Rowley, John Farrow, 2018-01-18 This title was first published in 2000 For its third edition this text on knowledge organization and retrieval has been revised and restructured to accommodate the increased significance of electronic information resources With new sections on topics such as information retrieval via the Web metadata and managing information retrieval systems the book explains principles relating to hybrid print based and electronic networked environments experienced by today's users The book is an accessible introduction to knowledge organization for both undergraduate and postgraduate students of information management and information systems      **The Future of Classification** Rita Marcella, Arthur Maltby, 2017-03-02 Classification now has to encompass non physical media such as the Internet yet still ensure access to knowledge held in traditional physical forms on library shelves What does this mean for the future and can classification cope with the virtual library Written by a group of internationally known specialists this book reassesses traditional classification principles and the extent to which they provide the right basis for modern information storage and retrieval First posing the radical question of whether classification is still really necessary the book proceeds by emphasizing the need for systematic knowledge organization with two chapters concentrating on classification in relation to IT and the Internet Later chapters re-examine how present systems Dewey Decimal Classification Universal Decimal Classification and Library of Congress Classification are likely to adapt and provide a wealth of information sources for investigating the subject further The Future of Classification delves deep into what makes knowledge seeking successful Those studying information storage and retrieval and managers wanting to improve retrieval methods on which their service depends should read it      **Advanced Indexing and Abstracting Practices** ,      The Subject in the Dictionary Catalog from Cutter to the Present Francis L. Miksa, 1983      **Subject Analysis Methodologies** E. D. Dym, 1985-10-01 Your choice for a text in document analysis is no longer limited to books containing only one specific method This workbook of Readings representing an introductory state of the art approach to document analysis combines a full range of subject analysis techniques into a comprehensive single source volume      Encyclopedia of Library History Wayne A. Wiegand, Donald G. Jr.

Davis,2015-01-28 First Published in 1994 This book focuses on the historical development of the library as an institution Its contents assume no single theoretical foundation or philosophical perspective but instead reflect the richly diverse opinions of its many contributors This text is intended to serve as a reference tool for undergraduate and graduate students interested in library history for library school educators whose teaching requires knowledge of the historical development of library institutions services and user groups and for practicing library professionals      **Catalog It!** Allison G. Kaplan,2015-12-07 Whether you re a practicing cataloger looking for a short text to update you on the application of RDA to cataloging records or a school librarian who needs a quick resource to answer cataloging questions this guide is for you Since the last edition of this invaluable text was published the library world has experienced a revolution in descriptive cataloging the likes of which has not been seen since the early 1980s This updated third edition of an established and well respected guide makes it easy for you to stay in step with those monumental changes The book will help you understand the latest fundamentals of cataloging so you can get items on the library shelves quickly and efficiently Every chapter has been revised Changes in standards including RDA and BISAC that were alluded to in the second edition are discussed in depth and illustrated with explanations and sample problem sets are included so you can put theory into practice In addition the book provides you with clear headings for easy scanning as well as cheat sheets and templates for creating records for book and non book items Previous editions of this text have been used by library practitioners and library and information science professors across the country because of its spot on easy to follow guidance on cataloging for school libraries This new edition builds upon those strengths adding everything you need to know about current groundbreaking changes
