M10 Tank Destroyer vs StuG III Assault Gun Steven J. Zaloga, 2013-08-20 The Allies M10 Tank Destroyer and the Germans Sturmgeschütz StuG III were the unsung workhorses of the northwest European battlefields of 1944-45 While their mission was not principally fighting one another their widespread use ensured their frequent encounters from the Normandy Bocage to the rubble strewn streets of Aachen The StuG III was the quintessential assault gun a low slung heavily armoured turretless vehicle intended to provide direct fire support for infantry formations whilst the M10 3in Gun Motor Carriage was originally developed as a tank destroyer However by 1944 the 3in gun proved ineffectual against the most thickly armored German tanks and was consequently relegated to infantry support too Widely deployed in roles their designers had not envisaged these two armoured fighting vehicles clashed repeatedly during the 11 month campaign which saw the Allies advance from Normandy to the heart of the Reich Fully illustrated with specially commissioned artwork this is the story of their confrontation at the height of World War II **T-34 vs StuG III** Steven J. Zaloga, 2019-08-22 In the summer of 1944 the Red Army staged a massive armoured assault up the Karelian Isthmus with the intent of eliminating any remaining German and Finnish forces facing the Leningrad region Most of the Soviet units sent into Finland were new to the region moving mainly from the fighting in the Leningrad area As a result some had the latest types of Soviet equipment including the new T-34-85 tank fielded alongside the older T-34-76 Germany refused to sell the Finns new tanks without a reinforced military alliance but in 1943 began selling them a few dozen StuG III assault guns This made the StuG III battalion the most modern and powerful element of the Finnish armoured division and it saw very extensive combat in the June/July summer battles Featuring specially commissioned artwork and an array of archive photographs this is the absorbing story of the parts played by Soviet and Finnish armour in the epic battles in Finland during June and July 1944 **Sturmgeschütze** Bob Carruthers, 2013-06-05 An overview of the Wehrmacht's little known mobile assault guns designed to provide close infantry support against enemy field defenses in World War II The Sturmgeschütze rumbling forward into action is one of the iconic images of World War II As mobile assault guns the StuGs were essentially designed as infantry support weapons but they also
