Subconscious Phenomena Hugo Münsterberg, Theodore Armand Ribot, Théodule Ribot, Pierre Janet, Joseph Jastrow, Bernard Hart, Morton Prince, 1910 Subconscious phenomena ,1910 Subconscious Phenomena Hugo Münsterberg, Théodule Ribot, Pierre Janet, Joseph Jastrow, Bernard Hart, Morton Prince, 1910 Subconscious Phenomena Hugo Münsterberg, Theodore Ribot, Bernard Hart, Pierre Janet, 2015-08-23 One Aim is to help toward some agreement in terminology and possibly in interpretation Six writers in as many chapters discuss what facts are to be included under the term subconscious and what their interpretation should be Main discussion turns on whether our subconscious life is physiologic or psychologic The contributors are Hugo Munsterberg Theodore Ribot Pierre Janet Joseph Jastrow Bernard Hart and Morton Prince For the purpose of arriving at some unanimity if possible on subjects regarding which there exists a certain amount of diversity of opinion it has recently become the fashion among psychologists to write a symposium in which each contributor gives expression to his views The present work produced under the editorship of Dr Morton Prince is of this nature and from it we learn what Münsterberg Ribot Jastrow Prince Janet and Bernard Hart mean by the subconscious That such a work serves a useful purpose may be gathered from the fact that as the master of the symposium states in his introduction there are six recognized meanings of the subconscious 1 That portion of consciousness which for the moment is outside the field of attention 2 Split off or dissociated ideas such as automatic writing 3 A subliminal secondary subconscious self constituted and elaborated from such dissociated ideas 4 A combination of dissociated and forgotten ideas 5 The subliminal reservoir of consciousness from which ideas are drawn into phenomenal consciousness 6 Certain neural processes unaccompanied by any mentation whatsoever Most of the writers take the view that subconscious phenomena are physiological and not psychical processes the underlying reason in all being that they are not memories ideas or anything else of which mentation is composed Janet of course limits the subconscious to such abnormal states as are encountered in hysteria and psychasthenia and Bernard Hart considers that the marginal elements of phenomenal consciousness the subconscious of Stout dissociated portions of phenomenal consciousness the co conscious of Morton Prince and the subconscious of Janet and the non phenomenal conceptual unconscious of Freud all form part of the material of psychology and not of physiology It need scarcely be said that a symposium by such writers is above criticism they criticise each other Nature Volume 86 1911 *Subconscious Phenomena* Munsterberg Hugo, 2019-03-04 **Subconscious Phenomena** Hugo Münsterberg, 2022-10-27 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an
