

BATTLE OF ARGINUSAE

Athens won an astounding victory at Arginusae in 406 BCE, but threw it away by vengefully prosecuting its triumphant generals

For a long while, Athens had rested its hopes for a successful war on Alcibiades, the notorious but undeniably talented general who had led the Athenian fleet to victories at Abydos in 411 BCE and Cydus in 410 BCE. But a disobedient underling lost Alcibiades a battle at Notium in 406 BCE, and also cost him his job. Dismissed by the Athenians, who sought a scapegoat for the defeat, he was replaced by Conon as fleet commander.

Conon conducted naval raids on Peloponnesian territories, and meanwhile, the Spartans sent out a replacement navyarch (admiral) named Callicratides to take over the Peloponnesian fleet based at Ephesus on the western coast of Asia Minor. The navyarch sailed against the Athenian-allied city of Methymna, located on the island of Lesbos. Methymna fell to the Peloponnesian attack, but shortly Conon came up with his fleet of 70 triremes, too late to intervene. So he parked his ships among the Hundred Isles, and by sunrise the next day, the Peloponnesian fleet, consisting of 140 triremes, arrived on the scene. Conon beat a hasty retreat, thinking that he might lure off a part of the much larger enemy fleet and then pounce on it in the

vicinity of the nearby city of Mytilene, which was also on Lesbos.

Conon rowed his ships away slowly, so that the Peloponnesians would give chase. The ruse worked, and Conon then ordered his ships to come around to fall on their pursuers. Despite being caught by surprise, the Peloponnesians fought with such ferocity that they gained themselves enough time for the remainder of their fleet to catch up. Overmatched, Conon escaped with 40 triremes into Mytilene's harbour. The crews of much of the rest of his fleet were forced to beach their ships and run for safety into Mytilene.

Callicratides next made an attempt to take Mytilene by storm, but Conon foiled this off. It would only be a matter of time before the city fell, however, and so Conon despatched a fast trireme to Athens to beg for aid. The Athenians responded to his plea by building a fleet of 110 ships in just a month. Desperate for crewmen, they put aboard any men who were willing to serve, including metics (resident aliens) and foreigners who were given citizenship in exchange for their service, as well as slaves. The fleet moved out to Conon's rescue, and by the time it had reached Mytilene it had been augmented by 40 more ships gathered en route.

In the meantime, Callicratides was continuing his siege of Mytilene, where Conon was still penned, and roughly swatted a tiny Athenian squadron that had the impudence to show itself in the vicinity. Once the main Athenian fleet arrived, Callicratides took 120 triremes against its anchorage, in the three nearby Arginusae islands, leaving 50 ships to keep up the blockade at Mytilene.

When the Peloponnesian fleet was sighted, the Athenians came out to fight. While they had the edge in overall ship numbers, their rowers were less skilled than those of the Peloponnesians, having had so little time in which to train at pulling their oars. Well-aware of their disadvantage, the Athenians deployed their war galleys in front of, and to either side of the 1,500-yard-long Arginusae island. The force was split into two lines, one behind the other, in order to stop the Peloponnesians trying the diekplous, or breakthrough manoeuvre, in which a trireme would row through an enemy line and then turn about to ram the vulnerable sides or sterns of their galleys. If the Peloponnesians tried this the rear line Athenian ships would be perfectly placed to ram them.

Callicratides, scornful of a pre-battle omen that had foretold his own death, directed

The scraped-together Athenian fleet defeated the Spartan-led Peloponnesian fleet at the Battle of Arginusae in 406 BCE.

Right: Conon, the Athenian fleet commander, was trapped in Mytilene, necessitating the rescue mission that resulted in the Battle of Arginusae.

Illustration: John D. Smith
