focusing his conceptual explorations on three phenomena revolutions nations and nationalism and empires Motyl challenges the sloppy thinking that so often surrounds these three interrelated concepts and moves our understanding of them toward greater precision
