The International Spread Of Ethnic Conflict:

The International Spread of Ethnic Conflict David A. Lake, Donald Rothchild, 1998-03-22 This work focuses on how why and when ethnic conflicts either diffuse by precipitating similar conflicts elsewhere or escalate by bringing in outside parties and how such transnational ethnic conflicts can be managed It focuses specifically on the conflicts in Eastern Europe and Africa

The International Spread of Ethnic Conflict David A. Lake, Donald Rothchild, 2020-10-06 The wave of ethnic conflict that has recently swept across parts of Eastern Europe the former Soviet Union and Africa has led many political observers to fear that these conflicts are contagious Initial outbreaks in such places as Bosnia Chechnya and Rwanda if not contained appear capable of setting off epidemics of catastrophic proportions In this volume David Lake and Donald Rothchild have organized an ambitious sophisticated exploration of both the origins and spread of ethnic conflict one that will be useful to policymakers and theorists alike The editors and contributors argue that ethnic conflict is not caused directly by intergroup differences or centuries old feuds and that the collapse of the Soviet Union did not simply uncork ethnic passions long suppressed They look instead at how anxieties over security competition for resources breakdown in communication with the government and the inability to make enduring commitments lead ethnic groups into conflict and they consider the strategic interactions that underlie ethnic conflict and its effective management How why and when do ethnic conflicts either diffuse by precipitating similar conflicts elsewhere or escalate by bringing in outside parties How can such transnational ethnic conflicts best be managed Following an introduction by the editors which lays a strong theoretical foundation for approaching these questions Timur Kuran Stuart Hill Donald Rothchild Colin Cameron Will H Moore and David R Davis examine the diffusion of ideas across national borders and ethnic alliances Without disputing that conflict can spread James D Fearon Stephen M Saideman Sandra Halperin and Paula Garb argue that ethnic conflict today is primarily a local phenomenon and that it is breaking out in many places simultaneously for similar but largely independent reasons Stephen D Krasner Daniel T Froats Cynthia S Kaplan Edmond J Keller Bruce W Jentleson and I William Zartman focus on the management of transnational ethnic conflicts and emphasize the importance of domestic confidence building measures international intervention and preventive diplomacy

The Geography of Ethnic Violence Monica Duffy Toft,2010-01-01 The Geography of Ethnic Violence is the first among numerous distinguished books on ethnic violence to clarify the vital role of territory in explaining such conflict Monica Toft introduces and tests a theory of ethnic violence one that provides a compelling general explanation of not only most ethnic violence civil wars and terrorism but many interstate wars as well This understanding can foster new policy initiatives with real potential to make ethnic violence either less likely or less destructive It can also guide policymakers to solutions that endure The book offers a distinctively powerful synthesis of comparative politics and international relations theories as well as a striking blend of statistical and historical case study methodologies By skillfully combining a statistical analysis of a large number of ethnic conflicts with a focused comparison of historical cases of ethnic violence and nonviolence including four major conflicts in the former Soviet Union it achieves a rare balance of general applicability and deep insight Toft concludes that only by understanding how legitimacy and power interact can we hope to learn why some ethnic conflicts turn violent while others do not Concentrated groups defending a self defined homeland often fight to the death while dispersed or urbanized groups almost never risk violence to redress their grievances Clearly written and rigorously documented this book represents a major contribution to an ongoing debate that spans a range of disciplines including international relations comparative politics sociology and history **Understanding Ethnic Conflict** Raymond Taras,2015-08-07 Understanding Ethnic Conflict provides all the key concepts needed to understand conflict among ethnic groups Including approaches from both comparative politics and international relations this text offers a model of ethnic conflict s internationalization by

showing how domestic and international actors influence a country's ethnic and sectarian divisions. Illustrating this model in five original case studies, the unique combination of theory and application in *Understanding Ethnic Conflict* facilitates more critical analysis of contemporary ethnic conflicts and the world's response to them. **Peacebuilding Paradigms** Henry F. Carey, 2020-12-17. Peacebuilding is explained by combining interpretive frameworks, paradigms that have evolved from the subfields of international relations and comparative politics. **Living Together After Ethnic Killing** Roy Licklider, Mia Bloom, 2013-10-23. This volume attempts to critically analyze Chaim Kaufman's ideas from various methodological perspectives with the view of further understanding how stable states may arise after violent ethnic conflict and to generate important debate in the area. After the Cold War, the West became optimistic of their ability to intervene effectively in instances of humanitarian disasters and civil war. Unfortunately, in the light of Bosnia, Somalia, and Rwanda, questions of the appropriate course of action in situations of large-scale violence became hotly contested. A wave of analysis considered the traditional approach of third parties attempting to ensure that the nation was built on the basis of a ruling power share between the opposing sides of the conflict to be overwhelmingly problematic and perhaps impossible. Within this movement, Kaufman wrote a series of articles advocating separation of warring sides in order to provide stability in situations of large-scale violence. His theorem provoked extreme responses and polarized opinion, contradicting the established position of promoting power sharing, democracy, and open economies to solve ethnic conflict and had policy implications for the entire international community. This book was previously published as a special issue of *Security Studies*. **Regional Conflict Management** Paul Francis Diehl, Joseph Lepgold, 2003. This collection of original essays is one of the first to examine the implications and efficacy of regional conflict management in the new world order. **Why Communism Did Not Collapse** Martin K. Dimitrov, 2013-07-31. Addresses the durability of communist autocracies in Eastern Europe and Asia, the longest lasting type of non-democratic regime to emerge after World War I. *International Handbook of Violence Research* Wilhelm Heitmeyer, John Hagan, 2005-08-12. An international manual is like a world cruise, a once-in-a-lifetime experience. All the more reason to consider carefully whether it is necessary. This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys. On the other hand, more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments. That was the situation in Western societies when work began on this project in the summer of 1998. It was then too that the challenges emerged: any manual, especially an international one, is a very special type of text which is anything but routine. It calls for a special effort: the state of the art has to be documented for selected subject areas and its presentation made as compelling as possible. The editors were delighted therefore by the cooperation and commitment shown by the eighty-one contributors from ten countries who were recruited to write on the sixty-two different topics by the constructive way in which any requests for changes were dealt with and by the patient response to our many queries. This volume is the result of a long process. It began

with the first drafts outlining the structure of the work which were submitted to various distinguished colleagues Friedheim Neidhardt of Berlin Gertrud Nunner Winkler of Munich and Roland Eckert of Trier to name only a few supplied valuable comments at this stage
